

back of the young girl. She mentioned the circumstance to the people of the house a few minutes after. It must be observed that she wore that day, a comb in her hair, and had on a blue and white calicoe gown, with rather a yellow tinge, and torn at the skirt.

The next day about three o'clock, in the afternoon, the brother of the young girl Martial Danjou, aged 10 years, having gone to examine the hens nests, and bring in the eggs, found the hen called Huppe, on the nest. As soon as she had left it, he took the egg which she had laid, on which he observed with much surprise, a figure of his sister and the cock. She is drawn in the attitude and dress of the moment: her comb in her hair, her yellowish blue gown torn in the skirt, the stick in her hand her foot raised under the tail of the cock, & her head turned towards the hen, who had flown at her from behind.

This day the 18th of Sept. about 2 o'clock in the afternoon, the young girl found in the same nest, another egg, on which there are figured two small animals, I take the smallest to be a mouse or rat, and the other a cat. Henry Boucher takes the smallest to be a figure of his small dog, the other the cock.

The proprietor of these extraordinary eggs is going to Quebec, where he intends shewing them to the curious.

Georgetown (Demarara) Aug. 13.—We had two distinct shocks of an earthquake here yesterday morning, a little after two o'clock, the one following the other in quick succession. The tremulous motion was not particularly violent, however, and no casualties have occurred. The weather had been oppressively hot for some days previous—and so calm that a mass of vapours had collected and formed dark electrical clouds, which at intervals, illuminated the whole horizon—and led to a good deal of thunder in the morning. The atmosphere is yet more than usually sultry.

Trenton (N. J.) Sept. 27.—We understand that four hundred dollars in notes have been recently found on one of the Mail-Robbers, carefully sewed up in his coat, which he had been permitted to wear on Sundays; being a part of the booty taken from the mail which they plundered. About seventeen thousand dollars sent by that mail, are said to be yet missing.

Buffalo Sept. 14.
WHEAT.—Considerable quantities of Wheat, of the first quality, were sold at Fredonia, Chautauque county, during the past week at thirty seven and a half cents per bushel; and the Gazette states that it did not meet a ready sale, even at that price.

Frigate Congress.
Norfolk (Vir.) Sept. 21.—A letter received in town from an officer of this ship dated 28th May, then in lat 6, 15, N. long 23, 26 W. Between the time of her departure from this port and that date, nothing had occurred worthy of remark—The crew were very healthy.

A letter from St. Augustine E. F. dated Aug 31, to a gentleman in Savannah, has the following paragraph:

"The Governor received, on Saturday last, despatches from Madrid; Captain Ross, commander of the Charleston Cutter came on shore with them. The reason of the delay of the ratification of the Treaty was, that Don Onis had not arrived; but, as soon as he arrived, the ratification would take place."

The Comet.—We have had a narrow escape! The earth was, on the 26th of June, in the direction of the tail of the comet. This wandering star, our globe and the sun were then on the same line, and M. Olbers, a celebrated astronomer of Bremen, observed the passage of the comet over the sun's disc. The nucleus of the comet entered by the southern extremity, at 22 minutes after five o'clock, real time, and came out by the northern extremity at 21 minutes after 9 o'clock. During this passage, the comet was seven millions of German miles from the sun, and fourteen millions from our planet.

Journal des Debats.
From our squadron in the Mediterranean.
We are at length in possession of something that may be relied on with regard to the unfortunate differences existing among the officers of our squadron in the Mediterranean. After having fought themselves into a reputation for bravery and skill throughout the whole world, it is to be lamented, that in a state of peace, they should not be equally anxious to acquire as high a character for strict discipline and subordination.

Lancaster, Pa. Sept. 30.
The night before last, a Cat fish was caught in the Conestoga, by Mr. John Yost of this city, measuring 19 inches in length twelve in circumference, and five between the eyes; and weighed four and a half pounds.

EQUINOX.

On Wednesday (this) evening, 11 15 minutes past 10 o'clock, the centre of the Sun will be in the equator: it will then be vertical to a point in longitude 153 45 west of the Capitol. To an eye at the North Pole, his centre will appear in the south point of the horizon descending, to an eye at the South pole, the sun's centre will appear in the north point of the horizon ascending—beginning a day of six months for the South Pole, and a night of the same length for the North Pole. *Nat. THE MEMBERS OF THE BELLEFONTE SABBATH DAY SCHOOL ASSOCIATION

Will please to meet at the Register's Office on Monday the 18th inst. at 4 o'clock afternoon, for the purpose of choosing a superintendent. Those subscribers who have not paid up their subscription will please to do so, as it is expected that an opportunity will offer soon to send to Philadelphia for Books for the use of the school, which are greatly wanted, and it is very desirable that the money may be such, if possible it can be had, that it will pass there without a discount. Those who have not yet subscribed, and who may feel a disposition to contribute their mite in aid of this most useful institution, will be cordially welcomed as members, and their offerings thankfully received and recorded as a lasting memorial of their munificence; so that in future times the rising generation may know who were their benefactors and with grateful hearts embalm their memory with benedictions.
