Farmers, let your boys have stock of their own. Yes! boys want to be independent, as well as any body, that is if they are of the right kind. I don't mean to say that if a boy has stock of his own he is independent of everybody and everything, but he will be independent in degree.

In directing attention to the celebrated COMBINATION BUTTON HOLE AND SEWING MACHINE, we teel fully warranted in claiming for it unquestionable superiority over all others as a Family Muchine.—
The Simplicity, Ease and Certainty with which it operates, as well as the uniform ex-cellence of its work, certainly place it far in advance of any other similar invention of the

age.
It is also the cheapest, intrinsically, as well as the best, since it is really two machines combined in one, (by simple and beautiful mechanical arrangement never before ac-compished by human ingenuity,) making either the Lock Stitch or Button Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understool, and, in a word it combines with those advantages exclusive ly its own the most desirable qualities of all others, for it not only does every variety of sewing in a superior manner, but in addition Overseams spleadilly and pressed cold corned beef, etc., with ing them at home evenings from bad makes beautiful Buitton and Evenet Hones pacity of any other machine.
