modern improvements for rent For furdiately if desired.

A NEAT HOUSE .- John Harris, Cashier of the First National Bank, has erected a beautiful brick house on Linn street. It is neatly lined and penciled. We understand that Mr. Harris is opposed to hiding the beautiful brick color with paint of any kind.

A. S. VALENTINE -The new brick house being erected by A S. Valentine is going to be, when finished, a superb mansion. We like the enterprise displayed by our citizens in erecting such fine dwellings. We have enterprise to erect several, but- yes, but-

ENCOURAGE THE BOYS. - A Literary Entert inment will be given in the Court House by the members of the Bers AL-PHA LAMBDA Society of B Hefente, on Thursday evening, April first, for the purpose of raising funds to purchase books for the use of the Society. We have no doubt it will be a rich treat. Every body should go. The performers are our own boys. Eucourage home

THE PALACE -The cut Stone dwelling recently erected by Robert Valentine, and now almost finished is said to be by far the best private dwelling in our thriving young city. Mr. Valentine is civizens and is not one of the men who especially urged to astend. closes his purse to, and withholds his sympathies from the poor or those who have been less fortunate than himself. to enjoy it.

Hoy's School House. - The exhibition at Hoy's school house, on Friday evening last, we are informed, was well at tended. No admirtance fee was required. This very liberal mode of entermining an audience for an evening, should cor tainly be appreciated by those who attended, and were benefitted and instructed thereby. The performance was re markably good, the performers playing audience.

GAY.—The other day we took a view of the new dwelling house lately erected by E. M. Blanchard, Esq., on Linn st., and pronounce it a gem of the first class, which adds greatly to the beauty of that street. Mr. Blanchard has shown good taste in discarding the "half mourning" colors, so prevalent with our citizens, and adopting a rich, light buff color for the outside of his domicile, making it present a bright and cheerful arpearance. The painting was done by Mr. Dunham, who, as a decorative artist, ment, and on reasonable terms.

OUR CITY.-Yes we sometimes write City Why not? Bellefonte is, or ought to be a city. We have the water power, the iron ore, the coal, lumber, and we think the capital to make Bellefonte one of the first manufacturing cities in the State This would increase our population, that we believe, makes the city But who ever beard of a city without : Market house? Fine and costly residences are all well enough, and are stepin the right direction. But wi hout man ufactures how is the city to be sustained. and how are the workmen-the consum ers to be maintained, and saved from the grossist impisitions, both in regard to the quality and price of weat they con sume, in the absence of a market house?

LET US HAVE PEACE -We have re street fights no midnight bowls or brawls, no drunks, no arrests to record this week. Nothing of interest save and except the long fices wirn bythe officials of the "Court house ring" in conse. quence of their time to vacate drawing nigh, and from the fact that the people will not be likely to need their services longer. No matter how elongated the physiognomies of these gentlemen may become, the tax payers of Centre have made up their minds to change thing- in the County. The Republicans are going to take possession of the Court House and the new jailnext fail and give them a general c'eaning. Oh! how bid ly it is needed. Tax payers look to your

WHAT RAILEDADS DO FOR FARMERS To hand forty bushels of corn fifty miles on a wagon, costs, says the Agriculturist He deserves a palace. May be long live at least twelve dollars for a team, drive and expenses. A railroad would tranport it for four dollars at most. Allowing an average of forty bushel per acre. the crop would be worth eight dollars per sere or eight per cent on \$100. As the relative advantage is about the same for other crops it is clear that a railroad passing through a town would add \$100 per acre to the value of 'he farm. A town ten miles squre contains sixty-four thou-and acres. An increase of \$100 their parts well, with great credit to per acre is equal to \$6,400 008 or enough themselves, and to the satisfaction of the to build two hundred miles of railroad, even if it costs \$12 000 per mile. But two bundred miles of road would extend and cost but ten dollars per acre if taxed With sand 'tis mixed, the thing I wot upon the land. These figures are given merely as an illustration. If the farmers had taxed themselves to build all the railroads in this country, and given them away to any companies that would stock and run them, the present increased value of their land would have well repaid all the outlay .-
