"Invisible," the Harrisburg correspondent of the Blair County Radical, in his last letter to that paper, says: "You would not believe what a change a week makes in politics. The Speakership look out is quite different from what it was a few days ago. Then, as I wrote, there was a rifting at the idea that Strang would probably lead our Republican Legislature, but beyond that, very little else to counteract the concentration upon him. We are blessed with peace at ome, and are without entangling alliances abroad to forbode trouble; with a territory unsurpassed in fertility, and with an area equal to the abundant support of fifty millions of people, and bounding in every variety of useful mineral, in quantity sufficient to supply the world for generations; with abundant crops, with a variety of climate adapted to the production of every species of earth's riches, and suited to the habits, tastes, and require ments of every living thing; with a population of forty millions of free people, all speaking one language; with facilities for every mortal to acquire an education; with institutions closing to If all the public schools of the city none the avenues to fame or any blessing or fortune that may be coveted; with freedom of the pulpit, the press and the school; with a revenue flowing into the national treasury beyond the requirements of the government. Emerging from a rebellion of gigan-

tic magnitude, aided, as it was, by the sympathy and assistance of nations with which we were at peace, eleven States of the Union were, four years ago, left without legal State Government. A debt had been contracted; American commerce was almost driven from the seas; the industry of oncthe money appropriated by the last half of the country had been broken from the control of the capitalists and placed where all labor rightfully belongs, in the keeping of the laborer. The work of restoring State Governments loyal to the Union, of protecting and fostering free labor, and providing means for paying the interest on the public debt, has received ample attention from Congress. Although your efforts have not met with the success in all particulars that might have been desired, yet on the whole they hvae been reasonably anticipated. Sev en States which passed ordinances of secession have been fully restored to their places in the Union. The eighth (Georgia) held an election at which she ratified a Constitution, Republican in form, elected a Governor, memfeel strong, and count on absolute struction acts of Congress. Subsefied, as since decided by the Supreme Court of the State, they unseated the colored members of the legislature and without delay, to enact a law authorizing the Governor of Georgia to convene the members originally elected to the legislature, requiring each member construction act, and none to be admitted who are inelligible under the third clause of the fourteenth amendment. The freedmen, under the protection

It assumes other expenses of Government, are more than ample. THE TARIFF AND INTERNAL TAXATION. The subject of the tariff and internal taxation will necessarily receive your attention. The revenues of the country are greater than the requirements, and may with safety be reduced; but as the funding of the debt in a four or a four and a half per cent. would reduce the annual current expenses largely, thus after funding jusifying a greater reduction of taxation than would be now expedient, I suggest a postponent of this question until the next meeting of Congress. It may be advisable to modify taxation, and tariff, instances where unjust or burdensome discriminations are made by the present laws; but a general rerision of the laws regulating this subect, I recommend the postpenement of for the present. I suggest the renewal of the tax on incomes, but at a reduced rate, say of three per cent., and this tax to expire in three years. Vith the funding of the national debt s here suggested, I feel safe in saying the taxes and revenue from imports may be reduced safely from sixty to eighty millions per annum at once, and still reduced from year to year as the resources of the country are developed. FINANCIAL CONDITION OF THE COUN-TRY.

The report of the Secretary of the Treasury shows the receipts of Government for the fiscal year ending June 30, 1869, to be \$370,943,748, and the expenditures, including interest, bounties, &c., to be \$321,490,597.-The estimates for the ensuing year are rapid progress in learning, and no more favorable to the Government, and complaints are heard of lack of indus- will no doubt show a large decrease of the public debt. The receipts in the Treasury beyond expenditures have exceeded the amount necessary to place to the credit of the sinking fund, as provided by law. To lock up the surplus in the Treasury and withhold it from circulation, would lead to such contraction of the currency as to cripple trade, and seriously affect the prosperity of the country. Under these circumstances the Secretary of the Treasury and myself heartily concurred in the propriety of using all the surplus currency in the Treasury in the purchase of Government bonds, thus reducing the interest bearing debt of the country and of submitting to Congress the question of the disposition to e made of the bonds so purchased .--The bonds now held by the Treasury amount to about \$75,000,000, including those belonging to the sinking fund. I recommend that the whole be placed to the credit of the sinking

Your attention is respectfully invited to the recommendations of the Secretary of the Treasury for the creation of the office of Commissi'nr of Customs Revenue; for an increase of salary to certain classes of officials, and the substitution of increased national bond circulation to replace the outstanding 3 per cent certificates, and most especially to his recommendation for the reneal of the laws allowing shares of fines, penalties, forfeitures, &c., to officers of the Government or to inform-

It falls but little if any short of a Cabinet position in its importance and responsibilities. When the present relations of colonies cease they are to become independent powers, exereising the right of choice and of self control in the determination of their future condition and relations with other powers. The United States, in order to put a stop to bloodshed in Cuba, and in the interest of a neighboring people, proposed their good offices to bring the existing contest to a termination. The offer not being accepted by Spain on a basis which we believe could be received by Cuba, was withdrawn. It is hoped that the good bonds bearing a rate of interest not offices of the United States may yet prove advantageous for the settlement of this unhappy strife. Meanwhile, a number of illegal expeditions against Cuba have been broken up. It has been the endeavor of the administration to execute the neutrality laws in or four money centres of Europe, or good faith, no matter how unpleasant the task, made so by the sufferings we Inited States, at the option of the have endured from lack of good faith towards us by other nations. The United States schooner Lizzie Major was arrested on the high seas by a Spanish frigate and two passengers taken from it, and carried as prisoners to Cuba. Representations of these facts were made to the Spanish government as soon as official information of them reached Washington. The two passengers were set at liberty, and the Spanish government assured the Unit ed States that the captain of the frigate, in making the capture, had acted without law, that he had been reprimanded for the irregularity of his conduct, and that the Spanish authorities in Cuba would not sanction any act that could violate the rights, or treat with disrespect the sovereignty of the nation. The question of the science of the brig Mary Lowell, at one of the Bahama Islands, by Spanish authorties, is now the subject of correspondence between this government and those of Spain and Great Britain The Captain General of Cuba, about May last, issued a proclamation authorizing search to be made of vessels on the high seas. Immediate remonstrance was made against this, where upon the Captain General issued a new proclamation, limiting the right search of vessels of the States so far as authorized under the treaty of 1795. This proclamation, however was immediately withdrawn.

OUR FOREIGN RELATIONS. I have always felt that the most in timate relations should be cultivated between the Republic of the United States and all independent nations on this continent. It may be well worth considering whether new treaties between us and them may not be profitably entered into to secure intimate relations, friendly, commercial and otherwise.

The subject of an inter-oceanic canal to connect the Atlantic and Pacific oceans, through the Isthmus of Darien is one in which commerce is greatly interested. Instructions have been given to our minister to the Republic of the United States of Columbia to endeavor to obtain authority for a survey by this Government, in order to determine the practicability of such an undertaking, and a charter for the right of way to build by private enterprise such a work if the survey proves t to be practicable.

In order to comply with the agreement of the United States as to a mixed commission at Lima, for the adjustment of claims, it became neces sary to send a Commissioner to Lima in August last. No appropriation having been made by Congress for this purpose, it is now asked that one be made covering the past and future expenses of the commission. Singular Mania of an Army Surgeon,

From the Washington Republican, Nov. 27.] A singular case of aberration of mind has been brought to the attention of the Board of Surgeons of the United States Army. One of the profession, who for many years has been on active duty, and distinguished for his ability and fidelity, has of late accused officers of high rank with attempting to poison him. At first he mistrusted these poisons were mixed with his food, and thereupon commenced to importance, and with a character and cook his own victuals. He next suspected the deadly ingredients were mixed with his bread, and finally suspected poisonous exhalations were in his pillow or on his clothes. The officer has been retired and placed under proper treatment, but has in his own defence forwarded to the War Department a report of forty pages, carefully written, and thoroughly reviewing his past services. The document is one evincing great ability but betrays the unfortunate condition of the writer in
