TO DISTANT SUBSCRIBERS!

We have this week made out the bills due us by distant subscribers up to this date, and desire them to forward us the amount by letter...

FARMER'S HIGH SCHOOL.

This highly important educational institution for instruction in all those departments of knowledge that contribute so largely to the advancement of agricultural science...

It is well known, no doubt, to most of our readers, that Gen. James Irwin presented to this institution two hundred acres of limestone land of the best quality...

For the purpose of obtaining the requisite means, not only to finish the buildings, but also to establish libraries and laboratories, and procure everything else necessary to furnish the most thorough scientific and practical education to the student...

The Pennsylvania Senate have reported in favor of admitting Kansas under the Leocompton constitution, by a strict party vote, every Leocompton voter for it, and all the opposition against it.

The Philadelphia Press gives up at last, that the President is bent upon forcing through the Leocompton fraud. It says: "We have every reason to believe that an effort is to be made to compel the people of Kansas to accept this fraudulent contrivance."

Hon. GEORGE BANCROFT.—In calling the attention of our readers, Democrats as well as others, to the speech of this gentleman, we will quote the language of the Philadelphia Press, edited by Col. John W. Forney: "The attempt to deprive the people of Kansas of their rights is calling forth not only the best talent of our statesmen in Congress, but is also arousing the great intellects who shed such undying lustre upon the literature of the country."

TO HAVE RECEIVED INTELLIGENCE that the Act authorizing the Commissioners of Bedford County to borrow money, has passed the House, (it had previously passed the Senate), and has been signed by the Governor. It is now a law. No better or safer investment could be made by those who have money to loan. It is not taxable, and the interest can be drawn quarterly or half yearly.

Read the communication of "Inquirer." The subject he treats of is worthy the consideration of the citizens of our town.

CONFIDENCE GONE.

Mr. Buchanan owes his elevation to the Presidency more to the efforts of Col. John W. Forney than any other man in the United States—or any other score of men. He was his friend when it was not as popular as now to be the friend of James Buchanan; and when he was nominated for the Presidency, Col. Forney, prompted by all the impulses of a long personal attachment and admiration for the man, labored for and secured his success.

Yesterday's intelligence, that the committee of investigation raised in the National House of Representatives on the motion of Mr. Harris of Illinois had by a decided majority vote—that majority elected by special order, in direct violation of usage as well as of parliamentary law—to restrict expenditure on the Kansas frauds adds to the mountain of injustice which has accumulated since it has been decided to deprive the people of their rights.

The annuals of politics will be ransacked in vain for a parallel to these extraordinary proceedings. We began to doubt whether indeed, this is a land of liberty and law. That which was the Administration policy in June and has become the Administration's detestation in February. The Democrats who endorsed and strengthened that policy, in the belief and with the knowledge that they were acting in harmony with the President of their choice are ejected from office because they adhered to this position; and their fate is held up to others as a solemn warning.

The Press intimates that the pastime of reading men out of the Democratic party is a dangerous one, and is suggestive of fierce and fatal retaliation. It adds: "With all respect to James Buchanan, we do not hesitate to say, that if he had maintained the stand he took in his instructions to Governor Walker, and in all his intercourse with that gentleman up to November, 1857—the doctrine broadly asserted by the Washington Union as the Administration's policy on this great issue—he would have united around him a body of friends as devoted and as disinterested as those who so clung to his cause in the darkest days of his career."

The Philadelphia Press gives up at last, that the President is bent upon forcing through the Leocompton fraud. It says: "We have every reason to believe that an effort is to be made to compel the people of Kansas to accept this fraudulent contrivance."

Touché and Stephens came over to our ranks at a much later period, we believe in 1852, and are daily fitted, by nature and by prejudice, to take of Democratic heads."

THE WASHINGTON ACCIDENT.—The accident at the Kirkwood House, Washington, which we noticed several days since, says the Harrisburg Daily Telegraph, of the 24th ult., was a little more serious than was at first apprehended. Miss Reilly, daughter of Hon. Wilson Reilly, was more seriously injured than was at first supposed—her arms and breast having been severely burned, and from the effects of which she is still confined to her room.

Col. McClure has just returned from Washington, whether he had been summoned by intelligence of the accident. It will be seen by the annexed paragraph from the Washington States, that an acknowledgment of Mr. Jones' timely aid has been made, alike creditable and gratifying to all the parties connected with it.

A TERRIBLE LEAGUE.—The Paris correspondent of the New York Times, speaking of the late attempted assassination of Louis Napoleon, says: "It is reported that one of the prisoners, who has turned State's evidence, and that, in his confession, he has revealed a plot that does not offer a smiling prospect for the Emperor. According to Rudio's confession, the conspirators were five hundred in number. They are bound to their work by a terrible oath, and their object is the assassination of Louis Napoleon. Each year, or oftener, if circumstances will warrant the attempt, the whole band are to draw lots from a box, in which there will be five winning numbers. The five members drawing these are held to put in immediate execution an attempt upon the Emperor's life, which shall be approved by the whole society, and by those who are charged with its execution. The society has plenty of money for carrying out its designs."

A FAITHFUL PUBLIC OFFICER.—It was with the highest gratification that we read the subjoined article in the Harrisburg Daily Telegraph, of recent date, wherein, by a simple statement of facts, a distinguished compliment is paid to our esteemed fellow-citizen, Col. JOHN M. SULLIVAN, late Deputy Secretary of the Commonwealth. It will be seen by the figures annexed, that the amount of the fees of his office paid into the Treasury during his official term, is \$5,172.72 more than was paid in by his predecessor. It will be also seen that in the item of enrollment tax, he has paid in upwards of \$22,000 more than was paid in by his predecessor under BIGLEN'S administration.

Possession given when the hand money is paid.

DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY.

THIS IS ONE OF THE GREATEST SCIENTIFIC medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, even the first dose giving benefit and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common head ache, all of which are the result of a Diseased Liver.

The liver is one of the principal regulators of the human body, and when it performs its functions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty.

A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums render the medicine more palatable, and they also supply in their juices a heat by flow of bile, invigorating the stomach causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable after effects, felt by using Calomel or Mercuro-potash, that are usually resorted to.

To all who will follow these directions a cure is positively guaranteed. SICK HEADACHE can be cured by the use of two tea-spoonfuls taken as soon as the attack is felt. The Invigorator never fails to cure sour stomach or the out effects experienced after eating. Bilious attacks yield readily to one bottle, and Chronic Diarrhea, difficult as it is to cure, is never troublesome to those who take the Invigorator.

It must be known that all these are Liver diseases, or caused by a deranged Liver, and to cure them needs a Liver medicine and one of great power. The Invigorator is such a medicine; it has medicinal powers, never before discovered; that will cure all diseases of the Liver, no matter how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use the medicine without feeling benefit. It acts as a gentle Cathartic, and it always takes in sufficient quantities to operate on the bowels gently.

THE subscriber will continue his RESTAURANT AND BAKERY AND CONFECTIONERY, at his old stand, in the Rising Sun Building, in Julianna Street, where he will be pleased to see all his old friends and customers. PROFESSOR WOOD'S HAIR RESTORATIVE.

For Producing Hair on Bald Heads, and Restoring Gray Hair to its Natural Color.

THIS ASTONISHING AND UNEQUALLED preparation has never failed to produce a growth of Hair, when used according to the directions, and turn hair back to its original color, after having become gray and relaxed; it is all its original health, lustre, softness and beauty. Removes at once all scurf, dandruff and unpleasant itching, scrofula, eruptions and feverish heat from the scalp. It also prevents the hair from becoming unhealthy and falling off, and hence acts as a perfect HAIR INVIGORATOR AND TONIC.

A gentleman of Boston writes by his friend in New Bedford thus: "To your inquiries, I would reply, that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years, and it was very thin on the top of my head, and very loose, and falling out freely; but I found that before I had used all the second bottle, (which was eight weeks) my hair was entirely changed to its original color, light brown, and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen any thing like white hair starting from the roots; and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask." Yours, etc. July 1, 1855.

[From the Boston Herald.] "Something Worth Knowing.—By using Professor Wood's Hair Restorative, gray hair can be permanently restored to its original color. The following certificate from Johnson & Stone, Gardner, Maine, is but one of the many instances that are daily coming to our knowledge of its wonderful effects. It is no longer problematical, but a self-evident truth, as hundreds in our community can testify."

DEAR SIR: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind. Yours, respectfully, Prof. O. J. Wood. D. N. MURPHY.

WOOD'S HAIR DYE.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has, also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations, it is hardly possible how any lady or gentleman should be without so valuable an adjunct to their toilet. O. J. WOOD & CO., Proprietors, 812 Broadway, N. Y., and 114 Market street, St. Louis, Mo.
