Aug. 13. COUNTY COMMITTEE.

A Dun .-- Our friends, especially those indebted to us for several years past, are respectfully and earnestly requested to call on us in Court week and pay the amount due us, or at least part. Those not coming to town can send the needful with their neighbors who are coming. We have about \$200 to raise then, for paper, rent, &c., and without this dun is attended to, we must stick, that's all.

THE GAZETTE AND FREE TRADE.

the Gettysburg Star, our down street neighbor delivers bimself as follows:

"It (the paragraph) was intended, we presume, as a reply to an article of ours, in which we endeavored to call the attention of the public to the very obvious fact, that all the evils which periodically prostrate our manufacturing interests are attributable alone to a po per currency, which has no real value and does not represent things of real value."

A few weeks only have elapsed since this same editor of the Gazette gravely informed hie readers that the whole cause of our financial embarrassments, &c., was the failure of "The Obio Life and Trust Company." We took occasion at that time to expose and ridicule this puerile assertion or pretended discovery, and attributed the cause of the country's distress to the free trade practices of sham democracy, and referred to the public meetings of the people, and their similar views on the same subject. Having no faith in what he had himself written to deceive his readers, and no doubt ashamed of the ridiculous position he had assumed, he has now discovered another sole cause of our "financial embarrassments," and with all apparent seriousness informs us that our whole troubles are "attributable alone to a paper currency, which has no real value, and does not repaesent things of real value." Let us inquire then how it comes that President Buchanan recommended, and the last democratic Congress enacted a law authorizing the issue of twenty millions of dollars of paper money, and the whole amount has actually been issued accordingly? If paper money represents no value, and in addition to this, de stroys our manufacturing interests, is it not incomprehensible how a professed democratic administration has issued twenty millions of paper money treasury notes, in less than six months! To us this looks like the avowal of a determination not only to break down all our them broken down.

But the Gazette, in its wisdom, further says "The Democratic party, North and South, has always been in favor of a tariff for revenue, with incidental protection to home interests, and such is the tariff which has prevailed since the organization of the government. But if fails of its object, because of the excess of paper money, which gives to everything except gold and silver, a nominal value equal to double, or more of vis real value, according to the inflation of the time; thus tendering the provision for protection against manufacturers, who sell only for gold and silver, inoperative and

Here is a most admirable definition of a demoeratic tariff. It means anything, or everything, or nothing, just us you please to take it. We have had the tariffs of 1813 and 1828, of 1833, 1842, and 1846; we have had high tariffs and low tariffs, and yet we

tract, that the excess of paper money, "gives to everything, except gold and silver, a nominal value equal to double, or more, of its real value, according to the inflation of the times," &c .-That is paper money has no value, and represents no real value. It has destroyed our manufactures, and, worse than all, it has doubled the prices of everything over their real value. Farmers, do you hear that? You have been selling your wheat at a dollar per bushel, and less; and you are now given to understand that this is a "nominal value," caused by paper money, whilst the real value is only fifty cents per bushel or less; that is, this pominal value is double or more of the actual value. What do you think of such democracy as this? Produce and wages, and almost everything, also, have been coming down, down, and down, until the whole country is suffering in consequence of it: and yet it seems they are, in the opinions of sham democracy, double what they ought to be. This is a rchash of the Buchanan low wages doctrine, only a little more boldly avowed than is usual. In speaking of wages and prices, Mr. Buchanan, in his celebrated ten cent speech said, (we quote from memory, not having his speech at hand) "reduce wages to the European standard, and you cover the country with benefits and blessing."--The American laborers, farmers and mechanics have been deprived of that protection afforded by the tariff of 1842, and which they ought to | truth. have, and as an inevitable consequence, prices and wages are coming down to the "European standard," and of the "benefits and blessings" thus afforded, we are willing that every taxpayer and voter shall judge for himself.

That Victory.

Our democratic friends in their tribulation are becoming exceedingly thankful for small favors. The Hen F. P. Blair, Jr, was the held at the Court House, in Bedford, on the only member of the present Congress, from Missouri, who had sufficient integrity and manhood enough to vote against that political iniquity called the Lecompton Constitution. He spoke and voted against forcing a slave constitution upon a free State, in defiance of the wishes of the people. His defeat, therefore, at the recent election in Missouri, is regarded by the minority democracy as a great triumph, and even the big chicken has to be paraded to give illustration and eclat to the victory. We regret Mr. Blair's defeat, because he was an able champion of the right, yet the victory is rather a questionable one, after all. Barrett, the man elected, is what is called a Douglass democrat, and, therefore, opposed to the present administration on the principal feature of its policy, and stands with Blair on on the same mark, that three candidates ran in the district

-Barrett, the Douglass democrat, Blair, a Republican, and Breckinridge, an American .--The vote, by this means, was split into three very nearly equal parts. Barrett was elected by a small majority of fraudulent votes, and his seat is to be contested. The candidate who gets the certificate of election may not, therefore, get his seat, and even if he should, he goes in by a minority of about 4,000 in his district. Our friends in Missouri are now playing the fool by running two tickets instead of one, like we have been doing in this State for several years past, and the result is defeat, as in our case. We have quit that nonsense, and got tired of electing locofocos, and united upon one ticket, and toe result will be what it ought to have been, and would have been, years ago, if wise counsels had prevailed. We doubt not the defeat of our Missouri friends now will do in 1860 they will stand up with an undivided front, and sweep sham democracy from the State, as they ought to have done this time,

and might have done, but for their divisions. defeat, which seems o have been overlooked. On the same day there was an election for Congress, in North Carolina, to fill the vacancy occasioned by the appointment of Clingman to the Senate, and Mr. B. Vance, the American candidate, was cleeted over one Avery, who aspired to be the Democratic successor of

On the same day, too, there was a tremendous election in Kansas, on the Lecomrton Constitution. It is said that the Washington Union, and other papers of that ilk, have not heard the returns, but we give them in another column, for the benefit of all concerned.

The President and suite, left the Bedford wast manufacturing interests, but also to keep | Springs last Friday morning, by way of Cumberland. They were accompanied by two or three persons from this place as far as that place. As the President drinks nothing stronger than "Old Rye Whiskey," we understand that a full demijohn of that that Bill Montgomery procured for the "Old Chief," from Enoch South, accompanied the party, which "went down" quite plentifully, under the influence of Presidential smiles!

> In another column will be found the procoedings of the Congressional Conference. It will be seen that our Conferees stood by Bed_ ford County throughout. STRAIGHTOUTISM!

The last Gazette has an article, trying to show that disaffection exists in the American party in Philadelphia. That paper publishes an advertisement from one of the city dailies, signed by a Mr. Rankin and Macmullan, calling a meeting of the Straight American party in opposition to our State ticket. It will be seen the meeting was anything but harmonious, and all that was done to the advantage of our excellent ticket. Here are the proceedings from the Press, and we hope the Gazette will also publish for the benefit of its readers :

ADJOURNED MEETING OF THE AMERICAN Nominating Convention -- THE WHOLE THING ENDS IN SMOKE .- Pursuant to a published call, the Straight-out American nomina ting Convention reassembled at three o'clock yesterday afternoon in the District Court room There were about forty persons present On them good, and teach them wisdom, and that taking the chair, the president made a corteous speech, expressing the hope that the deliberation and action of the body would be quiet and gentlemanly, and of such a character as to make none ashamed of the name of American. The secretary, De Young, then read the miuntes of the previous meeting, which were approved.

We copy the following extract from the Harrisburg Keystone. The subject is as applicable in Bedford as it is in Dauphin County .-Owners of real estate, whose deeds are not yet ecorded, had better make a note of it :

RECORDER .- Mr. Peter Hummel, the very efficient and obliging Recorder of our county, has published a notice of great importance to owners, purchasers, or sellers of real estate We learn from it that "by an act of the Legislature of Pennsylvania, no title for Real Estate is perfect and secure, unless it be recorded within six months after its execution, if it be nade within this State; or within Twelve Months, if executed out of the State, in the office for Recording of Deeds for the county where the lands lie; otherwise, every such deed or conveyance shall be adjudged fraudulent and void against any subsequent purchaser or mortagee for valuable consideration, unless such deed or conveyance be recorded as aforesaid, before the proving and recording of said deed or conveyance under which such subsequent purchaser or mortgagee shall claim.

Maxwell M'Caslin, of Greene county, in this State, has written a notice of Senator Bigler's course in Kansas. Col. M'Caslin is now in Kansas, and was turned out of office because he opposed Lecompton. He says :

"The writer was present at the Kansas land sales, in Kansas, in June of 1857, and heard Gov. Walker and Secretary Stanton, and others, address an assemblage of people numbering over a thousand, heard Governor Walker in his speech admonish the people in the most convincing manner, to a peaceable and lawful sattlement of their troubles by the ballot box. He pledged his veracity as an henorable man that they should be protected, and should have a fair vote upon their Constitution -and I heard him quote the President and united Cabinet as his authority for making the pledges. The writer also at the same heard Governor Bigler in his public speech exhort the people to confide in every promise which the Governor made them; that they should be faithfully carried out; 'that he would be there (at Washington) and see that it was done.' Indeed, the people had to infer from Bigler's expressions that he had been sent out by the President to assure the people of Kansas that they should have a fair vote on their Constitution.

The man who wrote the above was Speaker of the Senate of Pennsylvania for two successive terms, and was a most eminent Democrat

The Atlantic Telegraph in Operation. THE QUEEN'S MESSAGE TO THE PRESIDENT.

PHILADELPHIA, August 17. At about quarter of five o'clock, this evening, we received news that the Atlantic Cable was in operation, and that the message of Queen Victoria might shortly be expected.

The information was doubted by many, but it has been fully confirmed, and we have the pleasure of announcing the great enterprise of uniting the two continents.

The following despatch was received this afternoon, by the Superintendent of the American Telegraph Company.

OUR CANDIDATE FOR CONGRESS.

Party of the Seventeenth Congressional District, composed of the Counties of Adams, Franklin, Fulton, Bedford and Juniata, met in this place yesterday, and put in nomination EDWARD McPHERSON, of Adams County, as a candidate for Congress.

Mr. McPHERSON, is a perfect gentleman and a scholar. He was educated at Pennsylvania College, from which he graduated about the year 1848. Mr. McPherson is one of the best and most fluent and clearheaded writers on Political Economy in l'ennsylvania, and his fund of information with regard to the Political History of our country, would make him a most useful and valuable Representative of the People on the floor of Congress. He was the author of those ably written articles which apeared in the Philadelphia Bulletin, advocating the Sale of the Public Works of Pennsylvania, which were copied so extensively by the Opposition Journals of the State. Mr. McPherson has always been a leading and formidable opponent of Locofocoism, and has done good service in this respect as Editor of several newspapers. That he would make a fearless, an able and worthy Representativeone who would be an honor to the Districtwe firmly believe, and therefore, commend him to the warm, zealous and earnest support of the Friends of Freedom. We look for his triumphant election. Mr. REILLY, who will, doubtless, be his opponent, hus shown; by his vacillating-his inconsistant and disreputable course, that he is unworthy to represent, and therefore should not receive the further suffrages of freeman who have the least respect for themselves or the bonor of the District. let all unite in rebuking him, and in giving McPherson a triumphant vote next October .-Chambersburg Repository.

WHAT'S THE MATTER Now?-Winston, who succeeded the infamous Jones as U. S. Marshall of Kansas, was removed a little while age, without any assignable cause, except that he was supposed to be silly enough to try to do his duty impartially between Pro-Slavery and Free State men ; and now Calhoun (who has done mean things enough to have made him the Democratic candidate for the Presidency) is threatened with official decapitation! something loose as well as 'rotten in Denmark. THE LEVILTHAN-or, more properly, the Great Eastern- is admitted to be a gigantic failure. It cost more to lanuch her than would build a respectable steam ship, and about \$500-000 to tow her into deep water. And now that she is affout, sufficient funds cannot be friendship is founded upon their common inter- projected voyage to Portland. Yet, the building of this mammoth ship may not have been in vain, she may become the instrument, and the purpose, of connecting the two continents by means of a telegraphic wire. At least, so reasons Professor Morse, whose opinion are entitled to great consideration. He holds that a coiled cable cannot be uncoiled without kinking, and that therefore it must be reeled; that ship must be employed.

There is but one vessel that can admit of a cable being reeled on it, or that could carry the tonnage of wire necessary for the purpose, and the Great Eastern is that vessel.

It is not improbable, therefore, that the Great Eastern will be selected for the next trial, if ever that attempt is made. If she should successfully accomplish the greatest enterprise of the century, her building will not have been in vain. [These fears have proved groundless.]

AN UNFORTUNATE CASE OF SUICIDE IN N. York—Ten Cents a Day, or Less.—A young married woman, aged twenty years, handed Mary A. Chalan, committed suicide on Monday night, at tenement house, No. 143 Thompson street. She married an Italian named Charles Chalan, a short time age. He was a carpenter by trade, but could get no work, and was suf-fering. On Monday he locked all day for employment, in vain, and on returning at night to his apartments in the sixth story of above house, he was informed by his wife that ther was nothing to eat. He replied by saying, "Mary, I will go to sea, and you return to your parens until better times." As Chalan put his hand on the door to go out, his wife sprang out of a kindow, and breaking her back on a shutter in the descent, fell dead on the payement.

The literary Mr. Foley, of Indiana, is dropped by his own party, and has surned his attention to scholarship. It is said that he is about opening a grammar school in his district. He sticks to it that he would have been renominated had not the editors "mucilated the letter he rit."
