NOVEMBER APPOINTMENT. BEDFORD, "WASHINGTON HOUSE," SATURDAY NOVEMBER 20TH. 1858.

Dr. Hardman trewats Consumption, Bronchitis Asthma, Larryngittis, and all diseases of the throat and lungs, by medical Inhalation, lately used in the Rromton Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicinee the disease in the direct manner. All medicince are estimated by their action upon the organ requiring rehef. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine tirectly into the stomach. If the langs are diseased, breathe or tahale medicated vapors directly into the langs. Medicines are the antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the langs, for it gives us direct access to those inticate air cells and tubes which lie out of reach or avery other means of administering medicines. avery other means of administering medicines.— The reason that consumption, and other diseases of the langs, have heretofore resisted all treatment has been because they had never been approached has been because they had never been approached in a direct manner by medicine. They were intended to be do not upon the larges and yet were applied to the stemach. Their action was intended to be local, and yet they were so administered that they should act constitutionally, exending immediate and principal action upon the professional stemach, we feel it our duty to you and the afflicted, to report and principal action upon the professional stemach.

Our little san's head for some time had been also been approached in a direct manner by medicine they are approached.

Their stock of boots and shoes for men, women and children is certainly the best and cheapest that has ever been brought to Bedford, for three reasons: FIRST. On account of the pressure of the times, they have been laid in at 30 ccuts on the dollar less than what was paid last year for the same kind of goods.
