AGRICULTURAL.

From the American Agriculturist.

ORCHARD AND NURSERY.

Unless set out last month, the earlier the orchard is now planted the better, if it is to be done this fall.

In the nursery the busy season of selling, taking up and re-setting small trees and shrubs still continue.

Cherries—Plant both standard trees and any pits not previously used for seedlings.

Insects—Unless the borers were vanquished last month, attend to them. Fall directions have already been given.

Manure, plow and subsoil, or trench, under-drain if needed, and otherwise prepare grounds for Spring planting, either as orchards or nurseries. Spring will bring with it sufficient labor even when all is done now that can be.

Mice—Do not forget the mischief they have sometimes done. Avoid it this season by clearing grass and weeds from the trunks, banking up with earth, using lime or ashes, and in particularly exposed situations, cover a foot of the tree at the surface with closely fitting bark, oil cloth, or sheet lead. Where mice are abundant use poison, traps, or cats to thin their numbers.

Nursery—Prepare early for winter, and after the season of sales is over, go through with a plow and turn furrows towards the rows of trees thus opening drains to carry off surplus water. Now is a good time to transplant young trees from the seed bed to nursery rows. See that no mistakes are made in sending out trees: that they are carefully taken up, correctly labeled, and properly packed. Extra care in this respect will save you repetition, which is the only guarantee of future success.

Orchards of old trees should receive due attention to prolong their usefulness as much as may be, or until the younger trees come into bearing. Scrape off the moss and rough bark, dig about and manure the roots, pruning the tops at a proper season and you give them a new lease upon life for which they will amply repay you.

Quinces—Gather before freezing, and lay away carefully if for keeping. Plant trees.

Seeds—Cut at any time during the month, when not frozen, and bury in dry earth, either out doors, or in the cellar.

Seeds of Apples, Pears, Quinces, Plums, Cherries, Peaches, and the various nuts and hard shelled seeds—if not already in, plant, as directed last month.

Tender Seedlings, especially evergreens, need some protection in the nursery. Sift in dry sand to protect the stems, and cover with first leaves, straw, or evergreen boughs, for the winter.

Transplanting generally, both in orchard and nursery, should be industriously prosecuted.

CURING HAMS.—The slaughter of the porkers begins this month on all well regulated farms, from Aroostook, to the farthest West and South to Mason and Dixon's line, and only a little later farther South; we see the sleek beauties suspended by the gambrels, their open mouths biting the cob, from which they shelled the corn while living. The hams and shoulders, destined for bacon, are liable to be spoiled in two ways—by too much or too little. Not one ham in ten offered in the market is properly cured for human food. Many persons put the hams in with the other pork, and spoil it.

Many of the recipes offered are too indefinite to be of any service. The following cures bacon fit for a king, or his eldest daughter.

For one hundred pounds of ham take salt, ten pounds—Turkish Island is best—six ounces of saltpetre, and two pounds of brown sugar. Mix the ingredients as evenly as possible and rub them upon the flesh side of the hams and shoulders. Pack the hams in a clean cask, skin side downward. Put a stone and board on top of the hams and fill up with clean cold water so as to cover them. In a few days all will be dissolved and form a pickle just right. But the salt in the solution is continually sinking to the bottom. Therefore, either change the pickle—pouring it out and back again—or if the barrel is but partly filled roll it around a few times so as to stir the contents thoroughly, as often as once a week. The neglect of stirring the pickle, after it is made, spoils many a barrel of hams. In six weeks they will be cured just right. Smoke them ten days, to two weeks, in a cool smoke house. Put them in tight cloth wrappers, white-wash the wrappers, and they will keep for years. This is our family recipe, used for fourteen years, and always makes quarters of ham, that keeps the better half in constant good humor at meal time.

GARDENING FOR LADIES.—Make up your beds early in the morning; sew buttons on your husbands' or brothers shirts; do not rake up any grievances; protect the young and tender branches of your family, plant a smile of good temper in your face, and carefully root out all angry feelings, and expect a good crop of happiness.

THE GREAT PURIFIER!—THE WORLD CHALLENGED!—TO PRODUCE ITS EQUAL!

THE BLOOD SEARCHER
THE GLORIOUS TRIUMPHANT!
Sole Inventor of David McCreey, of Napier Township, Bedford County.

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used various remedies, but all to no purpose. I called upon Dr. Shaffer, of Davisville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued, spreading inward the nose. I next used mercury, but it checked the disease, but the inflammation soon increased. I next called upon Dr. Stutler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a great part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Eclectic Medical College. He pronounced the disease a cutaneous Cancer, superinduced by an immoderate use of mercury. He applied mild zinc ointment, and gave internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had cut off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could not give relief, but that a cure was impossible. In March, 1858, I bought a bottle of Blood Searcher; but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued using the bottle until the Cancer on my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and who has been done through the instrumentality of LINDSEY'S IMPROVED BLOOD SEARCHER. D. MCCREEY.

Sworn and subscribed, this 21st day of August, A. D. 1858, before me, one of the Justices of the Peace in and for the Borough of Hollidaysburg, Blair county, Pa.

NEW EVIDENCE.
Being afflicted with a grievous Pimple on the nose and face—after trying many remedies which utterly failed to cure—was persuaded by W. M. Harris & Co. to try Lindsay's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.

The letter broke out, something over a year ago, one inch of my nose, extending from the bridge down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks and feel fit to Mr. Lindsay, and to the public generally, to make this statement, and to state that others like myself may be benefited by using his valuable medicine.

BEDFORD Machine Shop!

THE subscriber would most respectfully announce to the farming community, and public in general, that he still continues to manufacture at his shop, in Bedford, Pa., the following farming utensils, of the very best material, and in the most workmanlike manner, viz:

Four and Six Horse Tumbling Shaft Power Machines, with large open cylinders, six staves, and spikes screwed in, and improved Straw Sifters attached. Their supports for strength and speed are not made in this or any other County in the State.

Four Horse Tumbling Shaft and Strap power Machine, with cylinder open or shut, as may be desired, and shaker of the best kind, for convenience, ease of draft, and perfect working. This machine has no superior any where. THREE HORSE MACHINES, of the same kind. TWO AND THREE HORSE TUMBLING SHAFT POWER MACHINES, a very convenient and excellent machine for small farmers, with or without shakers.

HILL SIDE PLOUGHS, of a very superior pattern to any in use in this country. SINGLE AND DOUBLE SHOVEL PLOUGHS, WITH STEEL SHOVELS.

CULTIVATORS, PITCHING AND FIVE-HOED STEEL POINT EXPANDING CULTIVATOR, Rogers Pittsburg patent STEEL TOOTH EXPANDING CULTIVATOR, for working corn, or seeding in grain, Fanning Mills, Horse Rakes, Leaver Cutting Boxes, Hoes, and Wheelbarrows, made to order.

All the above articles constantly on hand, and sold on reasonable terms.

REPAIRING of all kinds of Machines, whether made here or elsewhere, done on the shortest notice.

Costings for all my machines and Ploughs, made at the Foundry of Mr. Michael Bannan, in Bedford, and will compare with any made in the State for strength and durability. BLACKSMITHING done to order. All my work warranted to give satisfaction to the farmer.

From a past experience of twenty years in the Machine business, I feel confident that I can give entire satisfaction to all who may favor me with a call. Call and examine my work before you purchase elsewhere, as I am determined to please all.

Horses, grain of all kinds, lumber and iron, will be taken in exchange for work.

PETER H. SHIRES, Machinist.

HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special enactment for the relief of the sick and distressed, afflicted with Venereal and Epidemic diseases.

TO all persons afflicted with Sexual Diseases, such as SPERMATORRHOEA, SEMINAL WEAKNESS, IMPOTENCE, GONORRHOEA, GLEET, STYLLITIS, the Vice of ONANISM, or SELF ABUSE.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved mode of treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.

Just published by the Association, a Report on Spermatorrhea, or Seminal Weakness, the Vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, containing the best advice by the most successful letter envelope, FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

By order of the Directors,
EZRA D. HEARTWELL, President.
Geo. FAIRCHILD, Secretary.
