TO INVALIDS. Dr. Hardman, Analytical Physician Physician for diseases of the Lungs, Throat and Heart, formerly Physician to the CINCINNATI MARINE HOSPITAL, also to INVALIDS RETREAT.

nesday, Dec. 22d. Somerset, Glade House, Dec. 20. Cumberland, Dec. 17.

Johnstown, Dec. 24. Dr. Hardman trewats Consumption, Bronchitis Asthma, Larryngittis, and all diseases of the throat and lungs, by medical Inhalation, iately used in the Bromton Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicinee are estimated by their action upon the organ requiring relief. This is the important fact upon which inhalation is based. If the stomach is diseased we take medicine I irectly into the stomach. If the lungs are diseased, breathe or tabule medicated vapors directly into the lungs. Me icines If the large are diseased, breathe or inhale medicated varous directly into the large. Me iclass are the antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of avery observations of administering medicines. The reason that consumption, and other diseases of the large, have heretofore resisted all treatment has been because they had never been approached in a direct manner by medicine. They were intended to get upon the lungs and yet were applied to the stomach. Their action was intended to be local, and yet they were so administered that they should not constitutionally, exending immediate cal, and yet they were so administered that they should act constitutionally, exending immediate and principal action upon the unoffending stemach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple that it can be employed by the youngest infant or feedlest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.

OTHER DISEASES TREATED.—In relation to the following diseases, either when complicated

with long affections or existing alone, I also invit

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but to our surprise, and that of all our friends avery few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully, GEORGE W. HIGGINBOTHAM, SARAH A. HIGGINBOTHAM.

OF Lancaster City, late of Philadelphia, where he has been in successful practice for a number of years, received his education at the best Medical Cookege in the United States, and had the experience and practice in the different Hospitals for several years, a member of the Analytical Medical Institute of New York and late Surgeon of the United States Navy, now offers himself to the public to attend any professional cells.

The purest medicines always on kand direct from the best Laboratopies of our country, and the Betanical Gardens of the world. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated thom analytical principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituents of every solid and fluid of the human body; the changes those solids and fluids are capable of undergoing. To know what medicines to employ to care diseases, requires a knowledge of the chemical constituents of creasy disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition. Melancholy, Aberration, or that state of alteration and weakness of the mind which renders persons freespable of enjoying the pleasures of performing the constitution, and yearly carrying thon sands to untimely graves, can most emphatically be cured. Rheumatism, in any form or condition, chronic or acute, warranted curables; Epilepsy or falling sickness; all chronic and stubborn cases of Female Diseases radically removed; Salt Rheum,

falling sickness; all chronic and stubborn cases of female Diseases radically removed; Salt Rheum, and every description of ulcerations; Piles and Scrofulous Diseases, which have baffled all previous modical skill can be cured by my treatment, when the constitution is not exhausted.

I do say all diseases (yes, Consumption) can be cured.

# THE LIVER INVIGORATOR, PREPARED BY DR. SANFORD. Compounded entirely from GUMS,

Compounded entirely from GUMS, IS ONE OF THE BEST PURGATIVE AND LIVER MEDIGINES now pefore the public, that acts as a Cathartic, carier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject-its morbid matter, then on the somach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strength-

system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper perform ance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the disease of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the mafind some remedy wherewith to counteract the ma-
