Sw orn statement of David McCreary, of Naplet

Township, Bedford county:

In April, 1856, as near as 1 can retnember, a
small nignele made its appearance on my unper tip.

small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used politices of sorrel, and a wash of blue, virtiol, with-out effect. Finding the sore extending, I call d on Dr. Ely, of Schellsburg, who pronunced it CAN-CER, and proscribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I cailed upon Dr. Shaffer, of Davidsville, Somers-t-county, who also pronounced the disease Cancer, and gave me internal and external remedies the letter consisting principally of caustic, but -the latter consisting principally of caustie; Lut all to no purpose, as the disease continued spread ing toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time arsenc, in the form of saive. This for a time checked the disease, but the inflamation soon increased. I next called upon Dr. Statler of St. Clairsville, Befford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever n checking the spread of the sore. In December, of the same year, the disease had cates away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. **Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury.—He applied mild zinc ofntment, and gave internal temedies. My face healed up, but the inflamation was not thoroughly removed. In Febuary, 1857, he pronounced me curred, and I lett for home. In April the disease again returned and so violent was the pain that I could not rest at night. NEW EVIDENCE.

Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Co. to try Lindsay's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.

The totter broke out, something over a year ago. The tetter broke out, something over a year ago,

on the inside of my arms, extending from the cl-bows down to the wrists; also, on my face, im-mediately round the mouth and ciin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefitted by using his valuable medicine.
