

to the party; but such men as Forney, can never be pardoned. As we may be supposed to know the said Forney, having been intimately connected with him for the last forty years, and hoping to live and die with him, we take the liberty of answering such impudences thus: The principles of the Democratic party are everything to us. They are first and vital. We will cling to them as the shipwrecked mariner clings to his plank when night is closing around him. But when the organization of that party is usurped by a set of official hirelings, and turned into an endorsement of repulsive doctrines, we reject the organization, and trample upon it. As to whether these officials pardon us for this or not, concerns us nothing. We feel that we should not pardon ourselves if we did not boldly maintain this, our position. Gentlemen of the Administration, you will need The Press a long while before it will need you.

We only publish part of the President's message this week. Its great and unnecessary length almost precluded us from publishing it at all.

For the Inquirer.

Mr. OVER:—About one-half of the first winter month is gone, and yet I have seen no movement on the part of the authorities of our Borough, to protect our water works during the cold weather which we may expect to have soon. Do the Burgess and Council intend to permit the hydrants to remain in their present exposed condition? If they do, the consequences, of course, will be, that they will be frozen up—the pipes burst—no water to be had for any purpose, not even to extinguish a fire, should one break out, and in the spring, repairs to be made at a cost of perhaps twice the amount that would be required now to prevent all these dire results. I hope immediate attention will be given to this matter by those whose duty it is to attend to it.

TO INVALIDS.

Dr. Hardman, Analytical Physician

Physician for Diseases of the Lungs, Throat and Heart, formerly Physician to the CINCINNATI MARINE HOSPITAL, also to INVALIDS IN RETIRET.

Author of "Lectures to Invalids," Editor of the "Medical Steeplechase," &c., &c.

DECEMBER APPOINTMENTS.

Bedford, Washington House, Wednesday, Dec. 22d.

Somerset, Glade House, Dec. 20.

Cumberland, Dec. 17.

Johnstown, Dec. 24.

Dr. Hardman treats Consumption, Bronchitis, Asthma, Laryngitis, and diseases of the throat and lungs, by medical Inhalation, lately used in the Promontory Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicinal vapors directly into the lungs. Medicines are the antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of any other means of administering medicines.

The reason that consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they had never been approached in a direct manner by medicine. They were attempted to act upon the lungs and yet were applied to the stomach. Their action was intended to be local, and yet they were so administered that they should act constitutionally, extending immediate and principal action upon the offending air mass, whilst the local action within the lungs was unobstructed. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.

OTHER AFFECTIONS TREATED.—In relation to the following diseases, either when complicated with lung affections or existing alone, I also invite consultation. I usually find them promptly curable. Præputia and all other forms of female complaints, irregularities, and weakness of the Liver, Complicated, Dyspepsia, and all other diseases of stomach and bowels, &c.

All diseases of the eye and ear. Neuralgia, Epilepsy, and all forms of nervous disease. No charge for consultation.

DANIEL LATHROP & Co.

Hickory Grove, St. Charles Co., Mo. Nov. 19, '56.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been severely covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but to our surprise, and that of all our friends, every few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair, as any child we know of, and therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully,

GEORGE W. HIGGINBOTHAM, SARAH A. HIGGINBOTHAM.

Gardner, Maine, June 22, 1855.

PROF. O. J. WOOD—Dear Sir: I have used two bottles of your Restorative, and I can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy, my hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the most kind.

Yours Respectfully, DANIEL N. MURPHY, O. J
