Cumberland, Dec. 17. Johnstown, Dec. 24.

Dr. Hardman trewats Consumption, Bronchitis Asthma, Larryngittis, and all diseases of the throat and lungs, by medical Inhalation, lattly used in the Bromton Hospital, London. The great point in the treatment of all human maladies is to get at the treatment of all human maladies is to get at the disease in the direct manner. All medicinee are estimated by their action upon the organ re-quiring rehef. This is the important fact upon which Inhalation is based. If the stomach is di-seased we take medicine lirectly into the stomach. If the lungs are diseased, breathe or inhale medi-cated vapors directly into the lungs. Mesicines are the antidotes to disease and should be applied to the very seat of disease. Inhalation is the ap-plication of this principle to the treatment of the lungs, for it gives us direct access to those intri-cate air cells and tubes which lie out of reach of avery other means of administering medicines.— The reason that consumption, and other diseases of the lungs, have heretofore resisted all treatment ALSU, The farm in Morrison's Cove, adjoining Bloonfield Furnace, known as the "Pearson pr-perty" lately owned by David Daniels, containing 131 acres and 60 perches, with an excellent orchard of fruit trees In a direct manner by medicine. They were intend-ed to ast upon the lungs and yet were applied to the stomach. Their action was intended to be lo-cal, and yet they were so administered that they should act constitutionally, exending immediate and principal action upon the unoffending stemach, whilst the foul ulcers within the lungs were unmo-lested . Undustrian beings the medicine in direct

whist the load alcers within the lungs were unmo-lested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so sim-ple that it can be employed by the youngest infant or feeblest invalid. It does not derange the sto-mach, or interfere in the least degree with the strength, confort, or business of the patient. OTHER DISEASES TREATED.—In relation

to the following d seases, either when complicated with lung affections or existing alone, I also invitconsultation. I usually find them promptly curable. Prolapsus and all other forms of female com-plaints, irregularities, and weakness. Palpitation and other forms of Heart Disease

Liver Compluint, Dyspepsia, and all other diseases of stomach and bowels, &c. Ali diseases of the eye and sur. Neuralgia, Epi-

lepsy, and all forms of nervous disease. No charge for consultation. S. D. HARDMAN, M. D. July 8, 1858.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Resterative, we did so with little hope of success, but to our surprise, and that of all our friends a very few applications re-moved the disease entirely, and a new and hxuri-ant crop of hair soon started out, and we can now and say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Re-storative, as a perfect remedy for all discases of

the scalp and hair. We are, yours respectfully, GEORGE W. HIGGINBOTHAM, SARAH A. HIGGINBOTHAM.

THE LIVER INVIGORATOR, PREPARED BY PR. SANFORD. Compounded entirely from GUMS,

TS ONE OF THE BFST PUNGATIVE AND LIVER MEDICINES now before the puble, that acts as a *Cathartic*, carier, unider, and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver* remedy, acting first on the *Liver* to eject its mortid matter, then on the semanch and bowels to carry off that matter, thus accompliant the semance of that matter.

s omach and bowels to carry off that matter, thus accomplishing two jurposes effectually, without any of the painful teelings experienced in the op-crations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strength-en and build it up with unusual rapidity. The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper perform ance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the *Liver*---Iron City Commercial College.
