ceive them, who is required to reside on the const, was unnecessary, and they might have been landed by our vessels anywhere in Africa, and left exposed to the sufferings and the fate which would certainly await them.

Mr. Monroe, in his special message of 17th of December, 1819, at the first session after the act was passed, announced to Congress what in his opinion, was its true construction. He believed it to be his duty under it, to follow these unfertunates into Africa, and make provision for them there, antil they should be able to provide for themselves. In communicating this interpretation of the act of Congress, he stated that some doubt had been entertained as to its true intent and meaning, and he submitted the question to them, so that they might, 'should it be deemed advisable, amend the same before further proceedings are had under

Nothing was done by Congress to explain the act, and Mr. Monroe proceeded to carry it into execution according to his own interpretation. This, then became the practical construction. When the Africans from on board the Echo were delivered to the marshal at Charleston, it Lecture my duty to consider what disposition ought to be made of them under the law. For many reasons, it was expedient to remove them from that locality as speedily as possible. Although the conduct of the authorities and citizens of Charleston, in giving countenance to the execution of the law, was just what might have been expected from their high character, yet a prolonged con-tinuance of three hundred Africans in the immediate vicinity of that city, could not have failed to become a source of inconvenience and anxiety to its inhabitants. Where to send them, was the question. There was no portion of the coast of Africa, to which they could be removed with any regard to humanity, except to Li- Rev. Rulph Hoyt,

Under these circumstances, an agreement was entered into with the Colonization Society on the 7th of September last, a copy of which is herewith transmitted, under which the Society engaged for the consideratin of forty-five thousand dollars, to receive these Africans in Liberia from the agent of the United States, and farnish them during the period of one year thereafter, with comfortable shelter, clothing. provisious, and medical attendance, causing the children to receive schooling; and all, whether children or adults, to be instructed in the arts of civilized life, suitable to their condition.

This aggregate of forty-five thousand dollars was based upon an allowance of one bundred and fif:y dollars for each individual, and as there has been considerable mortality among them, and may be more before they reach Afrioa, the society have agreed, in an equitable spirit, to make such a deduction from the amount, as under the circumstances may appear just and reasonable. This cannot be fixed until we shall ascertain the actual number which may become a charge to the society.

It was also distinctly agreed, that under no circumstances shall this government be called upon for any additional expenses.

The agents of the society manifested a laudable desire to conform to the wishes of the government, throughout the transaction. They assured me that, after a careful calculation they would be required to expend the sum of one hundredand fifty dollars on each individuel in complying with the agreement, and they would have nothing left to remunerate them for their care, trouble, and responsibility. At all events, I could make no better arrangement, and there was no other alternative. the period when the government itself, through its own agents' undertook the task of providing for the captured negroes in Africa, the cost per head was very much greater.

There having been no outstanding appropriation applicable to this purpose, I could not advance any money on the agreement. I therefore recommend that an appropriation may be

Other captures of a similar character may, and probably will, be made by our naval forces; and I earnestly recommend, that Congress may amend the second section of the act of March 3, 1839, so as to free its construction from the ambignity which has so long existed, and render the duty of the President plain in execu ing its provisions.

I recommend to your favorable regard the local interests of the District of Columbia .-As the residence of Congress and the executive departments of the government, we cannot fail to feel a deep concern in its welfare. This is heightened by the high character and the penceful and orderly conduct of its resident inhabitants.

I cannot conclude without performing the agreeable duty of expressing my gratification, that Congress so kindly responded to the re-commendation of my last annual message, by affording me sufficient time before the close their late session for the examination of all the bills presented to me for approval. This charge in the practice Congress, has proved to be a wholesome reform. It exerted a beneficial influence on the transaction of legislative business, and elicited the general approbation of the country. It enabled Congress to adjourn with that dignity and deliberation so becoming to the representatives of this great republic, without having crowded into general appro-priation bills provisions foreign to their nature, and of doubtful constitutionality and expediency. Let me warmly and strongly commend precedent, established by themselves, as a guide to their proceedings during the present

THE GREAT PURIFIER—

THE WORLD CHALLENGED!—

THE BLOOD SEARCHER

GGLORIOUS TRIUMPHANT!

Sworn statement of David McCreary, of Napier
Township, Bedford county:

In April, 1856, as near as I can remember, a
small pimple made its appearance on my upper lip,
which soon became enlarged and sore. I used
politices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on
Dr. Ely, of Schellsburg, who pronuunced it CANout effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronuunced it CAN-CER, and proscribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsrille, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflamation soon in-creased. I next called upon Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, in checking the spread of the sore. In December, of the same year, the disease had caten away a greater part of my upper lip, and had attacked the nose, when I went to Uncinnati, where I consulted Pref. R. S. Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury.— He applied mild zinc ointment, and gave internal remedies. My face healed up, but the inflamation was not thoroughly removed. In February, 185°, he pronounced me cured, and I left for home. In April the disease again returned and so violent was was not thoroughly removed. In February, 185, he pronounced me cured, and I lett for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging uleers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eat off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of Blood Scearcher, out I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I

and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a forth bottle, and I have been healthier since than I have bottle, and I have been headfiner since than I have been for the last seven years. Although my face is s..dly disfigured, I am still grateful to a benign Providence who has spared my life, and which kas been done through the instrumentality of Lindber's IMPROVED BLOOD SEARCHER. D. Being afflicted with a gricoons Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Co. to try Lindsay's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.

The tetter broke out, something over a year ago, the incidence for a remeasure of the selection of the second bottle, on the incidence for a remeasure of the selection of the incidence for a remeasure of the selection of th

on the inside of my arms, extending from the el bows down to the wrists; also, on my face, im nediately round the mouth and ciin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itely that I could scarcely prevent tearing off my flesh. I have now been cured six weeks and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like around may be benefitted by using his valuable medicine.
