DR. W. H. WHITMOR,

OF Lancaster City, late of Philadelphia, where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had the experience and practice in the different Hospitals for several years, a member of the Analytical Medical Institute of New York, and late Surgeon of the United States Navy, now offers himself to the public to attend any professional calls.

The purest medicines always on hand direct from the best Laboratories of our country, and the Bo-

lic to attend any professional culls.

The purest medicines always on hand direct from the best Laboratories of our country, and the Botanicol Gardens of the worll. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult discases must be treated upon analytical principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituents of every solid and fluid of the human body; the chang's those solids and fluids are capable of undergoing. To know what medicines to employ to cure diseases, requires a knowledge of the chemical constituents of all agents employed in medicine; and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition. Melaneboly, Aberration, or that state of altenation and weakness of the mind which renders persons incapable of enjoying the pleasures of performing the duties of life; Dyspepsia; that distressing disease and fell destroyer of health and happiness, undermining the constitution, and yearly carrying thou sands to untimely graves, can most emphatically be cured. Rheumatism, in any form or condition, chronic or acute, warranted curable; Epilepsy or falling sickness; all chronic and stubborn cases of Female Diseases radically removed; Salt Rheum, and overy description of ulcerations; Piles and Scrofulous Diseases, which have baffled all previous medical skill can be cured by my treatment, when the constitution is not exhausted.

If one cured without the knife..

Cured.

If Cancer cured without the knife..

I will remain in my office on Wednesdays and Saturdays, from 9 o'clock A. M., to accommodate patients from a distance, and con ult in the English and German languages. Will make visits to any distance if required. May be addressed by letter, Fulton Square, Lancaster city, Pa. July 30, 1858-1y.

THE BLOOD SEARCHER

BEGINNEYS TRIUMPHANT!

Sworn statement of David McCreary, of Napier ownship, Bedford county: In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used politices of sorrel, and a wash of blue vitriol, withpointees of sorrel, and a wash of bine virtol, without effect. Finding the sore extending, I called on
Dr. Ely, of Schelisburg, who pronunced it CANOER, and proscribed a wash of sugar of lead and
bread poultiees. Finding these remedies of no
avail, I called upon Dr. Shaffer, of Davidsville,
Somerset county, who also pronounced the disease
Cancer, and gave me internal and external remedies
—the latter consisting principally of caustic; but —the latter consisting principally of caustie; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenie, in the form of salve. This for a time checked the disease, but the inflamation soon increased. I next called upon Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never falling remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Unclinati, where I consulted Prof. R. S. Newton of the Electic Medical College. greater part of my upper np, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury.—He applied mild zine olatment, and gave internal temedies. My face healed up, but the inflamation was not tho oughly removed. In February, 185, he pronounced me cured, and I left for home. In April the disease again returned and so violent was April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincianati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home checking the disease, but when I returned home there were still three discharging alcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eat off the left side of my wose, the greater portion of my left cheek, and had altacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of 'Blood Scearcher,' but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I confinited, and when the third bottle was taken my face was healed as if by a miracle. I used a forth bottle, and I have been healthier since than I have been for the last seven years. Although my face is s. dly distigured, I am still grateful to a benign Providence who has spared my life, and which has Providence who has spared my life, and which has been done through the instrumentality of Lindsey's IMPROVED BLOOD SEASCHER. NEW EVIDENCE.

Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Co. to try Lindsay's Improved Blood Searcher; and

Co. to try Linessy's Improved Blood Searcher; and now, six weeks after fluishing the second bottle, pronounced myself cured.

The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and clin, and continued to be a perfect forment to me until cured by the Blood searcher. My arms, were almost useless owing to Searcher. My arms, were almost useless, owing to the cracks and sores or, them, liable to bleed at any time on the least exertion to lift or work, and metimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefitted by using his valuable medicine.
