THE RESTORATIVE OF PRO. O. J. WOOD for restoring hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that it is a perfect Rectorative; but read the circular and you cannot doubt; read also the following.

THE HAIR.—People have for centuries been afflicted with bald heads and the only remedy, here-tofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles as the being fast dispensed with, but a great many persons still patronize them, because they have been kso often imposed upon by itair. Tonics of different kinds. To all such persons we carnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before.

It is also without doubt one of the best articles any person troubled.—It is also without doubt one of the best articles. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff and has proved itself the great-st enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance through some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or weman, is an object much to be desired, and there are no means that should be left untried to obtain such a consideration.—Woman's Advocate, Philadelphia.

prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustain-ed from mineral raedicines. Chronic and difficult ed from mineral raedicines. Chronic and difficult diseases must be treated upon analytical principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituents of every solid and fluid of the human body; the changes those solids and fluids are capable of undergoing. To know what medicinesto employ to care diseases, requires a knowledge of the chemical constituents of all agents employed in medicine; and if we are in possession of this knowledge, it is possible to care any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cared condition. Melancholy, Aberration, or that state of all nation and weakness of the mind which renders persons incapable of enjoying the pleasures of performing the duties of life; Dyspepsia; that distressing disease and fell destroyer of health and happiness, underning the constitution, and yearly carrying thoughts of the constitution, and yearly carrying thoughts on untimely graves, can most emphatically becured. Rheumatism, in any form or condition, chronic or acute, warranted curable; Englepsy or chronic or acute, warranted curable; Epilepsy or failing sickness; all chronic and stubborn cases of Femalo Diseases radically removed; Salt Rheum, and overy description of ulcerations; Piles and Scrofulous Diseases, which have baffled all previews medical skill can be cured by my treatment, when the constitution is not exhausted.
