IMPROVED CAST-IRON CARRIAGE HUB.

THE undersigned believes that he has invented a cast iron carriage hub, which far exceeds all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experiment, it having been effectually tried by the judges in our country, and pronounced one of the greatest improvements of the age!

Several vehicles have been in use over two years with the Improved Hub attached, and the wheels are still as perfect as when they left the shop, the unavoidable wear excepted.

This is the only Cast Iron Hub ever invented suitable for light wheels.

This improvement is of such a nature that one or more spokes may be taken out changed or replaced without disturbing the other portion of the wheel. Where a wood hub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate the felloes, to get at the damaged part. The wheel must be then recomposed, the tire re-welded and reset. All this involves a considerable expense and loss of time.

In the present improvement the inner ends of the spokes are secured in an Iron Hub, which consists mainly of two shells fastened together with screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put together, leaving the hub as solid and firm as ever, all WITHIN THE SPACE OF A FEW MINUTES.

This method of constructing Iron Hub wheels gives them great strength.

LIGHTNESS AND NEATNESS, besides obviating several other objections that have heretofore attended their use. The cost of manufacture is also greatly reduced.

DR. W. H. WHITNOR,

OF Lancaster City, late of Philadelphia, where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had the experience and practice in the different Hospitals for several years, a member of the Analytical Medical Institute of New York, and late Surgeon of the United States Navy, now offers himself to the public as a professional healer.

The purest medicines always on hand direct from the best Laboratories of our country, and the Botanical Gardens of the world. No patent medicine prescribed or recommended. Medicines used only which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated upon analytical principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituents of every solid and fluid of the human body; the changes those solids and fluids are capable of undergoing. To know what medicine employ to cure diseases, requires a knowledge of the chemical constituents of all agents employed in medicine; and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and leave the patient in a healthy and perfectly cured condition.

Melancholy, Aberration, or that state of alienation and weakness of the mind which renders persons incapable of enjoying the pleasures of performing the duties of life; Hypochondria, that distressing disease and fell destroyer of health and happiness, undermining the constitution, and yearly carrying thousands to untimely graves, can most emphatically be cured. Rheumatism, in any form or condition, chronic or acute, warranted curable; Epilepsy or falling sickness; all chronic and stubborn cases of Female Diseases, richly rewarded; St. Vitus's Dance, and every description of Neurosis; Piles and Scrofulous Diseases, which have baffled all previous medical skill can be cured by my treatment, when the soil is not in the exhausted.

I do not cure all diseases (yes, Consumption) can be cured. Cancer cured without the knife. I will remain in my office on WEDNESDAYS and SATURDAYS, from 9 o'clock A. M. to accommodate patients from a distance, and on all in the English and German languages. Will make visits to any distance if required. May be addressed by letter, Fulton Square, Lancaster City, Pa. July 30, 1858.—17.

LOOK OUT! NEW GOODS!

ALTHOUGH the prospects of the Railroad are dark, yet, friends of that enterprise have not yet given up. They are still successful. Hoping that the people will see that it is not only to their interest to have the road completed as soon as possible, but that they should bear in mind that:

THE GREAT PURIFIER—THE WORLD CHALLENGED—TO PRODUCE ITS EQUAL!

THE BLOOD SEARCHER! GLORIOUS TRIUMPHANT! Sworn statement of David McCreary, of Napier Township, Bedford County!

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used politics of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread crumb. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me a course of internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Stadler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electric Medical College. He pronounced the disease a cutaneous Cancer, superinduced by an inordinate use of mercury.—He applied mild zinc ointment, and gave internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eaten off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought of Wm. M. Barris & Co. a bottle of their Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.

The letter broke out, something over a year ago, on the inside of my arms, extending from the elbows to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes itchy that I could scarcely prevent tearing of my flesh. I have now been cured six weeks and feel in better health than I have for many years past, to make this statement, in hope that others like myself may be benefited by using his reliable medicine.

Witness—U. J. J. JOHN CORLEY, J. P.

NEW EVIDENCE. Being afflicted with a grievous letter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Co. to try Linsey's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.
