IMPROVED CAST-IRON CARRIAGE HUB.

THE undersigned believes that he has invented a cast iron carriage hub which far exceeds all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval. The wheel must be then re-composed, the tire re-welded and reset. All this involves a considerable expense and loss of time.

Several vehicles have been in use over two years with the improved Hub attached, and the wheels are as well as perfect as when they left the shop, the unparelleled work excepted. This is the only Cast Iron Hub ever invented suitable for light wheels.

This improvement is of such a nature that one or more spokes may be taken out or replaced without disturbing the other portion of the wheel. Where a wood hub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate the spokes, to get it changed. The wheel must be then re-composed, the tire re-welded and reset. All this involves a considerable expense and loss of time.

In the present improvement the inner ends of the spokes are secured in an iron Hub, which consists mainly of two wheels fastened together with screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put together, leaving the wheel as solid and firm as ever, all within the space of a few minutes.

This method of constructing Iron Hub Wheels gives them unusual strength. LIGHTNESS AND NEATNESS. Besides obviating several other objections that have hitherto attended their use. The cost of manufacture is also greatly reduced. The subscriber Agent for Bedford County, will dispose of Township and shop rights, on reasonable terms. WILLIAM DORRIS, Rainsburg, Bedford Co., Pa. Feb. 18, 1859.

Being afflicted with a grievous tumor on the arms and face—after trying many remedies which entirely failed to cure—I was persuaded by W. M. Harris & Co. to try Lindsay's Improved Blood Searcher; and now six weeks after finishing the second bottle, pronounced myself cured. The tumor broke out something over a year ago on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and I was unable to do any thing but sit and weep, and to the tearing of my flesh. I have now been cured six weeks and feel like Dr. M. Lindsay and to the public generally, to make this statement, in hope that others like myself may be benefited by using his valuable medicine. THE GREAT PURIFIER—

THE WORLD CHALLENGED— TO PRODUCE ITS EQUAL! OF THE BLOOD SEARCHER! OF THE GREAT PURIFIER! Sworn statement of David McCreary, of Napier Township, Bedford county: In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used policies of salve, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Snodder, of Davidville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the disease. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Eclectic Medical College. He pronounced the disease Cancer, and recommended a superinduced by an inordinate use of mercury. He applied mild zinc ointment, and gave internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had cut off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of Blood Searcher, but I must confess that I had no faith in it. I was very despondent when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for fifteen years past. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done through the instrumentality of LINDSEY'S IMPROVED BLOOD SEARCHER. D. MCCREARY. Sworn and subscribed, this 21st day of August, A. D. 1858, before me, one of the Justices of the Peace in and for the Borough of Hollidayburg, Blair county, Pa. Witness—U. J. Jones.
