Drs. Firch & Sykes would state that their treatment of consumption is based upon the fact that
the disease exists in the blood and system at large,
both before and during its development in the
lungs, and they therefore employ Mechanical, Hyglenic and Medicinal remedies to purify the blood
and strengthen the system. With these they use and strengthen the system. With these they use MEDICAL INHALATIONS, which they value highly, but only as Palliatives, (having no curative effect when used alone,) and invalids are earnes'ly cautioned against wasting the precious time of curability upon any treatment based upon the plausible, but false idea that the "scat of disease can be reached in a direct manner by Inhalation," For as before stated, the seat of the disease is in the blood and its effects only in the lungs.
