TO WE SEED SEED The state of the s CARRIAGE HUB.

FILE undersigned believes that he has invented a

a. cast iron carriage hub which far excels all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experi-ment, it having been effectually tried by the best judges in our country, and pronounced one of the Greatest improvements of the ige! Several vehicles have been in use over two years with the Improved Hub attached, and the wheels are still as perfect as when they left the shep, the

are still as perfect as when they left the shop, the anavoidable were excepted.

This is the only Cast Iron Hub ever invented suitable for light wheals.

This ineptovement is of such a mature that one or more spokes may be taken out changed or replaced without disturbing the other portion of the wheel Where a wood hub is used, if a spoke happens to occome broken, it is necessary to cut the tire and separate the fellows, to get at the damaged part.—The wheel must be then recomposed, the tire rewelled and reset. All this involves a considerable expense and loss of time.

In the present Improvement the inner eads of the spokes are secured in an Iron Hub, which consists mainly of two shells fastened together with screws. By simply cuserewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put together, leaving the wheel as solli and firm as ever, all WITHIN THE SPACE OF A FEW

Sworn statement of David McCreary, of Napter Township, Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became colleged and sore, I used politices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on which soon became colleged and sore. I user politices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronunced it CAN. CER, and proscribed a wash of sugar of lead and bread pouldices. Finding these remedies of ho avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustia; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of agenic, in the form of salve. This for a time checked the disease, but the inflamation seon increased. I next called upon Dr. Statler of St. Clairsville, Beal, ra county, who also pronounced the disease Cancer, and gaphed a salve said to be a never falling remedy, but it had no effect whatever in checking the spread of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Chicianati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease of mercury. never falling springs upon the personal stantly running stream through the farm. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had est off the left side of my nose, the greater portion of my left check, and hed attacked my left eye. I had given up all hope of ever being cured; since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of Ellood Scearcher, but I must confess that I had no faith in it. I was very weak when I commerced taking Scearcher, 'out I must confuse that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third both, was taken my face was heated as if by a miracle. I used a forth bottle, and I have been healthier since that I have been for the last seven years. NEW EVIDENCE.

Being efflicted with a grice out Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Go. to try Lin's ay's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounced myself cured.

The tetter broke out, something over a year ago, on the justile of my same extending from the selections.

on the haside of my arms, extending from the el-bows down to the wrists; also, on my face, im-mediately round the mouth and clin, and continued to be a perfect torment to me until cared by the Blood Searcher. My arms, were almost useless, owing to the cracks and sores on them, liable to bleed at the time on the least exertion to life work, and any time on the tense that I could scarcely prevent sometimes so itch that I could scarcely prevent tearing off my fiesh. I have now been cured six weeks and feel it due to Mr. Liadsey, and to the pftblic generally, to make this statement, in hope that others like myself may be benefited by using his valuable medicine.
