# NATURE 925 IMPROVED CAST-IRON CARRIAGE HUB.

THE undersigned believes that he has invented a cast iron carriage hub which far excels all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experiment, it having been effectually tried by the best indees in our country and reconvent one of the udges in our country, and prone

Greatest Improvements of the Age! Several vehicles have been in use over two years with the Improved Hub attached, and the wheels are still as perfect as when they left the shop, the

unavoidable wear excepted.

This is the only Cast Iron Hub ever invented sutable for light wheels.

This improvement is of such a nature that one or

more spokes may be taken out changed or replaced without disturbing the other portion of the wheel Where a wood hub is used, if a spoke happens to where a wood nub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate the felloes, to get at the damaged part.—
The wheel must be then recomposed, the tire rewelded and reset. All this involves a considerable expense and loss of time.

In the present Improvement the inner ends of the spokes are segured in an Iron Hub, which con-

the spokes are secured in an Iron Hub, which consists mainly of two shells fastened together with screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put together, leaving the wheel as solid and firm as ever, all WITHIN THE SPACE OF A FEW

MINUTES. This method of constructing Iron Hub Wheels
