## Drs. C. M. Fitch and J. W. Sykes

HAVE CONCLUDED TO REMAIN

PERMANENTLY IN PITTSBURGH,

And may be consulted at their office,

NO. 190 PENH STREET,

Opposite St. Clair Hotel PITTSBURGH. A ND may be consulted daily, (except Sundays.) for Consumption, Asthma, Bronchitis, and all other Curonic Complaints complicated with or causing pulmonary disease, including Catarrh, Heart Disease, Affection of the Liver, Dyspepsia,

Gastritis, Female Complaints, etc.
Drs. Firen & Sykes would state that their treatment of consumption is based upon the fact that the disease exists in the blood and system at large, both before and during its development in the lungs, and they therefore employ Mechanical, Hy-gienic and Medicinal remedies to purify the blood and strengthen the system. With these they use MEDICAL INHALATIONS, which they value highly, but only as Palliatives, (having no curative effect when used alone,) and invalids are carnestly eautioned against wasting the precious time of curability upon any treatment based upon the plausible, but false idea that the "seat of disease can be reached in a direct manner by Inhalation," For as before stated, the seat of the disease is in the blood and its effects only in the lungs.

No charge for consultation.

A list of questions will be sent to those wishing to consult us by letter. March 18, 1859.-1y

#### NUNC UN 995 IMPROVED CAST-IRON CARRIAGE HUB.

THE undersigned believes that he has invented a cast iron carriage hub which far excels all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experi-ment, it having been effectually tried by the best judges in our country, and pronounced one of the

Greatest improvements of the Age! Several vehicles have been in use over two years with the Improved Hub attached, and the wheels are still as perfect as when they left the shop, the

unavoidable wear excepted.

This is the only Cast Iron Hub ever invented sutable for light wheals.

This improvement is of such a nature that one or tore spokes may be taken out changed or replaced without disturbing the other portion of the wheel Where a wood bub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate the felloes, to get at the damaged part.— The wheel must be then recomposed, the tire re-welded and reset. All this involves a considerable expanse and loss of time.

In the present Improvement the inner cods of the spokes are secured in an Iron Unb, which con-sists mainly of two shells fastened together with

screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put togethor, leaving the wheel as soil and firm as ever, all WITHIN THE SPACE OF A FEW MINUTES.

This method of constructing Iron Hub Wheels diese them unusual strength,

## LIGHTNESS AND NEATNESS.

besides obvious several other objections that have heretofore attended their use. The cost of manufacture is also greatly reduced.

The subscriber Agent for Bedford County, will dispose of Township and shop rights, on reasonable terms. WILLIAM O'NEAL Agent. Feb. 18, 1859. Rainsburg, Bedford Co., Pa.
