

BEDFORD INQUIRER.

PERMANENT OFFICE.

Complying with the urgent request of hundreds of their patients,

Drs. C. M. Fitch and J. W. Sykes

HAVE CONCLUDED TO REMAIN

PERMANENTLY IN PITTSBURGH,

And may be consulted at their office,

NO. 190 PENN STREET,

Opposite St. Clair Hotel Pittsburg.

AND may be consulted daily (except Sundays.)
A ND upon Consumption, Asthma, Bronchitis, and all other Chronic Complaints, which they value highly, but only as Palliatives, (having no curative effect when used alone,) and invalids are earnestly cautioned against wasting the precious time of curability upon any treatment based upon the plausible, but false idea that the seat of disease can be reached in a direct manner by Inhalation. For as before stated, the seat of the disease is in the blood and its effects only in the lungs.
No charge for consultation.
A list of questions will be sent to those wishing to consult by letter.

NYCUMPS

IMPROVED CAST-IRON CARRIAGE HUB.

THE undersigned believes that he has invented a cast iron carriage hub which far exceeds all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experiment, it having been effectually tried by the best judges in our country, and pronounced one of the

Greatest Improvements of the Age!

Several vehicles have been in use over two years, heretofore attended their use, and the wheels are still as perfect as when they left the shop, the unavoidable wear excepted.

This is the only Cast Iron Hub ever invented suitable for light wheels.

The improvement is of such a nature that one or more spokes may be taken out changed or replaced without disturbing the other portion of the wheel. Where a wood hub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate it to get at the damaged part. The wheel must be then recomposed, the tire re-welded and reset. All this involves a considerable expense and loss of time.

In the present improvement the inner ends of the spokes are secured in an Iron Hub, which consists mainly of two shells fastened together with screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the hub again put together, leaving the wheel as solid and firm as ever, all

WITHIN THE SPACE OF A FEW MINUTES.

This method of constructing Iron Hub Wheels gives them unusual strength.

LIGHTNESS AND NEATNESS,

besides obviating several other objections that have heretofore attended their use. The cost of manufacture is also greatly reduced.

The subscriber Agent for Bedford County, will dispose of Township and shop rights, on reasonable terms. WILLIAM O'NEAL, Agent.

DR. W. H. WHITMOR,

OF Lancaster City, late of Philadelphia, where he has been in successful practice for a number of years, received his education at the best Medical College in the United States, and had the experience and practice in the different Hospitals for several years, a member of the Analytical Medical Institute of New York, and late Surgeon of the United States Navy, now offers himself to the public to attend any professional calls.

The purest medicines are used, and direct from the best Laboratories of our country, and the Botanical Gardens of the world. No patent medicine prescribed or recommended. Medicines used which will not break down the constitution, but will renovate the system from all injuries it has sustained from mineral medicines. Chronic and difficult diseases must be treated upon analytical principles, which is to know and ascertain what disease is. Its nature and character require a knowledge of the chemical constituents of every solid and fluid of the human body; the changes those solids and fluids are capable of undergoing. To know what medicines employ to cure disease, requires a knowledge of the chemical constituents of all agents employed in medicine; and if we are in possession of this knowledge, it is possible to cure any disease—no matter of how long standing—and to restore the patient in a healthy and perfectly cured condition.

Melancholy, Aberration, or that state of alienation and weakness of the mind which renders persons incapable of enjoying the pleasures of performing the duties of life, Dyspepsia, that distressing disease which destroys the appetite, and causes the patient to fall into a state of prostration, and finally destroys the constitution, and yearly carrying thousands to untimely graves, can most emphatically be cured, Rheumatism, in any form or condition, chronic or acute, warranted curable; Epilepsy or falling sickness; all chronic and intractable cases of Female Diseases radically removed; Salt Rheum, and every description of ulcers; Piles and Scrofulous Diseases, which have baffled all previous medical skill can be cured by my treatment, which the constitution will tolerate, and will leave the patient in a healthy and perfectly cured condition.

I do say all diseases (yes, Consumption) can be cured.

Cancer cured without the knife.

I will remain in my office on WEDNESDAYS and SATURDAYS, from 9 o'clock A. M., to accommodate patients from a distance, and can visit in English and German languages. Will make visits to any distance if required. May be addressed by letter, Fulton Square, Lancaster city, Pa.
