WORMS! WORMS! WORMS!

WORMS! WORMS! WORMS! IF A great many learned treatises have been written, explaining the origin of, and classifying the worms generated in the human system. Scarcely any topic of medical science has cheited more scate observation and profound research, and yst physicians are very much divided in opinion on the subject. It must be admitted, nowever, that, after all, a mode of expelling them and purifying the body from their presence is of more value than the wisest disquisitions as to their erigin. Such an expelling agent has at last been found. Dr. M'Lane's Vermituge proves to be the much so ght after specific—its efficacy being universally acknowledged by the entire medical faculty. As further proof, read the following from a lady—one of our own citizens: New Yonk, October 15th, 1852. This is to certify that I was troubled with worms

NEW YORK, October 15th, 1852. This is to certify that I was troubled with worms for more than a year. I was advised to use M²-Lane's Celebrated Vermifuge, prepared by Fleming Bros. of Pittsburg. I took one bottle, which brought away about fifty worms; I commenced im-proving at once, and am now perfectly well. The public can hearn my name, and further particulars, by applying to Mrs. Hardie, No. 3 Manhatten place, or to E. L., Theall, Druggist, corner of Rutger and and Monroe streets.

for restoring hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that it is a perfect Restor-ative; but read the circular and you cannot doubt; read also the following.

THE HAIR.—People have for centuries been afflicted with bald heads and the only remedy, here-tofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great mapy persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try orce again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with of a lady who was baid, who used the article a snort time, and her head is now covered completely with the thiest and most beautiful curls imaginable. Wo know of numerous cases where hair was rapidly fal-ling out, which it restored in greater perfection than it must have hear

It even has been before. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff and has proved itself the greatest enemy to all the ills that hair is heir to

eir to. It is the duty of overy one to improve their perto its the diffy of every one to improve their per-sonal appearance through some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or wo-man, is an object much to bu desired, and there are no means that should be left untried to obtain such a consideration.
