

Later From the Seat of War.

FURTHER POINT, below Quebec, June 11.—The steamship North Briton has passed here, on her way to Quebec, where she will arrive about midnight. Her dates are to the 1st inst., two days later than the telegraphic advices received by the Argo at St. Johns, N. F.

SECOND DESPATCH.

FURTHER POINT, below Quebec, June 11.—The steamship North Briton, has passed here on her way to Quebec, which she cannot reach before midnight. Her dates from Liverpool are to the 1st inst., being two days later than telegraphic advices received by the Argo, at St. Johns.

The steamships Niagara and Bavaria had arrived out. There had been no decisive battle between the main armies. The Sardinians had, however, succeeded in forcing a passage over the river Sesia, and capturing Palastro from the enemy.

Rumors have been received from Lombardy to the effect that Gen. Garibaldi had met with a repulse.

FROM THE SEAT OF WAR.

The Sardinians forced a passage over the river Sesia at Palastro, in the face of the Austrians who were protected by the fortifications erected there since their occupation of the city. After a severe conflict they also succeeded in the capture of the city. The Sardinians were under the immediate command of King Victor Emmanuel.

Gen. Garibaldi was still creating a sensation in Northern Lombardy. A rumor prevails that he has been defeated by a superior force, and retreated into Tessin, but the rumor lacks confirmation, as the Turin despatches intimate that he was making still further progress.

The Emperor Napoleon was about removing the headquarters of the allies to Cassale. The Austrians have occupied Bobbio in considerable force.

It is reported at Paris that as soon as the French enter Milan, England and Prussia will jointly make strenuous efforts to terminate the war by negotiation.

A fight occurred at Florence, between some English and American sailors on account of the latter wearing tri-color sashes.

The Emperor of Austria, the Arch Duke Charles and General Hess, all reached Verona on the 31st ult., on their way to headquarters.

GREAT BRITAIN.

The English Parliament met on the 31st ult. Speaker Dennison was unanimously elected.

The Funds were buoyant at the advance quoted.

FRANCE.

It is rumored that Napoleon will return to Paris, in August, after the first series of military operations are carried into effect.

Heavy shipments continue to be made of artillery and siege materials.

The Paris Bourse was buoyant at an advance of over 1 per cent. Three per cents closed at 62.75.

GERMANY.

The Military Committee of the German Diet have approved the motion to place an army on the Rhine.

Correspondence of the St. Louis Republican.

The Terrible Storm in Illinois.

JACKSONVILLE, Ill., May 28.

We regret to say that the disaster which we mentioned to you yesterday as having happened to many of the residents of this county, is even worse than we then believed it to be. We have not yet received full particulars concerning the amount of damage done by the storm, but enough to know that it was the most terrible one that ever was known in this part of the county. In addition to those we mentioned yesterday as having been killed, we have learned of two more, viz: the mother of Mr. Carlyle—who was killed—and the wife of Jacob Sample. Several persons who were injured are not expected to live. In all we have learned of ten or eleven having been killed.

We can give you no better idea of the severity of the storm than by stating a few of the many terrible things that happened. On Mr. Joseph Fry's place, everything, house, barn, furniture, were torn into shreds; the fences scattered for miles, fifteen horses were killed, (besides the human beings we mentioned yesterday) seventy hogs, several head of cattle, and all his fowls; even the rats about the premises did not escape. The wagons were blown to atoms, spokes knocked out of the wheels, and even the tires bent. This is but one case in many. Several others suffered in the same way.

The house of William McDonald, south of this place, was torn into atoms, not ten feet square of the house or barn remaining; and, singular to say himself, wife and children escaped with their lives, though they were badly bruised, yet not dangerously. At the place of Mr. Barrows, of which we spoke yesterday, in addition to the destruction to life and property, he lost one hundred and ten hogs out of one hundred and fifty.

A horse was found in the neighborhood dead, with a rail run through him lengthwise, so that both ends were visible. Another horse was found dead with a bridle and saddle on, but the rider or owner has not yet been found; it is feared that he has been destroyed.

Those persons who were killed were badly mangled; and in most instances the bodies, carried a long distance.

All this may appear to your readers to be a mere fabrication. Would it were so! But of the truth of it there can be no doubt. Many of the citizens of this place visited the scene yesterday for the purpose of helping the sufferers, and from all of those who returned we learn the same dreadful news. The citizens of this place called a meeting yesterday for the purpose of taking measures to relieve the sufferers. Committees were appointed who at once proceeded to raise money, workmen, &c., to help repair the damage as much as possible.

As far as heard from the storm began in Calhoun county, carrying everything, men, houses, barns, fences, trees and cattle with it, from Manchester to a distance of twelve miles, directly northeast. We can count thirty-six dwelling houses, with all the barns and out-houses, destroyed. The number of killed, as far as heard from are Mrs. Route, a son of George Van Zines, Samuel Brown, a Portuguese in the employ of Mr. Route, Jonathan Carlisle, Jacob Sample and wife, and a Mr. Thomas. There are about fifty seriously, in

not mortally wounded. Most of them, it is feared, must die.

To give an idea of the force of the storm, I have in my possession a stone weighing three pounds, that was lifted up and carried sixty feet, passing through a window, four feet from the floor. The floor and partition of a school room, twenty by thirty feet, was carried away with heavy timber, and all cannot be found within two miles of the place. A wind-mill was carried over four hundred yards, with pipes, pumps, &c., the small end foremost.—There is not ten feet square within the route of the storm, that has not got rails, boards, &c., stuck in the ground so that no one can easily pull them out. Whole partitions of houses are gone and cannot be found. A man riding in a field was blown from his horse, the saddle torn off and carried about two miles from the place.

No one can form an idea of the terrible effects of this storm which lasted but five minutes, with but little rain. The cloud was very bright, while on either side it was so dark as not to be able to distinguish objects.

THE STATE CONVENTION.

Our readers will find the full proceedings of the State Convention held yesterday in our paper of to-day. We have been an attendant of State Conventions for over fifteen years, and can truly affirm that we have never seen a fairer or more able Convention assembled at the seat of government. Every county was fully represented, and judging from the delegates, by the ablest men in the party. The proceedings were harmonious, and although an excited struggle took place for the office of Auditor General, everything passed off pleasantly, and as soon as the successful candidate was announced, the unanimous satisfaction seemed to be from the bottom of the heart.

Thomas E. Cochran, the nominee for Auditor General, is a gentleman well known throughout the State, and in his own neighborhood has acquired an estimation and standing which any man might envy. He is known to be an honest man, (without any peculiar boast of it on his part) which is the best recommendation so particularly necessary for the responsible post of Auditor General. Mr. C. has always been a hard working opponent of the Buchanan Democracy, and he deserves to be rewarded by those whom he has so faithfully served on various occasions. He represented his own county on the floor of the Senate for three years, and he can point with pride to the record of that body. His opponent of the "Soup Convention," Richardson L. Wright, will find honest Tom Cochran a hard nag to beat, and he may prepare himself to be left in the background to the tune of 30,000. Leocompton nor old Buck will be able to save him.

Gen. Wm. H. Keim, (sometimes called Glauzy Jones Keim) is the nominee for Surveyor General. The General is known all over the State as the successor of that man who had so often the honor to sit with the President, Mr. James. He served in the last Congress, and distinguished himself by his able tariff speech. He has always been known as the friend of the poor, and we are certain that he will be remembered by the workmen of "Old Berks" on the second Tuesday in October next. He will make an honest and industrious officer, and his election is beyond doubt.

Several worthy men were seemingly sacrificed, and we can only regret that the party had not more posts of honor and profit to bestow. Our party can boast of such men as Francis Jordan, John M. Sullivan, Geo. V. Lawrence, E. S. Foster, H. W. Snyder and Richard Irwin, and we are sure that every one of them will at once go to work and labor for the ticket nominated yesterday most faithfully.

The opposition party is already terrified with the nominations made, and we can predict a glorious triumph on the second Tuesday of October next. Our own distinguished Senator in Congress was duly noticed in the proceedings, and it was manifest that the Convention was almost unanimous in his favor. When the resolution endorsing his course in Congress was read, a universal feeling of joy prevailed. Whilst the Secretary was reading it, he was interrupted with loud huzzas and clapping of hands, proving beyond doubt that his own State will press his name for a nomination, by a national Convention, and insist upon it. If Pennsylvania presents an unbroken front at that time, the nomination of General Cameron for President will be beyond dispute.—Har. Telegraph.

WORMS! WORMS! WORMS!

A great many learned treatises have been written explaining the origin of, and classifying the worms existing in the human system. Scarcely any topic of medical science has elicited more acute observation and profound research, and yet physicians are very much divided in opinion on the subject. It may be admitted, however, that after all, a mode of expelling them, and purifying the body from their presence is of more value than the wisest disquisitions as to their origin.

Such an expelling agent has at last been found. Dr. M'Lane's Vermifuge proves to be the much sought after specific—its efficacy being universally acknowledged by the entire medical faculty. As further proof, read the following from a lady—one of our own citizens:

New York, October 15th, 1852. This is to certify that I was troubled with worms for more than a year. I was advised to use M' Lane's Celebrated Vermifuge, prepared by Fleming Bros. of Pittsburg, Pa. All other vermifuges in comparison are worthless. Dr. M' Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS. May 27—1m.

FITS! FITS! FITS!

Persons laboring under this distressing malady will find Dr. Hance's Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Falling Fits. These pills possess a specific action on the nervous system, and although prepared especially for the purpose of curing Fits, they will be found of especial benefit to all persons afflicted with weak nerves, or whose nervous system has been prostrated or shattered from any cause whatever. The dyspeptic patient, whose stomach has lost the power of daily converting food into a life-sustaining element, is relieved by a single course of the extraordinary pills. The gastric fluid re-acquires its solvent power, and the crude nutriment which was a load and a burden to the sufferer, with its digestive organization was paralyzed and unstrung, becomes under the wholesome revolution created in the system, the basis of strength, activity, and health.

Sent to any part of the country by mail, free of postage. Address Seth S. Hance, 108 Baltimore Street, Baltimore, Md. Price—one box, \$5; two, \$9; 12, \$24.

Do you want something to strengthen you? Do you want a good appetite? Do you want to build up your constitution? Do you want to feel well? Do you want to get rid of nervousness? Do you want energy? Do you want to sleep peacefully? Do you want a brisk and vigorous feeling? If you do use Hood's German Bites, prepared by Dr. C. M. Jackson, 415 Arch Street, Philadelphia, Pa., and sold by druggists and stockeers throughout the United States, Canada, West Indies, and South America, at 75 cents per bottle. May 27—1m.

MUNICIPAL ELECTION.

NEW ORLEANS, June 6.—The election for Comptroller and Assessor, held to day, resulted in the success of the American ticket by 2,000 majority. No serious disturbance occurred.

THE MARKETS.

BALTIMORE, June 14.—Flour from \$7 to \$8, according to quality. Wheat from 155 cts. to 185 cts. and Corn from 80 to 90 cts. according to quality. Oats 46 cts. and Rye 92 cts. for Pennsylvania.

MARRIED.

On the 9th inst., by the Rev. G. B. Probst, at the residence of Mr. Jacob Dunkel, in Snake Spring Valley, Mr. PHILIP WEAVER, to Miss MARY JANE SANDS.

DIED.

On Monday the 6th, Mrs. FRANCES GILSON, wife of Alexander Gilson, near Bedford, in the 48th year of her age.

In the decease of this estimable woman, there was a complete triumph of Christian faith. Death was not terrible to her; the grave presented no gloom to her mind. "Christ died," was her language, "He laid in the tomb; he sanctified the bed; he arose and triumphed; so all his followers shall arise and triumph over death and the grave."

Mrs. Gilson was a Christian before she took sick, her Christianity was not a death-bed repentance, brought about by the necessity of circumstances; but she was a humble professor for years previous, and an exemplary member of the German Reformed Church. The day before her departure, on being asked if she had any word to leave for her pastor, who was absent, said, "tell him I die strong in the faith." How highly esteemed are such church members, and how hard to part with them!—She has left a bereaved husband and six children to imitate her Christian example. She enjoyed the pleasure, whilst living, of seeing three of her children enter into covenant relation with God through Christ, in the solemn rite of confirmation; and two of these only a few days before her death. Her bereaved family and relations have much comfort in the consolatory reflection, that, "Their loss is her everlasting gain."

On the 12th inst., near St. Clairsville, ANN MARIA OSTER, aged 63 years, 8 months and 22 days.

NOTICE OF INQUISITION.

WHEREAS Solomon Harcleroad, late of Colebrook Township, Bedford County, died, seized of the following described Real Estate, to wit: One tract of land containing two hundred acres, and one hundred and five perches, strict measure, situate in Snakespring Township, Bedford County, and adjoining lands of James McMillan, Isaac Kitchey, John Daugherty, and others;

OF ANY STYLE AND QUALITY, CALL ON OSTER & CARN,

No. 1 Cheap Side.

The Opposition State Convention.

Pressing to deal fairly and impartially between individuals and organizations, we cannot avoid doing justice to the general tone and temper of the Opposition Convention, which assembled at Harrisburg on the 8th inst., and which our readers will find in the Press of this morning. The refusal to endorse the obsolete Republican platform of 1850, on the subject of Congressional intervention for the prohibition of slavery, is a wholesome indication; and the acceptance, though not in express terms, of the doctrine of popular sovereignty, and the repudiation, in direct language, of the attempt to establish a slave code in the Territories, are concessions to a just and public sentiment, which, we confess, we had no right to expect from this body. So much for the general scope of the resolutions on the leading questions.—The rest may be set under the category of a "stab to the whale." We have no doubt that the next Democratic Convention which assembles in Pennsylvania will march up much more squarely to the principles now accepted by the great body of the American people, particularly of the free States, and in 1860 we shall be a unit once more in support of the rights and the equality of the States, and in hostility to sectionalism and disunionism of every shape.—Phila. Press.

DESTRUCTIVE HAIL STORM.

This vicinity was visited on Monday the 30th ult., by a most terrific and destructive hail storm. About half a mile south of this place seemed to be the centre of the storm. Wheat, Rye, Corn and Clover was mowed down as with a scythe, and beaten to the earth by the hail. The glass wore broken from the windows and the impression of the rugged hail stones can yet be distinctly seen upon the fences a short distance below town. It was the hardest storm witnessed here for many years, and the crops of some of our farmers are entirely destroyed.—Fulton Republican.

THE FROST.—The papers very generally complain of the severity of the late frost. The fruit and vegetables seemed to have suffered greatly.—The injury appears to have extended from Canada West as far South as Cincinnati, and even into Kentucky, and West as far as Indianapolis. Beyond that point the country would appear to have escaped the visitation. Much anxiety is felt respecting its effects upon the corn and wheat crop, probably unnecessarily. A few days may restore the corn, and the wheat may really be benefited by the frost killing the weeds. Potatoes in some quarters are reported to have sustained much injury. The grape crop is believed to have suffered most severely.—Baltimore American.

THE LATE FROST.—The Cincinnati Gazette says, regarding the effect of the frost upon the crops, the accounts are generally discouraging, but verbal reports obtained from farmers and others, satisfy us that the damage has been overestimated greatly. The injury to the corn can be fully repaired by replanting, and even this will not be necessary to any considerable extent. Wheat appears to have escaped without material damage. Potatoes have suffered, to the extent, perhaps, of one-fourth the crop. Smaller vegetables have suffered more. Grapes are safe in this section, and the prospects for an abundant yield continue favorable.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD. Compound entirely from GUMS, IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, that acts as a Cathartic, emetic, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity. The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the disease of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy whereby to counteract the many derangements to which it is liable. To prove that this remedy is last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain. These gums remove all morbid or bad matter from the system, supply the deficient, and attach, causing food to digest, giving tone and health to the weak machinery, removing the causes of the disease, and effecting a radical cure. Bilious attacks are cured, and what is better, prevented by the Liver Invigorator. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring. Regularly ordered doses taken before retiring prevent nightmarish dreams. Only one dose taken at night loosens the bowels gently, and cures constiveness. One dose taken after each meal will cure Dyspepsia, with its attendant, what is better, prevented by the Liver Invigorator. One dose of two or three spoonfuls will alleviate Sick Headache, female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves Cholera, while One dose often repeated is a sure cure for Cholera Morbus, and preventive of Cholera. One dose taken often relieves bilious attacks while it relieves all painful feelings. Only one bottle is needed to throw out of the system the effects of medicine after long sickness. One bottle taken for Jaundice removes all yellowness or unnatural color from the skin. One dose taken a short time before eating gives vigor to the appetite and makes food digest well. One dose often repeated cures Chronic Diarrhoea in its worst forms, while summer and bowel come plainly yield almost to the first dose. One or two doses cures attacks caused by worms, while for worms in children, there is no safer or speedier remedy in the world, as it never fails. A few bottles cures Dropsy, by exciting the absorbents. We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chills, Fever, and all Fevers of a Bilious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues. All who use it are giving their unanimous testimony in its favor. It is sold in the Mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD. Compound entirely from GUMS, IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, that acts as a Cathartic, emetic, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its mor
