Make your fences high, tight, and strong, so that it will keep cattle and pigs out. If you have brush, make your lots secure, and keep your hogs from the cattle; for if your corn is

clean they will eat it better than if it is not. Be sure to get your hands to bed by 7 o'clock. They will rise early by the force of eircumstances.

Always feed your hands as well as you do yourself, for the working man is the bone and sinew of the world, and ought to be well treated.

I am satisfied that getting up early, industry, and regular babits, are the best medicines ever prescribed for health.

When it comes rainy, bad weather, so that you cannot work out of doors, cut and split your wood. Make your tracks when it rains hard, cleaning your stables, or fixing something which you would have to stop the plow for and fix in good weather. Make your tracks fixing your fence, or a gate that is off the hinges, or weather-boarding your barn where the wind has blown off the siding, or patching the roof of your house or barn.

Study your interest closely, and don't spend any time in electing Presidents, Senators, or other small officers, or talk of hard times while spending your time in town, whittling away on store boxes, &c. Take your time, and make your calculations. Don't do things in a burry, but do them at the right time; and keep your mind as well as your body employed.

CLOVER AS A MANURE .- In a late number of Moore's Rural New Yorker, we find an elaborate article on the value of clover fer plowing under as a manure. We make the following extract, which may interest the farmer:

The manurial value of clover, as has been already remarked, is greater than that of any other plant which can be as economically employed. Easily and cheaply raised, affected by few of the casualities so common to most W. Garre crops, and in a form readily applied to the soil, it takes high rank as green manure. It is an available means of returning to 'he soil not only the materials which the plant has drawn out of it, but the additional organic matter which the plant itself has elaborated from the atmosphere. 'It has decomposed,' says Dana, 'during the short period of its growth, more silicates and salts than the air could affect during the same period, which, being turned in, restore to the soil from which they grew, salts and sicilates in a new form, whose action on vegetacles is like that of the alkalies.

It is a question of a good deal of importauce in agriculture, whether we had better plow clover under in the height of its growth, or allow it first to ripen and partially dry and decay. Some contend that it possesses far the greatest value in the latter case, and their experiments show it to be so. This explained by the authority above quoted, as "a result of the fact that dry plants give more organic matter than green. Green plants ferment, dry plants decay. A large portion escapes in fermentation, as gas and more volatile products are formed, than during decay."

ADVICE TO FARMERS.

Mr. Jacob Strawn, of Illinois, has earned the reputation of being the "giant farmer of the West." Twenty-seven years ago he settled in Illinois, a poor man. His operations were small at first, but centinued to increase each year, until he had reduced over 30,000 acres of land to a state of cultivation. He has one farm of 7,806 acres, and another of 10,000. He has usually employed some 200 to 300 men, and a large number of horses.—
Every year, until quite recently, he stalled from 6,000 to 7,000 head of cattle, and kept winds and solders of the stock will be frequently made, so as to keep up a general assortment; all dealers are invited to call before purchasing elsewhere. DR. M'LANE'S . CELEBRATED VERMIFUGE

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Br. Chas. M'Lane's Celebrated Vermifuge and Liver Pills. We do not recommend them as universal Cure-alls, but simply for

what their name purports, viz.: THE VERMIFUGE, For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS, For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA. to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS. Pittsburgh, Pa. P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M.Lonet, prepared by Fleming Bros. Pittlemyth, Fu. INVELVINES IMPROVED CAST-IRON CARRIAGE HUB.

1 THE undersigned believes that he has invented a a cast iron carriage hub which far excels all others now in use, for strength, neatness and durability, and that it only needs to be examined, and its merits tested, to secure its universal approval and adoption. Indeed it is no longer an experi-ment, it having been effectually tried by the best judges in our country, and pronounced one of the Greatest Improvements of the Age! Several vehicles have been in use over two years with the Improved Hub attached, and the wheels

are still sperfect as when they left the shop, the unaxoldable wear excepted.

This is the only Cast Iron Hub ever invented satable for light wheels.

This improvement is of such a nature that one or more spokes may be taken out changed or replaced without disturbing the other portion of the wheel more spokes may be taken out changed or replaced without disturbing the other portion of the wheel Where a wood bub is used, if a spoke happens to become broken, it is necessary to cut the tire and separate the felloes, to get at the damaged part.—The wheel must be then mporeco the sed, tire rewelded and reset. All this involves a considerable pense and loss of time.

In the present Improvement the inner ends of the spokes are secured in an Iron Hub, which consists mainly of two shells fasteneted together with screws. By simply unscrewing the nuts and taking off the back shell, any one of the spokes may be removed or changed, and the bub again put together or, leaving the wheel as solid and firm as ever, all WITHIN THE SPACE OF A FEW

A to: Consumption, Asthma, Bronchitis, and all other Chronic Complaints complicated with or causing pulmonary disease, including Catarh, Heart Disease, Affection of the Liver, Dyspepsia, Gastritis, Female Complaints, etc.

Drs. Firch & Sykes would state that their treatment of consumption is based upon the fact that the disease exists in the blood and system at large, both before and during its development in the lungs, and they therefore employ Mechanical, Hygienic and Medicinal remedies to purify the blood and strengthen the system. With these they use MEDICAL INHALATIONS, which they value highly, but only as Palliatives, (having no curative effect when used alone,) and invalids are earnestly cautioned against wasting the precious time of
