74 Wall Street, New York, Dec. 20th, 1000.
GENTLEMEN: Your note of 15th inst., has been received, saying that I had been benefited by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or nair autourn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagrees abilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that my gray hair could ever be restored to its original except from dyes. I was however, greatly surprised to find after the use of two lottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this among the many obligations I owe to

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood: Dear sir: Having had the misfortune to lose the best portion of my bair, from the effects of the yellow fever in New Orleans in 1851. I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

MOFFAT'S Vegetable Life Medicines.

Vegetable Life Medicines.

A mild yet effectual medicine, composed of the best material known to medical science, for the cleansing of the alimentary canal and relieving the springs and avenues of life of all morbid obstructions and impurities, must be a public blessing and a domestic and individual protection and safeguard, in proportion as it becomes known. Such a medicine the families of the United States have long had in Moffart's Chlebrated Life Phils and Phenix Butters, and the good they have done is inestimable. They have won their high fame and firmly established character by their virtues alone, without the aid of the usual arts of notority or impudent experiment on the faith of the credulous. In all general derangments of the digestive and alimentary functions, as well as in a vest variety of acute and chronic diseases, their effects are prempt and complete as to excite astonishment.
