

BEDFORD INQUIRER.

Public Sale of VALUABLE REAL ESTATE.

In pursuance of an order of the Orphans' Court of Bedford County, there will be sold at public sale on the premises, on

TUESDAY, THE 24TH OF APRIL, NEXT.

the following described Real Estate, to wit: 270 Acres, 91 perches, more or less, of choice limestone land, situated in Coleman Township, Bedford County, Pa., and well known as the "Frederick Smith Farm." About 200 acres are cleared and under good fence, and in a fine state of cultivation, part thereof in mow. There are also 20 orchards of choice fruit upon the premises. A fine stream of excellent water flows through the property. The improvements consist, in part, of a good two and a half story Log House, and Tenant House, a new Barn, 110 feet in length, by 50 in width, constructed in the latest style, with sundry other out-buildings. This Farm is situated in that fertile Valley, known as "Friend's Cove," within 5 miles of Bedford and about the same distance from the termination of the "Bedford Railroad." It is also in a pleasant neighborhood, convenient to good schools, and within 21 miles of the "Allegheny Male and Female Seminary," at Rainsburg.

There is a fine Church also within sight, and it is surrounded by an intelligent and moral community. This property is in every way a most desirable one, and persons desiring to purchase would do well to examine it before the day of sale.

TERMS.—Will be known on day of sale. Title indisputable. Attendance given by

HENRY F. SMITH,
Geo. W. HOUSEHOLDER,

Executors of Frederick Smith, dec'd.
N. B. Persons wishing to examine this property, or ascertain the particulars more fully, can call upon, or address by letter, Henry F. Smith, Rainsburg, Bedford County, Pa.; Geo. W. Householder, Ray's Hill, Bedford County, Pa.; Mann & Spang, Bedford, Pa.

To Farmers and Gardeners.

THE subscribers offer for sale 60,000 Barrels of FERTILIZER, made by the Lodi Manufacturing Company, in lots to suit purchasers. This article is in the twentieth year of its introduction into this country, and has outlived fertilizers of every other description, for the following reasons:

1st. It is made from the night soil of the City of New York, by the L. M. Co., who have a capital of \$100,000 invested in the business, which is at risk should they make a bad article.

2d. For Corn and Vegetables it is the cheapest, neatest and handiest manure in the world; it can be placed in direct contact with the seed, forces and ripens vegetation two weeks earlier, prevents the cut worm, doubles the crop, and is without disagreeable odor. Three dollars worth of two barrels is all sufficient to manure an acre of corn in the hill.

3d. For Potatoes, 2 bbls. \$3.50—5 bbls. \$8, and over 5 bbls. \$1.50 per barrel, delivered free of cartage, to vessels or railroad in New York City.

A pamphlet containing every information, and certificates from farmers all over the United States, who have used it from two to seventeen years, will be sent free to any one applying for the same.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid action of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by wet settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may be attributed to derangement of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; but why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the Bitters of this great preparation in the scale of medicinal science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow of his former self, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S STOMACH BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions on the bottle. They are not only necessary to the cure of the disease, but they also prevent its return, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.
