I was however, greatly surprised to find after the use of two botthes only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nau-sea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have account.

Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may ways be attributed to derangements of the digestice organs, can be cured without and by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every directions on the bottle. For this disease every physician will recommend Bitters of some kind; hen why not use an article known to be infallible? All nations have their Bitters, as a pre-ventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation ema-

nated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him play. dow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need

infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

A most Disgraceful Appointment.

President Buchanan has appointed Calhoun Benham, United States District Attorney for California. Benham, it will be recollected, was the principal second in the duel which resulted in the death of the lamented Broderick. Can it be that this appointment has been given as a reward for the part he took in that bloody tragedy, which deprived the country of the Ecryices of an houses representative, and afarseeing statesman? In any light in which it can be viewed, it adds another to the disgrace. one who had been participant in all my past joys ful acts of which the President stands charged by his countrymen. This is usually but a mere form, delicately done, courteously suffered. The second of Broderick barely touched the breast of the Judge, then bowed and withdrew. Alleged Land Frauds.

The Washington correspondent of the New Orleans Bulletin writes to that paper as fol-

"Let me give you one instance how land frauds can be and are practised. Congress gave a quarter section (160 acres) to each soldier or volunteer who actually served in the unteer corps actually in service. A bill was subsequently introduced and passed authorizing verbal testimony of service, as it was assured many pleasant faces. But alas! the dear one I so much desired to gaze upon, was not present.

We walked back and forth; saw with which is to punish the offending and to keep a vigilant eye upon the disorderly, to the end that peace and quiet and sobriety may reign—this puzzles the brain.

We walked back and forth; saw with which is to punish the offending and to keep a vigilant eye upon the disorderly, to the one, regulars and volunteers, were at the battle of Plattsburg when sir John Provost and the British army were repulsed in September 1. tember, 1814, all the real survivors of which, whose names were on the rolls, of course received their 160 acres each, but under the law authorizing oral testimony, the Land Office has actually issued twenty-seven thousand land warrants to the survivors, every mother's son of whom has proved in the most satisfactory manner that he was at this battle. Twentyseven thousand survivors of eight thousand men after an interval of more than forty years! The fact has been stated to me personally by the present Secretary of the Interi-

Protection to Monongahela Whiskey.

The levity with which Locofoco leaders treat questions in which the very bread of the working-man is concerned, shows their reckless disregard of the interests of those whom they have so long deluded with the name of Democ racy, and professions of friendship for the poor, and hatred of the rich.

When a delegate from Pennsylvania, in the Charleston Convention, thought to make a little capital for his party in this State, by getting something that would look like a desire to protect home industry, into their platform, he was laughed to scorn, and Mr. Rynders, one of Mr. Buchanan's officeholders, from New York, with a horse-laugh, proposed to insert Protection to

Monongahela Whiskey.
What grosser insult could be offered to men who only ask that their industry may be protected from competition with the pauperized labor of Europe, than is apparent in this proposition? So far are these political managers from taking such a matter into deliberate consideration that they are unwilling to treat it with the least respect, and they ridicule this proposition as if it were a thing in which they had the least concern. How long will there be found voters willing to be lead by such insolent hypocrites ?- Daily News.
