SAVANNAH, Nov. 23 .- It has been rumored fer several days, but generally discredited, that six free negro seamen were foreibly taken on the night of the 17th inst., from the bark M. W. Bridge off Cumberland island, and not afterwards heard of. Also, that three negro sailors, a portion of the crew of the brig Wingold were taken from Fernandina jail and removed to parts unknown.

The Fernandina East Fioridian of the 21st inst. asserts the truthfulness of the reports, but attributes the cause to retaliatory measures against the North, and condemns the proceed-

Judge Putnam, in his charge to the Grand Jury, denounced these acts. The Editor of the Floridian says that it is probable that the Legislature will pass an act preventing North-ern vessels from bringing such crews to Florida ports.

REMEMBER, Strumous or Scrofulous affections are the curse, the blight of mankind. They are vile and filthy, as well as fatal .-They arise from impurity and contamination of the blood, and are to be seen all around ue, everywhere. ERUPTIONS, SALT RHEUM, ERTSIPELAS.

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use washes or cintments for them is a sure way to injure the system, and only to drive in, not to cure the disease. But HUMPILERYS' SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the Face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and by restoring the skin to the state of health and purity.—Thus, not only is the disease cured, but the softures and beauty of the complexion restored.

and Everywhere.

This is a most perfect preparation, and seldom fails to de good. It is harrless in its effects tut powerful to relieve Pain. If you use it once you will not likely be without it again. You will find it a constant household friend, giving ease and relief just when needed. Keep it constantly on hand and it will save you many hours of pain and suffering. There is hardly a pain it will not ease.—
There is hardly an accident that will occur where it will not be useful.

Should one of your family get burned or scalded cover the burned part with a cloth of several thicknesses wet with the "Master of Pain," and keep the cloth saturated with it. In a short time it will draw all the fire out. It will cause a prickling sensation—this is the fire coming out. Keep it wet with the "Master of Pain," until the pain and prickling ceases. Let the wet cloth stay on for six or eight hours, after which apply some healing ointment or sweet oil. In nearly all cases of Pain or Soreness of the Chest, Throat, Side, Back, Spine, Limbs or Joints, it will give relief.—Rub it on freely with the hand or with a flunc!

of Pain or Soreness of the Chest, Throat, Side, Back, Spine, Limbs or Joints, it will give relief.—Rub it on freely with the hand or with a flamel cloth until the skin becomes heated and burning.

For soreness of the throat rub it on until it produces a little soreness.

For Croup use it in connection with the Cough Syrap, by rubbing it on the chest.

For Rheumatism and all deep seated pains, if the pain is not speedily removed by rubbing with the hand, lay a cloth wet with the liquid over the pait affected, and pass a warm smoothing iron over it. For Pains in the Breast, Side or Back, the same

may be done.

For Tooth-ache, drop it on cotton, and apply it to the nerve of the tooth, also rub the gums and

to the nerve of the tooth, also rub the guns and cheeks with it.

For Frosted Feet, apply the "Master of Pain" freely, and dry it in before the fire.

For Head-ache rub it on the forehead.

It is called "Master of Pain." I did not give it this name—I don't like the name. When I first commenced making it it was without name or label. I made it and sold it by the ounce at my Drug Store. I had no idea then of making a business of it. Some who bought it called it Master of Pain, and by this name it became known for many miles round. And finally, when I had a label printed I wes compelled to adopt the name, for by that name it was known. After all, the uame is not so very inappropriate. It is used to alleviste or remove pain. It is put on wherever there is pain. Sometimes it will cause pain, but the result always is freedom from pain.

Always is freedom from pain.

Reader—try it—take a bottle with you—use it whenever occasion requires—give it a fair trial.

Executor,

Mr. Aughinburgh from your state happened to be present and said it was one of the best cough remedies in use and happening to need a caugh medicine in my family I determined to give it a trial, and so well pleased was I with its effects that I gave bottles of it to my friends all of whom agree with me in pronouncing it the best cough remedy they have ever met with. We have used it for Coughs, Calda, Croup and Whooping Cough, and in every case it gave the most signal relief.— Yours truly,

Serefula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this finid becomes vitiated, weak, and poor. Being in the circulation, it percals the whole body, and may burst out in decase on any part of it. No organ is free from its a tacks, nor is there one which it may not destroy. The scrofuloas taint is variously caused by mere unal disease, low living, disordered or unhealthy food, impure air, filth and disthy habits, the degressing vices, and, above all, by the venercal infection. Whatever le its origin, it is heriditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Hum who says, "I will visit the iniquities of the fathers upon theig children."

Its effects commence by deposition from the blood of corrupt or electrons matter, which, in the blood, liver, and internal organs, is termed toncedes; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of hie, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, yest numbers perish by disorders stand the attacks of other diseases; consequently, vathough not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, at a made of, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infaction, and their health is undermined by it. To clear so it from the system we must removate

It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the Georder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula but also those other affections which arise from it, such as Eruptiva and Sain Diseases, Sr. Anthony's Fire, Rose, or Empletas, Phylips, Puytles, Budgers, or Empletas, Phylips, Puytles, Budgers, Brains and Boils, Tumors, Tettar and Sain Kinem, Scald Head, Ringworm, Hinematism, Symphilitic and Mercurata Diseases, Deorsy, Dyspersia, Debility, and, indeed, all Complaints arising from Vitation of Impure Buoon. The popular belief is, "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. THE TRIBUNE FOR 1860.

PROSPECTUS.

THE XXth Volume of the Weekly Tamen's commenced with the issue of Sept. 1. During the past year The Tribune has been obliged to devote quite a large proportion of its space to Politics, but we shall soon be able to forego Political discussions almost entirely, for months if not for years, and devote nearly all our columns to subjects of less intense, but more abiding, interest.—Among these, we mean to pay especial attention to.

Jects of less Intense, but more abiding, lutrest.—
Among taese, we mean to pay especial attention to.

I. Education.—The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of The Tairene in its behalf during the year 1861.

II. Agarculture.—We have been compelled to restrict our clucidations of this great interest throughout 1860, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, demonstration, is calculated to render the reward of laber devoted to cultivation more ample or more certain, shall receive prompt and full attention.

III. Manufactures, ic.—We hail every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more cen venient, more remunerating markers to the Farmer, with fuller employment and better wages to the Laborer. The progress of Mining, Iron. Making, Steel-Making, Cloth-Weaving, &c., &c., in our country and the world, shall be watched and reported by us with an earnest and active sympathy.

IV. Foreigs Affairs.—We employ the best correspondents in London, Paris, Turin, Berlin, and other European Capitals, to transmit us early and accurate advices of the great charges there silently but certainly prepuring. In spite of the pressure of Domestic Politics, our News from the Old World is now varied and ample, but we shall have to render it more perfect during the eventful year just before us.

V. Home News—We employ regular paid correspondents in Calliornia, at the Isthmus of Darien, in the Rocky Mountain Gold Region, and wherever else they seem requisite. From the more accessible portions of our own secuntry, we

en, in the Rocky Mountain Gold Region, and wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious correspondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of useful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous co-operation of our many well-wishers, we solicit, and shall labor to deserve, a continuance of public favor: a continuance of public favor:
