I at once made application to the most skillful I at once made application to the most skillful physicians in the country, but receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable. Ayer's Sarsaparilla

A compound remedy, in which we have abored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to care. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that ene which will accomplish their cure must prove of immense service to this large class of our affit eted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Screenta and Screenting Complaints:

iment on many of the worst cases to be found of the following complaints:—
Scropula and Scropulous Complaints, Eruptions and Eruptive Diseases, Ulcrais, Proples, Blottenes, Temors, Salt Ruber, Scald Hand, Syberlies and Syberliant Appetions, Minerical Disease, Deorst, Nigralate Tie Doclourery, Deblite, Despressa and Indicession, Erraipelas, Ross on St. Anthony's Free, and indeed the whole class of complaints arising from Impurity of the Blood.

class of complaints arising from Laputary or the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expuision of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous soies, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Somer or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsagarilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any this gelse.

During late years the public have been mis-

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been fauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this ecompound Sarsaparilla, and intend to supply such a remody as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the cemedy should be judiciously taken according to directions on the bottle.
