Meeting of the Bedford Bible Society.

At a meeting of the Society, Sunday evening, in the Presbyterian church, the Rev. Dr. Brown, of Gannonsburg, opened the proceedings with a fervent and eloquent prayer in behalf of the society, its interest and the spread of the Gospel generally. An appropriate hymn being then sung by the choir, the President of the Society, Rev. John Lyon, made a statement of affairs of the association, which being partly based upon the Treasurer's report, exhibited a very fair and encouraging record. The people who have met its managers in a liberal spirit can rest assured that their donations have been applied to good and useful purposes.—"bread cast upon the waters."

The society was then ably and eloquently addressed by Rev. Mr. Kepler, of Bedford, and Rev. Mr. Torrence, of Philadelphia.

A new and unusual interest appears to be felt in this society. Its object is to spread and circulate the Bible. And it is this only that contrasts the spread and circulation of crime. Its spirit may quell the fanatics of our land and restore peace.—No wonder an interest is felt in the Bible. After a benediction from Rev. Mr. Phelps, the society adjourned.

The law just passed by Congress, giving to the President power to close certain ports, presents a new question to European diplomats. This government does not admit that it has blocked the ports of the south, or that it is now blocking those ports. It closed the ports in the absence of Congress because the laws of the United States could not be executed in them and Mr. Lincoln to-day takes the ground that, without a solitary vessel at Charleston, the English government would be guilty of a violation of the law of nations if she attempted to carry on trade with that port. The Secretary of the Navy will use all the naval forces in his command to see that the law of Congress is executed but he does not consider it blocking those ports, but an embargo, and the government will consider any foreign vessel a lawful prize at any place, wherever and whenever found if it has at any time entered one of our closed ports after due notice thereof.

AGES OF THE GENERALS.—Lieutenant-General Scott is seventy-five; Gen. Wool is seventy-three; Harney, sixty-five, Mansfield, sixty; Totten (head of the Engineer Corps), eighty; Craig (head of the Ordnance), seventy; Sumner, sixty-five; Lane, (Pay-master General), Churchill, Inspector Gen., and Thomas, Adjutant Gen., are all old men, having entered the army in the beginning of the present century.—Gibson is 1807, and Churchill in 1812. Gen. McClellan is not yet 35. Gen. Fremont is under 44; General Lyon is about 44; Gen. Banks is 44, and Gen. McDowell is about forty.

RHEUMATISM can be permanently cured by "Dr. Leland's Anti Rheumatic Band." See advertisement of "Great Cure" in another column.

NOTICE.

HAVING debts of our own to pay, we respectfully call upon all persons knowing themselves to be in our debt, to pay up.

This notice is not intended for those of our friends who pay us promptly, but especially for a certain large class, who have purchased our goods, never trouble themselves about paying for the same.

Many of the latter having had the use of our capital so long, must really imagine they have a better right to it than ourselves.

To this we now say, in language which we hope they will not misunderstand—we want at least a portion of means in their hands—to meet our own liabilities—and if kind invitations to "pay up" avail not—we will try a harsher though unpleasant remedy—and that very shortly.

BEDFORD CLASSICAL INSTITUTE.

THE 3d school year of this Institution will open on Monday, Sept. 24, 1861. Miss E. D. Ward will act as Assistant in English and as sole instructor in Latin, French, German, Drawing and Painting. Experience has convinced the Principal, that there is no thorough and masterly education even for the English scholar, without a drill in *outline drawing* (to which the first principles of the Perspective will be added.) How can the Diagrams of Geography, Natural Philosophy, Botany, &c., be thrown accurately upon the board, without previous training in Outlines? This exercise is invaluable, too, by impressing upon the mind a habit of precision and of the perception of proportion in all things. In the schools of Prussia the child is drilled in drawing from the moment it can hold a pen, and Horace Mann says, it is this early drill, which imparts that skill and accuracy of hand, which render the penmanship of the Prussian child, a model of legibility and elegance. In order to bring this invaluable accomplishment within reach of all; the Principal has resolved to charge but \$2, instead of \$3 or \$10, per quarter, as is usual where it is taught as an extra. Every member of the school will be required to pursue the study from 15 to 20 minutes every day.

The Principal would also desire to form the school, who have studied English Grammar, into a class in French at \$2 per Quarter. But this study is not made pre-emptory. It will however afford a most rare opportunity of pursuing, under an instructor who has studied French in Paris, and who is otherwise an accomplished scholar, a branch, whose usual cost is \$8 or \$10 per quarter.

No pupil will be received for less than one school year. Those who reflect, will doubtless appreciate the reasonableness and equity of this rule. Deduction will be made only in case of prolonged illness, or absence from school, for which the new School House is ready for the reception of the school, it will convene for a few weeks in the basement of the Lutheran Church, which is central for all.

TERMS

English Branches,	\$5	per quarter.
and Classics,	\$7.50	
Drawing, (Permpory)	\$1	
French,	\$2	

Miss Ward will take private classes, out of school hours, in the following extras at prices, viz:

Drawing,	\$5.00	each, per quarter.
French,		
German,		
Gray Drawing,	\$5.00	for 12 lessons.
Grecian and Painting,	\$10	per quarter.

THE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR RESTORING THE BALD AND GRAY.

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless way.

Read the following:

Bath, Maine, April 18th, 1859.

Prof. O. J. Wood & Co.: Gents.—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are first, is it a fact of my habitation and name, as stated in the communication; second, it is true of all those on whom I have used it; third, does my hair still continue to be in good order and of natural color? To all I can and answer invariably yes.—My hair is even better than in any stage of my life for 40 years past, more so, thirty, and better colored than the same in any of my whiskers, and only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when it was used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has no doubt been basely imitated and cheaply used, without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old, and not a grey hair on my head or on my face; and to prove the fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful; I gave it to my friends, and induced them to try it, and purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many. I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which cures the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who require me of my unshaken opinion of its valuable results. I remain, Dear Sir, your truly,
