It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical would, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the un-Urine, or any general derangement of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if all ready stacked, And as it acts directly and

As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary nabits, students, ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist without health, and health cannot exist without health, and health cannot the continue.

weak, and poor. Being in the circulation, it pervads the whole body, and may burst out in disease on any part of it. No organ is free from its a tacks, nor is there one which it may trom its a tacks, nor is there one which it may not destroy. The scrofulous taint is variously cansed by mercurial disease, low living, disordered or unhealthy food, impure air, filth and nithy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children note the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children."
Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the giands, swellings; and on the surface, comptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, year unwhers perish by disorders. quently, vast numbers perish by disorders which, although not serofulous in their nature, are still rend red feat by this taint in the system. Most of the consumption which decimates the human family has its origin directly cimates inc numer laminy has its origin directly in this serotulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

FOR ALL THE FURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once sessimple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costitioness, Hearthurn, Headache orising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Boxels, Fluttuency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
