

BEDFORD INQUIRER.

Cairo, Thursday, Dec. 6, 1861.

A BATTLE IN EAST TENNESSEE.

PARSON BROWNLOW IN THE FIELD.

A special dispatch in the Memphis papers of the 2d, gives an account of a great battle at Morristown, East Tennessee, between the Union forces under Parson Brownlow, and the Rebels, which was fought December 1, in which the Parson's forces were victorious. The Rebel dispatch calls it the "first Union victory of the war." Brownlow had 3,000 men. The Rebel force was not ascertained. The rout of the Rebels was total.

The Memphis *Avant-courier*, of the 31, contains the following:

"A large body of Unionists attacked the Confederate forces at Morristown, East Tennessee, yesterday, killing a large number, and completely routing them."

Major-General G. Crittenden has arrived at Knoxville, to take command of the Confederate forces."

COMMODORE CHARLES WILKES

The New York Commercial Advertiser publishes the following congratulatory letter, sent to Captain CHARLES WILKES, of the San Jacinto, by the Secretary of the Navy:

Navy Department, Nov. 30, 1861.

Captain Charles Wilkes, Commanding U. S. Ship San Jacinto, Boston.

Dear Sir: I congratulate you on your safe arrival, and especially do I congratulate you on the great public service you have rendered in the capture of the rebel commissioners, Messrs. Mason and Slidell, who have been conspicuously in the conspiracy to dissolve the Union, and it is well known that, when seized by you, they were on a mission hostile to the Government and the country.

Your conduct in seizing these public enemies was marked by intelligence, ability, decision, and firmness, and has the emphatic approval of this Department.

It is not necessary that I should in this communication—which is intended to be one of congratulation to yourself, officers, and crew—express an opinion on the course pursued in omitting to capture the vessel which had these public enemies on board, further than to say that the forbearance exercised in this instance must not be permitted to constitute a precedent hereafter for infractions of neutral obligations.

I am, respectfully, your obedient servant,
GIDEON WELLS.

ALL HAIL! NEW YORK.

NEW YORK—the city of New York—has a Republican Mayor. The reign of FERNANDO WOOD is ended, and the people have chosen for their Chief Magistrate, an honest man. At the election held on Tuesday last, GEORGE OPDYKE, the Republican candidate, received 25,584 votes, O. Godfrey Gunther, Tammany Democrat, received 24,813 votes, and FERNANDO WOOD, the Democratic Mayor of several years standing, received 24,174 votes. A close tri-angular contest, and another proof of the devotion of democrats to their party's candidate, without regard to the honesty or any other qualification of the man. 24,174 Democrats in New York vote for a man like FERNANDO WOOD! But his reign is ended, WOOD, the Mayor, is no more. New York is saved. All hail! to her chief.

SOUTHERN ITEMS.

The following items are from the Memphis papers of the 2d:

Gen. Trevesant has a long communication in the Memphis *Appeal* showing the insufficiency of the rebel defenses at and above Memphis. He says that Columbus once lost, the Unionists would have no trouble in marching directly to Memphis, and that Memphis is entirely defenseless and indefensible. He calls upon every male citizen of the State to enroll, and threatens all who do not with death.

The rebels are sending their cotton to Northern Alabama for safety. Coffee is quoted at \$1 per pound in Memphis, and none to be had; Bacon 60c, and other provisions in proportion.

In Kentucky and Missouri, bogus Legislatures have been convened in corners of the States covered by the Rebel flag and have gone "through the fashion" of seceding from the Union, in defiance of the known and undoubted will and wish of the people of each of those States.

The total wheat crop of Ohio for the past year is estimated at 23,040,356 bushels, an increase of 10,254,510 over the previous year. The corn crop for the same time is 91,488,704 bushels, an increase of 22,291,361 over the previous year.

When Byron crossed the sea he sang: "My native land, good night." When Mason and Slidell attempted to cross they woke up one morning and made salutation, "My native land, good morning."—*Louisville Journal*.

In Tennessee the process of drafting soldiers was commenced in the week of November—many fled to avoid this conscription, some of them seeking refuge among the loyal men of the eastern portion of the State.

Ladislaus Ujhazy, the famous Hungarian exile who under Koszuth's rule was Governor of Comorra, has been appointed U. S. Consul at Ancona. He has been for twelve years a citizen of Texas, whence he has been driven for his Union sentiments.

The Wheeling Intelligencer says there is a prospect in Northwestern Missouri who offers a premium for enough Yankee scalps to make a bedquilt. Perhaps she would like to have a whole Yankee as a comforter. Shouldn't wonder!

If the "Confeds" want to wake up about 50,000 live Irishmen in the North, every man of whom will be a hero worthy of the gallant 69th, let them hang Col. Corcoran. It will be the costliest hanging the rebels ever indulged in.

There is evidently prevailing all branches of the government a far more cheerful feeling concerning a successful result of the present conflict than heretofore, and this is exhibited in conversations and otherwise.

The London News states that a considerable portion of Ireland is again threatened with famine, and in the North, the failure of the potatoes is more general and complete than in any previous year since 1846.

Hon. R. J. Walker publishes in a Washington paper an appeal for Congress to make an appropriation for the relief of the suffering millions in Ireland.

HORRORS OF BULL RUN AT RICHMOND.

Written for the Montreal *Witness* by an ex-Editor, who has spent several years in the Southern States in the same vocation.

The battle of Manassas, or Bull Run, as it is somewhat pointedly styled by the Northerners, was a sad victory to the people of Richmond. In proportion there were many more citizens of Richmond present on the battle-field than of any other city of the South, and the loss of the Southern army was very much greater than was supposed at the North. I have heard Beauregard declare his belief that three or four Southerners fell to every Northern soldier. Be this as it may, Richmond, after the battle, was veiled in mourning. It seemed as if the entire city were a family that had lost a friend or relative; many had lost their heads and every male member of their once loving domestic circle. Manassas was a hardly gained victory, though its moral effects were great; but it was a victory that spread mourning and desolation over the land, for hundreds of the most beloved and cherished amongst the youth of the South fell on that fatal day.

The New Orleans *Crescent* expresses the opinion which is apparently general in the South, when it says: "We shall never achieve our independence of the North by foreign aid. Nor ought we to expect it. Our own strong arms and unquenchable hearts must accomplish that object. We have no other safe, earthly reliance. Of course, we would be delighted if John Bull would take it into his head to make the insolent offer his flag a pretext for inflicting condign punishment upon Lincoln's ocean hordes. But John will not do anything of the sort, unless he is forced to it, or sees that he can make a great deal of money by it. Just now the cotton famine in Manchester, &c., is becoming oppressive, and in a few weeks will become terrible. The long manufacturing pole may stir up the old fellow to do a good act once in his life. We shall see."

The Democratic Return Judges of Luzerne county, by a bare majority in a strict party vote, rejected and refused to count the whole Army Vote as returned to them by the Democratic Prothonotary, (alleging informality, but really) to gain a few officers, which the Courts, &c., will make all right at last.) Such is modern Democracy—trying to excite party strife by boasting that the Volunteers were in general Democrats, and then disfranchising them of their votes because they prove to be mostly Republicans. Those false judges "catch it sweetly" on all sides, and the day will come when their own children will be ashamed of them!

A member of the Arkansas Legislature, accompanied by some thirty or forty companions, has escaped from that State and joined the Union forces under Colonel Phelps. A strong feeling of loyalty still exists in the northern portion of Arkansas, and if a Union army enters into the State many of its citizens would doubtless gladly rally round its standard.

Charles R. Coburn, School Superintendent of Bradford county, while attending the Convention at Harrisburg last week had his pocket picked of \$250.

Some young men in Wilkes-Barre were rehearsing Shakerism, when one fired a musket (not knowing it was loaded) which instantly killed John H. Doak.

Have you read the advertisement respecting "Dr. Leland's Anti-Rheumatic Band." In another column. According to the report of those who have tried it—and who have been cured of the most violent attacks of Rheumatism by it—there is no remedy so equal to this in cases of Rheumatism, and having no reason to doubt the statements we have heard in favor of the "Band," we cordially recommend its use to those who are afflicted with this disease. Be sure and read the advertisement most carefully. 229 Im

Reader have you seen Prof. Wood's advertisement in our paper. Read it; it will interest you.

CASH TERMS.

On account of the hardness of the times and the pressing demands for cash upon us, we have determined to come as near to cash terms as possible. Hereafter we must have the cash for all Orphans' Court printing; Auditor's Notices, Estrays, &c.; also all Prothonotary's printing, occasional advertisements and handbills. All new subscribers are also expected to pay their subscriptions in advance. We do not think Executors, Administrators, and Auditors have need to complain at this change of terms. They can almost at any time raise the few dollars that will require to pay the printer's bills. It will save both to them, and of immense benefit to us. Old Quarters taken at par on all kinds of accounts.

DIED.

Near Schellburg, on the 25th ult., HANNA HULL, in the 17th year of her age.

In Pleasantville, Oct. 6th, MRS. HESTER SHAWLES, aged 35 years, 7 months, and 16 days.

On the 19th of Nov. 1861, JOHN WESLEY, son of David and Mary Stiver, of Bedford Township, was born January 24th, 1847, and was therefore not quite fifteen years old, when called away from earth by the stroke of death. Many interesting traits of character had already exhibited their embryonic forms in the brief history of this lovely boy, and the fond parents, as well as numerous friends, had watched these budding buds of hope with the deepest solicitude and interest, and had looked forward to their beautiful expansions in coming manhood, with the most cheering anticipations. But alas! this bud of promise has, in the mysterious, yet ever gracious, providence of God, failed of expansion, at least on earth. And yet, it blooms still, not indeed in the domestic enclosure, but in the Eden above, where it shall blossom and flourish forever.

A Father's hand is in this bow,
His love illumines our night;
And though a stream has ceased to flow,
The fountain's still in sight.

S. K.

On the 19th inst., MR. DANIEL ZIMMER, aged 82 years and 18 days.

In the death of Daniel, son of Anthony Zimmer, the community has lost one of its most excellent citizens—the church a most worthy and exemplary member—the wife, an affectionate and devoted partner—the father, a tender and loving parent—and the parents, an obedient son. The deceased was a young man of singular worth and integrity. His Christian character commenced in youth, was beautifully developed and made perfect through the sufferings of his closing life. His end was that of great peace. He leaves a wife and child, besides a large circle of relatives to mourn his departure. "Sweet be thy sleep, dear brother, till the morning dawn and the shadows flee away."

SHRINERS' MASTER OF PAIN.

THE GREAT EXTERNAL REMEDY,
For Sprains and Bruises, Burns and Scalds, Rheumatic and Neuralgic Pains, Swellings, Stiff Joints, Paralysis, or Numbness of the Limbs, Pains in the Breast, Side or Back; Sore Throat, Tooth-Ache, Frosted Feet, &c., &c., and for the Relief of Pain Anywhere and Everywhere.

This is a most perfect preparation, and seldom fails to do good. It is harmless in its effects but powerful to relieve Pain. If you use it once you will not likely be without it again. You will find it a constant household friend, giving ease and relief just when needed. Keep it constantly on hand and it will save you many hours of pain and suffering. There is hardly a pain it will not ease. There is hardly an accident that will occur where it will not be useful.

Should one of your family get burned or scalded, cover the burned part with a cloth of several thicknesses wet with the "Master of Pain," and keep the cloth saturated with it. In a short time it will draw all the fire out. It will cause a pricking sensation—this is the fire coming out. Keep it wet with the "Master of Pain" until the pain and pricking ceases. Let the wet cloth stay on for six or eight hours, after which apply some healing ointment or sweet oil. In nearly all cases of Pain or Soreness of the Chest, Throat, Side, Back, Spine, Limbs or Joints, it will give relief.—Rub it on freely with the hand or with a flannel cloth until the skin becomes heated and burning. For soreness of the throat rub it on until it produces a little soreness.

For Croup use it in connection with the Cough Syrup, by rubbing it on the chest.

For Rheumatism and all deep seated pains, if the pain is not speedily removed by rubbing with the hand, lay a cloth wet with the liquid over the part affected, and pass a warm smoothing iron over it.

For Pains in the Breast, Side or Back, the same may be done.

For Tooth-ache, drop it on cotton, and apply it to the nerve of the tooth, also rub the gums and cheeks with it.

For Frosted Feet, apply the "Master of Pain" freely, and dry it in before the fire.

For Head-ache rub it on the forehead.

It is called "Master of Pain," I did not give it this name—I don't like the name. When I first commenced making it it was without name or label. I made it and sold it by the ounce at my Drug Store. I had no idea then of making a business of it. Some who bought it called it Master of Pain, and by that name it became known for many miles round. And finally, when I had a label printed I was compelled to adopt the name, for by that name it was known. After all, the name is not so very inappropriate. It is used to alleviate or remove pain. It is put on wherever there is pain. Some cases of severe pain, but the result is always freedom from pain.

Reader—try it—take a bottle with you—use it whenever occasion requires—give it a fair trial.

Prepared by W. E. Shriner, Westminister Md. and for sale by H. C. Reamer and Adam Ferguson, Bedford Pa. E. B. Reamer, and Wm. States & Co., Bloody Run; John Nycum & Son, Pleasantville; D. A. T. Black, Rays Hill; N. N. Koons, Willow Grove; J. S. Shell, Shellburg; F. D. Beegle, St. Clairsville.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR

It precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to us as to act in perfect accordance with the laws of nature, and hence with the weakest stomach, and tone up the digestive organs, and slay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetable and those thoroughly combining wonderful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous and fatal diseases. It is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Pain, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if untreated to time, called Female Weakness and Irregularities. Also Liver Derangements or Turpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fevers, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if already fully attacked. And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before starting. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much outdoor exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist without the above irregularities continued. Then again, the Cordial is a perfect Mother's Relief. Take a month or two before the final trial she will pass the dreadful period with perfect ease and safety; there is no mistake about it, try it! As it is all we claim for it—Mothers, try it! And to you we appeal to cheer the illness of those dear ones, and to your daughters before it be too late, but also your sons and husbands, for while the former, from a false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that it is impossible for you they would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 144 market street, St. Louis, Mo., and sold by all good Druggists.—Price One Dollar per Bottle.

Serofia, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofia taint is variously caused by mercurial disease, low living, disordered or unwholesome food, impure air, filth and filthy habits, the depressing virus, and, above all, by the venereal infection. Whatever its origin, it is hereditary in the constitution, descending from parents, to children into the third and fourth generations; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corpuscles of disease matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depraves the energies of life, so that serofia taint is variously manifested, and only cured by serofia taint. The human family has its origin directly in this serofia taint; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause
