GREAT FIRE IN CHARLESTON-A LARGE PORTION OF THE CITY IN ASHES.

FORTRESS MONROE, Dec. 13, via Baltimore. - A flag of truce under command of Captain Milward took Mr. Eddy, of North Carolina, to Craney Island to-day.

From Norfolk we have intelligence of a most disastrous fire at Charleston, S.C. A despatch to the Norfolk Day Book of to-day. from Charleston, states that a fire broke out in that city on Wednesday night, which was supposed to have been the work of an iscendiary. the date of the last despatch, 5 o'clock Thursday afternoon, the fire was still burning. The Round Church, the theatre, the Institute, and other public buildings, are stated to have been destroyed. The fire swept across Broad

Assistance had been sent for from Augusta. The Grand Lodge of the Free and Accepted Masons met at Richmond on Monday and elected Lewis B. Williams, of Orange, Grand

Master for the ensuing year.

NEW YORK, Dec. 14.—The special despatches received here from Old Point say that the fire at Charleston was the work of the ne-

The Baltimore American of Saturday says: Our private advices from Norfolk do not make any mention connecting the slaves with the conflagration, further than that it was supposed to be the work of an incendiary. The fire is said to have originated in a sash factory, near the junction of King and Broad streets; that it crossed Broad street, and to have reached the Institute Hall, the Round Church and the Theatre, on Meeting street, must have passed diagonally across Clifford, Beaufort, Princess, Queen, and Chalmers streets, a distance of nearly a half mile through the very heart of the city. As no mention is made of the destraction of the City Hall, Court House Guard House, and Christ Church, at the four corners of Broad and Meeting streets, is to be presumed they have escaped.

The Mills House, one of the principal hotels of the city, about a half-square from the Round Church, on Meeting, street, is also said to have been burned, together with the Catholic Cathedral, and Asylum, ou Archdale

The fire was said to be still raging on Thursday evening, having continued for fortyeight hours. The theatre, which is said to have been burned, is the extreme point on Meeting street, that we are enabled to locate the extent of the conflagration, and its destruction would necessarily involve several squares of closely-built frame buildings in its rear. From an examination of the map, we think it likely that the Charleston Hotel has escaped, though it is not more than a square beyond the theatre.

There is another statement brought by passengers that the Catholic Cathedral is burnt .-This, if true would extend the fire across King street, a distance of four or five squares west of the Institute Hall and the theatre, and would warrant the rumer that one half of the

city has been destroyed. We learn that the fire was checked on Meeting street before it reached the large building of Adams' Express Company, on the corner of North Market street, though most of the storehouses on the other side of Meeting street were destroyed or damaged.

LATER.

We learn that the passengers by the flag of truce from Norfolk state that the greatest excitement prevailed there on Friday morning, and that a great variety of rumors were affoat as to the origin of the conflagration. It was stated that the eash factory was fired by a free negro, who had been arrested, and confessed that it was intended as the first move for an extended slave insurrection.

It was also rumored at Norfolk that a large number of negroes had been arrested, who had been found in possessism of arms and knives, and that the confession of the incendiary had been fully corroborated. These, however, are were rumors, such as would likely be in circulation under all the circumstances, and may or may not be well founded. The despatch in the Norfolk papers, dated at Charleston, at 6 o'clock on Thursday evening, makes no mention of a service insurrection.

THE LIGHT SEEN AT SEA.

FORTRESS MONROE, Dec. 14, via Baltimore. There has been no flag of truce sent out to-day, and consequently no news from Norfolk has been received, and there are no further particulars of the conflagration at Charles

The steamer Illinois has arrived from Port Royal, and reports that the pilot-boat Richard Blunt, of Norfolk, had arrived there.

BALTIMORE, Dec. 15 .- I learn from the captain of the Old Point boat that he was informed by the captain of the United States transport Illinois, arrived at Fortress Monroe from Port Royal, that he passed within six miles of Charleston harbor at ten o'clock on Thursday night, and that a tremendous conflagration was evidently then at its height in that city. The reflection on 'the clouds exceeded ly illuminated. It did not appear like the reflection from smouldering rules, but from a raging, uncontrollable conflagration. This is five hours later than the date of the Nortolk Day Book despatch.

MASTER OF PAIN.

This is a most perfect preparation, and seldom fails to dogood. It is harmless in its effects but powerful to relieve Pain. If you use it once you will not likely be without it again. You will find it a constant household friend, giving ease and relief just when needed. Keep it constantly on hand and it will save you many hours of pain and suffering. There is hardly a pain it will not ease.—There is hardly an accident that will occur where it will not be useful.

For Frosted Feet, apply the "Master of Pain" reely, and dry it in before the fire.

For Head-ache rub it on the forehead.

It is called "Master of Pain." I did not give it this name—I don't like the name. When I first commenced making it it was without name or label. I made it and sold it by the ounce at my Drug Store. I had no idea then of making a business of it. Some who bought it called it Master of Pain, and by this name it became known for many miles round. And finally, when I had a label prioted I was compelled to adopt the name, for by that name it was known. After all, the name is not so very inappropriate. It is used to alleviate or remove pain. It is put on wherever there is pain. Sometimes it will cause pain, but the result always is freedom from pain. always is freedom from pain.

Reader—try it—take a bottle with you—use it whenever occasion requires—give it a fair trial.

Bath, Maine, April 18th, 1869. Prof so. J. Wood & Co.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair kestorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facts in the case. The enquiries are first, is it a fact of my habitation and annual standing the computation and it. enquiries are first, is it a fact of my habitation and name, as stated in the communication; second, it is true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and answer invariably yes.—My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt been basely imitated and been used, not only without any good effect. well as this, it has, no doubt been basely imitated and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some menths, and yet my bair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I will ask as a favor, that you send me a test by which I can discover fraut in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquite of me of my unshaken opinion of its valuable results. I remain, dear sit, yours,

A. C. RAYMOND. Aarons, Run Ky., Nov. 30, 1858. * Prof. O. J. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bettle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce ricner and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of it. Respectfully yours,

Aver's Sarsaparilla

A compound remedy, in which we bored to produce the most effect as that can be made. It is a concentration bored to produce the most effect as afficiently that can be made. It is a core afford as the other substances of still greater alterative power as to afford an effective autidote for the disease. Sarsaparilla is reputed to care. It is believed that such a remedy is wanted by those who suffer from Stramous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our affiliered fellow estizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Seropella and Schopellous Complaints, Eruptions and Eruptive Disease, Uterra, Property, And Schopellous Complaints, Eruptions, Mercemal Disease, Planty, Neueraldia or Tie Douloureux, Drendry, Dyspersia and Indication, Eryspella, 1988 on St. Anthony's Pire, and indeed the whole class of complaints arising from Imperiors of the Blood.

This compound will be found a great pro-

on Sr. Anthony's Fire, and indeed the whole class of complaints arising from Internet of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, preteuding to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis-

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
