An East Tennessean, writing to the Commercial, says:

"All the credit and honor of this battle is due to the Tenth Indiana and Ninth Ohio, Fourth Kentucky and Second Minnesota Regiments, for they did all the fighting single handed, with the exception of what support they received from the artillery. They all fought nobly, and never wavered from their fixed determination to gain the victory." CAMP PIERPONT, Va. Jan. 23, 1862. Yesterday an election took place in our regiment for Colonel, to fill the vacancy occasioned by the resignation of Col. CHAS. J. BID. The candidates were Lieutenant-Col. T. L. Kane and Capt. Hugh W. McNiel, of Comp any D., and the ballot resulted in the election of the latter.

We are agreeably disappointed in our brother republicans in Mexico. The three great powers are not likely to bave so good a election of the latter.

FROM PORT ROYAL.

By arrival of the steamer transport Atlantic at New York, we have intelligence from Port Royal to the 20th inst. The Atlantic brought a large consignment of Sea Island cotton to collector Barney-the greater portion of it unginned. The most important news by the arrival is the announcement that the second "stone fleet," consisting of fourteen vessels, left on the morning of the 20th for Charleston harbor, with the purpose of obstructing the entrance through Maffit's Channel, by which the steamer Isabel recently entered, after eluding the vigilance of the blockading vessels. The sinking of the vessels was to be done under the direction of Mr. George H. Bradbury, of toe Navy, who had charge of the since the date of our previous advices. The leading men of the South had hoped, my informant says, that the "Confederacy" would be recognized by England immediately after the repulse at Stone Bridge; and that if it were not, the poor and laboring classes of the large free State cities would rise in mob fury and compel peace, as soon as the rigors of

winter were felt. Having been deceived in both these opinions, and seeing the Government more determined than ever to prosecute the war vigorously, they have become disheartened, and now rest their sole hope upon the inactivity of the North for the next two or three months, resulting in the recognition of the Confederacy by all the Powers of Europe.

Several scouts and spies who are now here but who have been in the immediate neighborn hood of Celumbus Kentucky, say that, in conversatton with various Rebel officers, they learned that affairs throughout the South were in the most desperate condition; that the Union feeling was quietly but greatly increasing; that thousands of the poorer classes were dread of starvotion, and that, if the Rebels did not win decided battles in Kentucky and on the Potomac before Spring, that they will the triumph of the pro-slavery arms.

A REAL PATRIOT .- The New York Tribune of Saturday, says that one year ago Edwin M. Stapton was called into the Cabinet of Mr. Buchanan, to fill a vacancy caused by atrocious treason. An old personal friend, but political opponent, wrote him a letter

"DEAR SIR: Your kind letter was received this morning, and I thank you for the confidence and regard it expresses for myself.—You are right in supposing it to be my dethe Constitution under which the United States have been so prosperous. The means ones for this emergency; and so far as it is possible, they will be exerted. I have an un-doubting faith that this Government cannot be overthrown-that it was ordained of God, and that the powers of hell cannot prevail against it. We have trouble; the City of Washington may be captured; but every effort will be made to prevent that catastrophe, and even if it does happen, the revolutionists will be as far as ever from accomplishing the destruction of the Government-but much nearer to their own destruction. So far from being indifferent to your advice, any suggestion of your wisdom and experience will be thankfully recoived. My aim is to perform my duty in the post to which I am called, and shall be happy of any light to guide me in the

time of it as they fancied. The factions in that distracted country have united at the approach of foreign enemies; an army of one bundred and fifty thousand men is set on foot, the soil is to be contested point by point, and the first movement of the Spanish from Vera Cruz has been repulsed, driving them back in confusion. Vera Cruz is almost besieged by guerilla bands.

We do not undertake to say that England, France and Spain cannot conquer Mexico; but it is evident that they are in for a much more serious business than they expected. The Mexicans were counted for almost nothing in their programme. The three powers would march quietly through Mexico and hem in the United States, and then consider what kind of a government they would give to Mexico, and how they would treat with the new Confederate States. Two elements are lett closing of the main channel. No event of out in the calculation-the Mexican people, special importance had occurred at Port Royal and General Lane in Texas, and our fleets in

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilerating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence sooth the weakest stomach, and tone up the digestive organs, and silay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the upguarded system open to the attacks of many
