THE NEW-YORK TRIBUNE.

MRS. S. E. SIGAFOOS, HAS just received from the city, her large slock of rich and bandsome Fall and Whiter Goods, Such With Comparison of the seventh of Septem-ber, 1861, THE NEW-BORK WEEKLY TRIB-UNE commenced the tweaty-first year of its exis-tence: THE DAILY TRIBUNE being some months older and the SEMI-WEEKLY TRIBUNE somewhat younger. For more than i wenty years, this journal has labored in what its conductors have felt journal has labored in what its conductors have left to be the cause of Humanity, Justice and Free-dom, endeavoring to melicrate the condition of the oppresses and unfortunate, to honor and en-courage useful exertion in whatever sphere, and, to promote by all means the noral, intellectual and material advancement of our country. It has aimed to be right rather than popular, and to es-pouse and commend to-day the truth that others may not be willing to accept till to-morrow. In pursuing th is course, mistakes have doubtless been made and Luits committed; but, having in all made and faults committed; but, having in all things incited our readers to think and judge for themselves rather than adopt blindly our own or themselves rather than adopt blindly our own or others' conclusions, we believe we may farily chain for this journal the credit of having qualified its readers to detect and expose even its own errors. To develop the minds of the young by the most reners, therough and practical Education, and to encourage and stimulate Productive industry, through free grants of Public Lands to actual set-ters and califyrators, as also through the protec-tion of immature or peculiarly exposed branches trona too powerful foreign competion, and among the aims to which this journal has adhered through good and evil report, and which it steadfastly com-mends to American patriotism and philanthropy. As to the Civil War new devasting our coun-try, we hold it to have originated in a Rebellion

try, we hold it to have originated in a Rebellior more wanton, wicked, inexcusable, than was even more winton, wickey, nexcussion, than was ever before known-a Rebellion in the interests of the few against the many-a Rebellion designed to raise induce the walls of easte and tighten the chains of oppression. Having done all we could without a surrender of vital principles to avoid this War, and witnessed the forbearance, meek ness, and here sufficiency with visit. The Nederla Concess, and long suffering with which the Federal Governme sought to avert its horrors, we hold it our char duty, with that of every other citizen, to stant by the nation and its fidry chosen rulers, and to second with all our energies their efforts to upheld the Union, the Constitution, and the supremacy of the Laws. And, though the Rebellion has become, through usurpation, deception, terrorism, and spediation, featrilly strong, we believe the Ameri-can Repu' lie far stronger, and that the unanimous, earnest efforts of loyal hearts and hands with insure its overthrow. But on all questions adacting the objects, the scope, and duration of this most sex-traordinary contest, we defer to those whom the American People have clothed with authority, holding unity of purpose and of action 'misspen-sable in so grave an emergency. In a crisis like the present, our columns must be largely engrossed with the current history of the War for the Union, and with elucidations of its more striking incidents. We shall not, however, the Laws. And, though the Rebellion has been

more striking incidents. We shall not, however, result that attention to Literature, to Foreign Af-fairs, to Agricultural Progress, to Crops, Markets, &c., &c., which has already, we trust, won for THE TRIBUNE an honorable position almorg its cotemporaries. Our main object is and shall be to produce a comprehensive newspaper, from which a careful reader may gain a vivid and faithful histo-ry of the times, not merely in the domaine of Ac-tion but in that of Opinien also. As our facili-lles for acquiring information increase with years, we trust that an increment in the contained of we trust that an improvement in the contents of our journal is perceptible, and that, in the variet and fulness of intelligence afforded, we may hope to "make each day a critic on the last." In this hope, we solicit a continuance of the generous measure of patronage hitherto accorded to our ournal.

Aver's Sarsaparilla

THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which foster in the moter of neutrit, when taken in the spring, to expel the foul humors which faster in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous seres, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world-has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, protending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

contain but little of the virtue of Sarsaparilla, or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly desnised, and has become name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has vittues which are irresistible lieving it has virtues which are irresistible by the ordinary run of the discussion by the ordinary run of the discusses it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Scrofula, or King's Evil,

SCICILIA, OF KING'S LVII, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrotulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure ait, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed. it seems to be the rod of Him who says, "I

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it.
