GEN. BURNSIDE'S REPORT. HEADQUARTERS DEPARTMENT OF NORTH CAROLINA, ROANOKE ISLAND, Feb. 10, 1862. To Maj.-Gen. GEO. B. McCLELLAN, command-

ing United States Army, Washington: GENERAL: I have the honor to report that a combined attack upon this island was commenced on the morning of the 7th by the naval and military forces of this expedition, which has resulted in the capture of 6 forts, 40 guns, over 2,000 prisoners, and upward of 3.000 small arms.

Among the prisoners are Col. Shaw, commander of the island, and O. Jennings Wise, commander of the Wise Legion. The latter was mortally wounded, and has since died. The whole work was finished on the afternoon of the 8th inst. after a hard day's fighting, by a brilliant charge in the center of the island, and a rapid pursuit of the enemy to the north end of the island, resulting in the capture of the prisoners mentioned above.

We have had no time to scuet them, but

the number is estimated at near 3.000. Our men fought bravely, and have endured

anost mantulis the hardships incident to fighting through awamps and dense thickets.

It is impossible to give the details of the engagement, or to mention meritorious efficers and men, in the short time allowed for writing

It is enough to say that the officers and men of both arms of the service have fought gallantly, and the plans agreed upon before leaving Hatteras were carried out.

A SPY CAGED.

The Secretary of War has arrested Dr. Ives, chief correspondent of the New York Herald, as a spy. The Secretary publishes the charges against him in full, under his own name. It appears that this Ives is a native of a rebel State, and has a brother in the rebel army, who was formally in the military serthe United States. He was sent to Fort McHenry. The Secretary of War states that in order for his arrest that

Watson, of the hostility of the New York Herald against the Administration of the War Department, unless he was affirded special privileges and furnished intolligence by the Department in respect to Cabinet consultagious, telegrams, official communications, and all news, the moment it was received by the Department, in advance of all other papers."

"For these reasons the aforesaid Ives has been arrested and imprisoned, and all persons so offending will be dealt with in like man-

BLOOD RENOVATO

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhiberating, and strengthening to the vital powers. It also reviviles, renestates and renews the blood mall its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever-offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence sooth the weakest stomach, and tone up the digestive organs, and ellay all nervous and other irritation. It is also perfectly exhibitating in its effects, and yet it is never followed by lassitude or depression of spirits. It is compused entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical cal world, both by the thoroughly skilled in medical science, and also by a. Who have suffered from deblity; for it needs no medical cal world, both by the thoroughly skilled in medical science, and also by a who have suffered from debility; for it needs a on medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deliterious consequences following u on change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating. And all hadies not accustomed to much out door exercise should always use it. J. C. Ayer & Co. Genis: I feel it my duty to acknowledge what your Scrasparilla has done for melaving inherited a Scrofulous infection. I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms, sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At leagth I was rejoined to read in the Gospel Messenger that you had prepared an afterative Sersancials, for I knew from your repundation that any thing you made must be good. I cent to Checimati and got if, and used it till it carred me. I took if, as you advise, in small dose of a tenspoorful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is gone from my system. You can well believe that I feel what I san saying when I tell you, that I hold you to be one of the apposite of the age, and remain ever gratchilly.

Marrow, of Newbury, Ala., writes: "A dangerous overium tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cared by your extract of Sarsaparilla. Our physician thought nothing but extipation could afford relief, but he advised the trial of your Sarsaparilla as the lest resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remnins."

Syphillis and Mercurial Disease.

Syphilis and Mccurrial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer. Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sursapanilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Fenereal and Mercurial Disease. One of my patients that Syphiliticaleers in his throat, which were consuming his palate and the top of his mouth. Your Sursaparilla, steadily taken, cured him in five weeks. Another was at Jiked by secondary symptoms in his nose, and the uteration had asten away a considerable part of it, so that I believe tin disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilia; the ulcers healed, and he is well again, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by increury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excreasing pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, three truly remarkable results with it have not surprised me.

Aules Y. Getchell, of St. Lonis, writes: "I have been
afflicted for years with an affection of the Liver, which
destroyed my health. Tried every thing, and overy thing
failed to relieve me, and I have been a broken-down man
for some years from no other cause than derangement of
the Liver. My beloved pastor, the Rev. Mr. Espy, advised
me to try your Sarsaparilla, because he said he knew you,
and any thing you made was worth trying. By the bless
ing of God it has cured me, and has so purified my blood
as to make a new man of me. I feel young again. The
best that can be said of you is not half good enough."
