YALE COLLEGE has received or has been promised half a million dollars within a few months, and Governor Buckingham has recently swelled the fund by a gift of twenty-five thousand dollars.

A FEW years ago, to settle an estate, a parcel of timber land in Mount Holly, Vt., was appraised at the value of one hundred dollars. The same land has recently been sold for thirty-three hundred and seventy-five dollars

FFFECTS OF PRIZE FIGHTING. - John C. Heenan is THE EDINBUGH REVIEW (WHIG). still in London. He has fits now, and falls down in the street. He has never been well since he was drugged for the fight with King by the friends of the latter. It is thought he will never recover.

THE NORTH BRITISH REVIEW (PRUM CRUMON).

THE WESTMINSTER REVIEW (LIBERAL).

From present indications there is little doubt that the maple segar erop of 1864 will vastly exceed that made in previous years. In all probability the crop of maple sugar at the North for the present year will reach 25,000,000 pounds, worth, at the low estimate of fifteen cents per pound, \$3,750,000.

New Rolling Mills.—Two new rolling mills are about to be erected in Allentown—both by joint stock companies. One of the companies has a present capital of \$75,000, and is called the "Jordon Manufacturing Company." The other is the "East Pennsylvania Iron Works." Ground has already been broken for both mills and the work companies. ken for both mills and the work commen

A BIG WELL ON THE RIVER.—The Franklin (Pa.) Citizen says: Much excitement has been caused in the past few days concerning the oil lands on the Allegheny river, by the rumor that a Mr. Philips, whas been boring a well somewhere between Oil City and Walnut Bend, on the river, had struck a heavy vain of oil, and that the well was flowing from 700 to 800 bergels nor day. 800 barrels per day. THE TWO-CENT PIECE. -The new two-cent piece

which has been recommended for the sanction of Congress, resembles, as much as anything can, a gold coin. On one side there is a wreath of wheat, in the centre of which is stamped "two cents," and around which are the words "United States of America." On the other side there is the shield of Liberty, bearing the words, "God our Trust."

The Secretary of the Navy has, it is stated, ordered one war vessel to be prepared for the purpose of testing the experiment of substituting petroleum oil for coal. A commission, appointed by the Secretary some months since to examine this subject thoroughly, have so far become satisfied that oil can be used for fuel, at less than half the expense of coal, that they have recommended the Secretary to have the experiment made for sea navigation.

OILY.—When a man discovers an oil-well upon his premises in these days, his fortune is made. Witness these prices recently paid to farmers in Western Pennsylvania: Among the sales recently made are the Parker farm for \$100,000; the Funk farm for \$150,000; the King farm for \$85,000; the Noble & Delamater well and territory for \$300,000; the Egbert for \$200,000. This property is all on Oil Creek, but the excitement is not confined to the creek

A FAMILY BURNED TO DEATH .- On Friday night A FAMILY BURNED TO DEATH.—On Friday night the 15th inst, a fire broke out in a house occupied by a family named McMann, in Tarport, Pa. The parents occupied one room and four children another. The flames spread before the family awoke. On awaking the father attempted to rescue one of the children, but was suffocated before leaving the house, and, with the child, was burned. The mother attempted to arouse the other children, but could not rescue them, and, with them, was suffocated. Thus the whole family of six were burned with the building. rescue them, and, with them, was suffocated. Thus the whole family of six were burned with the building.

THE KANAWHA OIL REGION. -The excitement on the subject of oil in the Kanawha (West Virginia) region is daily increasing. The whole country is crowded with delegates from the North, leases are crowded with delegates from the North, leases are readily sold, and engines and tubing are constantly arriving. Hon. J. B. Blair last week sold his quarter in the mammoth well to the Bergen Oil Company, New Jersey, for \$45,000. Gen. A. S. Gore sold his for the same. Then, Mr. Henderson, the owner of the land on which the well is situated, sold for \$100, 000, including his leases, to a Pennsylvania Company. The most of the supposed oil territory on the land is leased to other parties.—Pittsburg Commercial.

The bed is eighty-eight feet below the surface, where the shaft was sunk, and is six feet in thickness. It is probable that other shafts will find it nearer the surface. There are indications that immense coal hods exist in that locality. A company has been organized to work the mines, and they expect to be bringing coal down the Minnesota River to St. Paul by the 1st of July. The importance of this discovery is very great. The manufacturing interests of Minnesota, which have been kept in the Background for want of this material, will now be rapidly developed.

The Tobacco Crov.—The entire tobacco crop of 1860 in this country was two hundred mllions of pounds; or, more exactly, 199,772,655. Of this the Southern States produced 184,991,706 pounds—avery near approximate to the whole, as it leaves but 14,780,949 pounds for the remainder of the Union. Now we have a total erop of tobacco amounting to 114,792,653 pounds in 1862 and 567,302,770 pounds in 1863. Maine, New Hampshire, Vermont, Rhode Isiand, New Jersev, Delaware, California and Nebraska, which are credited with nothing in 1862, yielded 345,378 pounds in 1863, which is certainly a considerable growth for twelve months, and indicative of larger results in the future. If there remains over 60,000 pounds, as is supposed, from 1862, we should have on hand, deducing the essimated consumption—say 80,000,000 pounds—251,000,000 pounds for the present supply. At 14 cents per pound, with a continuing foreign demand, we may export one-half in axecss of former years as to value; say \$30,100,000. EXTRAVAGANCE.—The N. Y. Post has a word to say

EXTRAVAGANCE.—The N. Y. Post has a word to say about the reigning extravagance of the times. It writes as follows: "A man builds a marble stable on the rear of his lot, at a cost of eighty thousand dollars, and fits up a private theater over it. Another pays eight thousand dollars for a pair of horses to drive on the road for his pleasure, and many give from fifteen handred to three thousand dollars for the same object. Another provides a dinner for a dozen friends rejecting the old superstition of the unlucky thirteen—and this simple dinner costs one thousand dollars. A children's party is given, in an up-town house, where every child is clad entirely in dresses imported from Paris. An American citizen purchases abouse for over one hundred thousand dollars, and tears it down, to re-baild upon its site one yet more costly. These are signs of the time—are they not evidences of a state of things unhealthful, feverish, threatening to the honest simplicity of our political life; and threatening not less evil to the ideas and the principles of, which that life has hitherto been a fair exponent? What business have Americans at any time, with such vain shaw; such useless magnificence? But especially howe can they justify it to the incomplete of war?" EXTRAVAGANCE. -The N. Y. HOSTETTER'S

Celebrated

pure and powerful Tonic, corrective and alternative of wonderful efficacy in disease of the

pure water and other external causes, I ostetter's Bitters may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresitable as a remedy, and thousands who resort to it under apprehension of an attack, escape the scourges and thous nds who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous alkaloid, and not unfrequently restored to health within a few days by the use of Alostetter's Bitters.

stored to health within a few days by the use of Aostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dispepsia and in less confirmed forms indigestion. Acting as a gentle and painless aperients, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the diagestive and secretive organs.

Persons of feeble habit, liable to Nerrous Attacks, Lowness of Spirits, and Fits of Languor, find proupt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Billions Colie is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented. As a general Tonic, Hostetter's Bitters produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakmess, Premature Decay and Debillity and Decreptitude arising from Oid Age, it exercises on electric influence. In the convalescent stages of all diseases it operates as a invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not lest, it is The Only Sofe Stimulant, being manufactured from soundand innoxions materials, and entirely free from the acid elements present more or less in in all the ordinary tonics and stomachies of the day.

No family medicine has been so universally, and it may betruly added, deservedly popular with the intelligent portion of the community, as Hostetter's Bitters.

Prepared by HOSTETTER & SMITH, Pittsburg.

There symptoms, if allowed to go on, which this medicine invariably removes; soon follows impotency, fatuity epileptic fits, in one of which the patient may expire.—Who will say they are not frequently followed by those direful diseases, insanity and consumption. Many are aware of the cause of their suffering but none will confess the records of the insane assylums. And melancholy deaths by Consumption bear ample witness to the truth of the assertion. The constitution once affected with organic Weakness requires the aid of Medicine to Strengthen and Invigorate the system, which Hembold's extract buchu invariably does. A trial will convince the most skeptical.

Females, Females.—In many affections peculiar to females the extract buchn is unequalled by any other remedy, as in Cholosis or Retention, irregularity, painfulness or suppression of customary evacuations, alcerated or schirrhous state of the uterus, leuchorthosa or whites, sterility, and for all complaints incident to the sox whether arising from indiscretice, habit of dissipation, or in the decline or change of life.
