THE SPIRITUALISTS have had a split. Their national convention in New York has resolved itself into two bodies, the organizationists and the enemies of all organizations, the free lovers and the lovers according to law. A soldier of the 1st Pennsylvania cavalry, in the Potomac army, was a short time since found asleep near Warrenton, Va., having slept 24 hours. He stepped up to his captain and said, "Captain, I die to-morrow at 4 o'clock, and the war will end in June. You have no more for me to do." As the clock struck 4 on the

Now the truth is, that on his first application, the land was rather deficient in lime only: but in not using other manure in connection, other substances in the soil were exhausted; potash or soda was now wanted, and hence the constant use of lime only for a series of years will injure and deteriorate the soil.

A HORNED WOMAN.—The New York Observer, of the 12th instant contains a letter from its correspondent at Larnaca, in the island of Cyprus (Turkish dominions), describing a most remarkable lusus naturae recently discovered there. FOOLISH PRIDE.—We have often heard a halfgrown up boy say pettishly to his mother, "I dont like to be seen carrying a big bundle through the streets. But true pride is ashamed of such littleness of mind. Mr. Astor, the wealthy millionaire of New York, was reluctant to sell some goods to a young man, except for cash. The merchant paid for them and took them on his shoulder to carry them out of his store. Mr. Astor looked in surprise; but before the merchant had gone many steps, be called him back, saying, "You may buy on credit to any amount. I can trust you, sir. How to get Early Tonatoes.—Mrs E. D. Kendall, of Maryland, thus writes to the Southern Field and Fireside:—"A good large turnip is far better than any hotbed for propagating tomatoes. Cut off the top, and scoop out a shell three-quarters of an inch thick. Fill the cavity with rich mould, plant half a dozen seeds, and place the turnip in a box of loam. Keep warm, sprinkle with tepid water every day, until there is no longer any danger from the frost, then return the turnip to the out-door bed, and thin out all but one plant. Should the turnip send out roots, pinch them off and the shell will soon rot, affording a fertilizer to the tomato plant that will send it ahead wonderfully. Welcome.—"Papa will soon be here," said mamma, to her three years old boy, "what can Georgey do to welcome him?" And the mother glanced at the child's playthings, which lay scattered in wild confusion on the carpet. "Make the room neat," replied the bright little one, understanding the look, and at once beginning to gather his toys into a basket. "What more can we do to welcome papa?" asked mamma when nothing was wanting to the neatness of the room. "Be happy to him when he comes!,' cried the dear little fellow, jumping up and down with eagerness, as he watched at the window for his father's coming. In reply to a question in regard to the present military prospect, Mr. Lincoln, with that peculiar smile which he always puts on when about to tell a good story, said: "Well, sir your question reminds me of a little anecdote about the automaton chess-player, which many years ago astonished the world by its skill in that game. In vain he protested, and in vain the assembled company bore witness to the marriage ceremony, and urged to over-come her childish scruples. She stoutly mantained, before astonished guests and astounded groom, that she had never wedded any man. At last her moth-er was brought forward to talk to the refractory young lady; but after putting on her spectacles, and going through with a deliberate inspection, announced the important fact—"Why, Mr. Brown, you did not marry that girl; you married Fanny, and this is Jane dressed up in Fanny's clothes."

THE CORN GRUE.—The corn crop has several for midable enemies to contend with, and among them is the grub, which sometimes literally destroys whole fields, or damages the crop seriously, One of the best and most convenient remedies—perhaps the very best ever suggested—is the application of sall as soon as the plant makes its appearance above ground, prepared and used in this way: Take one ground, prepared and used in this way: Take one part common salt and three parts plaster or gypsum, and apply about a table-spoonful around each hill. It will be found to be a sure protection. The mixture should not come in contact with the young plants, as it may destroy them. This method has been tried over and over again by some of the best farmers of Pennsylvania, Delaware and Jersey, and when properly applied, has never failed to be perfectly successful. We hope our farmers, who have reason to fear the depredations of the grub the present season, will try this mixture, leaving a few alternate rows of corn without the salt, and communicate to us the result. — Delaware Republican.

GREAT CENTRAL FAIR.

FOR THE

SANITARY COMMISSION. CFFICE OF COMMITTEE ON LABOR, INCOMES & REVENUES, No. 118 South Seventh Street, Philadelphia, April 4th, 1864.

APSIL 47H, 1864.

The Committee on "Labor, Incomes and Revenues," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the object of the Fair. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the contribution of a SINGLE DAY'S LABOR from all classes in the community. Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but if attained, will be productive of immese results.

of immese results.

The success of the plan will depend upon the hearty co-operation of every element of influence within our limits and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of pasriotism and humanity.

The Committee is charged with the following duty, to

First.—To obtain the contribution of "one day's labor." or earnings, from every artisan and laborer, foreman, operative and employee; president, cashier; toller and clerk of every incorporated and unincorporated company, railroad and express company, employing firm, bank, manufactory, iron-works, oil.works, mill, mine and public office; from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, finisher and artist; publisher, printer and mechanic; from every government offier, contractor and employee; grocer, butcher, baker and dealer; farmer, horticulturist and producer; from every mantua manker, milliner and female operative; every individual engaged in tarning the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pennsylvania, New Jersey and Delaware.

Second.—To obtain the contribution of one day's "Revenue," from all the great employing establisements, firms, FIRST .- To obtain the contribution of "one day's labor.

SECOND.—To obtain the contribution of one day's "Revenue," from all the great employing establisements, firms, corporations, companies, railroads and works.

THIRD.—To obtain the contributions of one's income from every retired person, and person of fortune—male and femule—living upon their means, and from all clergymen lawyers, dentists, editors, authors and professors; all other persons engaged in the learned or other professions. Much of this work must be performed by the personal influence and efforts of ladies and gentlemen associated, or to be associated with the Committee in carrying out this plan.

ALSO,

160 acres, two miles above Omaha City, on the great very desirable. All of these lands were located after a personal inspection and earcful examination on the ground and can be well relied upon for future wealth. Maps showing the precise location are in my possession.

The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts,—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of the country in the armies of the nation.

the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal regions. A day's earnings of the miners, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation.—Indeed there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them.

The Committee cannot close without urging upon all

the day's labor may not be obtained, if organizations can be formed to reach them.

The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secure the benefit of the DAY of LABOR from all within their control.

The Committee deem it unnecessary to do more, than thus to present the subject to the people of the three States named. In the coming campaigns of our armies, the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force, scattered over regions to which the men are unacclimated, mast necessarily carry along with it a large amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle field.

These sufferings it is our bounden duty, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a government of their making, CANNOT REFUSE assistance to men suffering to maintain its authority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pennsylvania, New Jersey and Delaware, so affuent in all mineral, agricultural and industrial wealth, shall fall behind any similar effort which has yet been made for the relief of the Nation's children.

As it is desirable not to multiply circulars; no further authority than this circular will be necessary for any employing firm or company, or any respectable committee of ladies and gentlemen, to proceed at once, in the work of

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment will stimulate efforts in other localities.

All subscriptions should be addsessed to JOHN W. CLAGHORN, Treasurer, office of the "Committee on Lagrange and the state of th

STOMACH BITTERS.

A pure and powerful Tonic, corrective and alternative of wonderful efficacy in disease of the STOMACHH LIVER AND BOWELS.

Cures Dyspepsia, Liver complaint, Headache, General debilily, Nervousness, Depression of Spirits, Constipation Colie, Intermittent Fevers, Cramps and Spasms, and all Complaints of either Sex, arising from Bodily Weakness whether inherent in the system or produced by special

causes.

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of Hostetter's Stomach Bitters This popular preparation contains no mineral of any kind, so deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants

It is well to be forearmed against disease, and so far as human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, Hostetter's Bitters may be relied on as a safeguard.

In districts infested with Fever and Aque, it has been found infallible as a preventive and irresistable as a remedy, and thousands who resort to it under apprehension of an attack, escape the scoarges and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with truth dangerous alkaloid, and not unfrequently restored to health within a few days by the use of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appresent est terms.

with that dangerous alkaloid, and not unfrequently restored to health within a few days by the use of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dispepsia and in less confirmed forms indigestion. Acting as a gentle and painless aperients, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the di. gestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Billious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

As a general Tonic, Hostetter's Bitters produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness, Premature Decay and Debility and Decreptitude arising from Old Ago, it exercises on electric influence. In the convalescent stages of all diseases it operates as a invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is The Only Safe Stimulont, being mnnufactured from sound and innoxious materials, and entirely free from the acid elements present more or less in in all the ordinary tonics and stomachies of the day.

No family medicine has been so universally, and it may be truly added, deservedly popular with the intelligent portion of the community, as Hostetter's Bitters.
