A Few More Words About Over and His Effort

Over seems to be a firm believer in the Sat naxim that "A lie well stuck to is as good as the truth." In some quarters, where the matter is not known, he is trying to excite a pitiful sympathy for himself, and a hostility toward us, by still repeating the silly falsehood about his being "compelled to sell Why, the ink of his name, signed to the contract by which he sold to us the fixtures, "Good will," de., of the Laguises, was not dry before he was on the streets boasting of his bargain. He would have taken, he said, twenty-five hundred dollars, rathr than not have sold out. He had offered his paper, we have already stated, a few months before the me of sale to us, for two thousand dollars. He professed great indignation because an attempt was nade to influence him to sell to us for the same price at which he had thus offered it. He has reseatedly said that he would have sold to us for twento influence him in the matter. So the only "comelected he will endeavor to faithfully serve his con- at the time of the transaction, was to "compel" us school. We hope this opportunity for improvement otherwise have taken. As for the twin statement TO THE UNION MEN OF BEDFORD COUNTY .- I take about our "holding the lash over him," and threatenthis method of informing my friends that my name ing to start an opposition paper, there is not the least will be presented to the Union County Convention foundation for it so far as we are concerned. It is of this County, for the office of Representative. I an absolute untruth. We were, as we have said, it should please my fellow citizens to bestow upon from first to last against the scheme of starting another paper in Bedford. We did not think it would pay. ture, I pledge myself to discharge the duties of the We thought it would have a tendency to divide the position with fidelity, ever keeping in view the best party. We were averse to undertaking an enterprise, that could succeed only, if it succeeded at all, by "crushing" out Mr. Over and his Inquirer. These reasons we gave to all. Over, it will be borne in mind, offered his paper to us for three Subscribers, who pay their subscriptions before thousand dollars, before others had said a word the 8th of July, will be charged only One Dollar and about starting another paper, and would have ta-Seventy-five Cents a year. Money is very useful to ken twenty-five hundred, as he has repeatedly said, us at this time, and we hope our subscribers will find if the "lash", as he calls it, had not been held it convenient to pay their subscriptions as soon as over him. We republish the article on this subject, on the fourth page, that we gave last week. RETURNED PRISONER. - James Duffy, private in

Company E, 176th Penna. Volunteers, has reached this place within the last few days, from Richmond, via Annapolis, Md. He was captured by the rebels on the 11th of July, 1863, at the first unsuccessful assault upon Fort Wagner, near Charleston, S. C., and carried to that "nest of treason" in company with eventy-seven other unfortunates. Immediately afer their arrival an order, as they afterwards learned, as issued by Beauregard, providing each of them with a rebel uniform in exchange for the Federal blue. The boys "smelt snake" and set to work and cut up their 'fold duds' and threw them out to the Johnnys, very much to the displeasure of Beauregard, who ordered them to thirty days' close confinement in Libby prison in Richmond. A citizen of the for ner place told them that the federal uniforms were stended to enable them to capture, by a dastardly leception, our pickets upon James Island. He states that he made the round of the Richmond prisons during the ten months of his captivity, and does not see that any one has any particular advantages over the others. The food furnished to the prisoners consisted of corn bread and water, once a day varied by an ordinary sized bucket full of soup for one hundred men. He says the rebels only exchange those tors, to Thomas A. Scott and Robert H. Gratz, of who arean a critical condition and not likely to reover. He is still very weak and emaciated, but recovering slowly.

House Burned .- The house of Daniel Replogle, n Three Spring Run, near Jas. Noble's grist mill, in South Woodberry Township, was entirely destroyford Railroad, by Joseph W. Tate to Anthony Shaf- ed by fire on the afternoon of Saturday the 11th inst. The fire caught on the roof of a temporary structure, used as a kitchen, joining the main building. The house destroyed was a large two story brick building, occupied by Thomas Dooly, son-in-law of Mr. Replogle. Most of the furniture and clothing in the upper story was consumed; but the greater part of the effects in the lower story was saved. Miss Fanny Guyre and John W. Tetwiler, were in danger of burnng. Miss Guyre was engaged in removing some of July. The supper is to be prepared to be prepared to be prepared to be present. The proceeds are to go to lowing day, when the stairway fell. A ladder was indispensible articles of feminine apparel necessary orocured, upon which, from a window, she made a safe descent to the ground below. The burning floor fell about Mr. Tetwiler who was engaged removing furniture trom the second story. He made his way out through the flames and smoke and escaped without other injury than a slight singing: We understand there was no insurance. The loss, though a heavy one, falls upon a man better able to bear it than is often the case. Mr. Replogle, we hear, intends to rebuild, without delay, a house of brick upon the ground of the old one.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent for premium,) or receive them drawing interest from the date of subscription and deposit. In all other forms of indebtedness, the faith and ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principle and

It may be useful to state in this connection that the total Funded debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,-975,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the

Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the re-cent increase of the tariff will doubtless raise the annual eccipts from customs on the same amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until

March 26, but in the first three weeks of April the sul
