A Cargo of Petroleum Burner.—A Baitimore correspondent writes: "Our harbor has been on fire for the last twenty-four hours—literally on fire. The surface of the water for thousands of square yards has been a perfect flame, caused by the destruction of the Itallian ship Juliana, which took fire while lying at the wharf and loading with petroleum. She had on board one thousand eight hundred barrels, and had to be towed over to the opposite side of the basin to save the surrounding property. As the barrels would burst, the oil spread over the water in a flame. Thousands assembled to witness the beautiful sight." ful sight."

About Moths.—Many a lady, on taking out her furs the past winter, noticed the hairs falling out, and, on examining the skins themselves, found them perforated with small holes. These holes are cut by the moth, an insect whose habits every lady should know all about. Naturalists tell us that the moth is the larva of a family of insects called Timea. Its winged life begins in the spring, and lasts only a few months. It is small, and of a light brown color. After fluttering around a short time, it finds a mate, when the happy pair go to housekeeping and to rearing up a family. The female creeps into crack and crevices, into closets and clothes' presses, under the edges of carpets, wherever woolen or furs are stored away, and there she lays her eggs. The parents soon die. In a fortnight the eggs hatch out into light colored caterpillars, about a quarter or half an inch long. They begin to gnaw upon whatever they can find to make nests of. It is in doing this that so many carpets, so much upholstering, and so many furs are punctured.

In winter they lie torpid. In spring the chrysalis gives birth to the winged insect, which again begins the circle of pairing and egglaying, as its parents had done before. Now, as moths lay their eggs mostly in June, that evidently is the best time for making an onslaught among them. Take out every article of fur or woolen, give a thorough shaking and whipping, a long exposure to hot sun, if practicable, and another dressing with the switch before storing

whipping, a long exposure to hot sun, if practicable, and another dressing with the switch before storing them. Put salt and Scotch snuff under the edges of the carpets. Fungate the closets and drawers with tobacco. On returning the articles to their places put small branches of cedar or distribute little packages of camphor gum among them.—American Agriculturalist.

HARRISBURG, Feb. 8th, 1864. HARRISBURG, Feb. 8th, 1864.

C. A. BANNVART—Dear Sir: I have used Brown's Bronchial Troches, Wistar's Lozenges and other preparations for hoarseness and Throat Troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and sungers, in cases of Hoarseness, coughs and colds. I have found them serving in time of need most effectually.

To C. A. BANNVART—Dear Sir: In the habit of speaking very frequently, and in places where the vocal organs are very much taxed, I have found the need of some gentle expectorant, and that want has been supplied in your excellent Troches. I consider them very far superior to any Lozenger that I have ever used, in removing speedily that huskiness of the voice arising from its too frequent use, and impairing the effectiveness of the delivery of public addresses.

STOMACHH LIVER AND BOWELS.

Curss Dyspepsia, Liver complaint, Headache, General de-bilily, Nervousness, Depression of Spirits, Constipation Colie, Intermittent Favers, Cramps and Spasms, and all Complaints of either Sex, arising from Bodily Weakness whether inherent in the system or produced by special

whether inherent in the system or produced by special causes.

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of Hostetter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamie herbs and plants with the purest and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and so far as human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, Hostetter's Bitters may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found in fallible as a preventive and irresistable as a remedy, and thousands who resort to it under apprehension of an attack, escape the securges and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quimine for months in vain, until fairly saturated with that dangerous alkaloid, and not unfrequently restored to health within a few days by the use of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appearance are cured by a particular produced and the appearance are cured to health within a few days by the use of

with that unipercus analog, and the use of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dispepsia and in less confirmed forms indigeation. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Billious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented. As a general Tonic, Hostetter's Bitters produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay and Debility and Decreptitude arising from Old Age, it exercises on electric influence. In the convalescent stages of all diseases it operates as a invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not loast, it is The Only Safe Stimulant, being mnnufactured from sound and innoxious materials, and entirely free from the seid elements present more or less in in all the ordinary tonics and stomachies of the day.

No family medicine has been so universally, and it may betruly added, deservedly popular with the intelligent portion of the community, as Hostetter's Bitters.

Prepared by HOSTETTER & SMITH, Pittsburg.
