THE ILLUSTRATED HORSE DOCTOR.

Being an accurate and detailed account, accompanied by more than 400 pictorial representations characteristic to the various diseases to which the Equine race are subjected; together with the latest mode of treatment, and all the requisite prescriptions written in plain English.

By Edward Mayhew, M. R. C. V. S., author of several Works on Veterinary Art.

[From the London Globe.] Every gentleman who possesses or cares for horses would do well to keep this book in his house. Mr. Mayhew's treatment of the worst diseases to which horses are liable is very clearly haid down and the method of keeping horses well and to a prolonged old age, is that of nature, of common sense.

Voltable says. "A physician is an unfortunate gentleman, who is every day called upon to perform a miracle—to reconcile health with intemperance.

Transfer reconcile health with intemperance.

To one with the least equine knowledge can require to be told that Mr. Mahew is the man for the task which he has undertaken, and most satisfactorily accomplished.—It is single reputation in the veterinary art, and his qualifications as a practiced writer on domestic animals, render him the very purson for supplying an intelligent and interesting work on the diseases of the horse, while we devoid of more professional localities, while, at the seme time, his skill as a drangitsman, and hamor as a witty observer of life, enabled him to illustrate with his pen. We advisedly say that "The Illustrated Horse Dector" is the very best book of the kind which we know; and what gives it an allowed the professional localities, while, at the seme time, his skill as a drangitsman, and hamor as a witty observer of life, enabled him to illustrate with his pen. We advisedly say that "The Illustrated Horse Dector" is the very best book of the kind which we know; and what gives it an allowed the professional localities. Sarp one gentleman of honor to another, "If you don't accept my challenge, I shall post you in the papers." "Go ahead," said the other, "I had rather fill a dozen papers than one coffin."

Nothing that is not wholesome, genial and restorative n its nature enters into the composition of Hostetter's Stomach Bitters This popular preparation contains no mineral of any kind, no deadly botanical element; no flery excitant; but it is a combination of the extracts of rare balsamie herbs and plants with the purest and mild.

est of all diffusive stimulants

It is well to be forearmed against disease, and so far as human system can be protected by human means against naladies engendered by an unwholesome atmosphere, in pure water and other external causes, Hostetter's Bitters

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistable as a remedy, and thousands who resort to it under apprehension of an attack, escape the scourges and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous afkaloid, and not unfrequently restored to health within a few days by the use of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dispepsia and in less confirmed forms indigestion. Acting as a gentle and painless aperients, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the di. gestive and secretive organs. Persons of feeble habit, liable to Nervous Attacks, Lou-

ness of Spirits, and Fits of Languor, find prompt and per-manent relief from the Bitters. The testimony on this oint is most conclusive, and from both sexes. The agony of Billious Colic is immediately assuaged by single dose of the stimulant, and by occasionally resort ing to it, the return of the complaint may be prevented. As a general Tonic, Hostetter's Bitters produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness, Premature Decay and Debility and Decreptitude arising from Old Age, it exercises on electric influence. In the convalescent stages of all diseases it operates as a invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them,

Last, but not least, it is The Only Safe Stimulant, being nnufactured from sound and innoxious materials; and en irely free from the acid elements present more or less in n all the ordinary tonics and stomachies of the day. No family medicine has been so universally, and it may be truly added, deservedly popular with the intelligen ortion of the community, as Hostetter's Bitters.
