THE DEMOCRATIC CONSPIRACY.

The Confession of Horace Heffern-Over throw of the Government Determined upon a-Governor Morion to be Murdered-Rebei Prisoners to be Armed and Released-None but Democrats in the Plot.

We publish the following additional in relation the Indianopolis Democratic conspiracy:— INDIANOPOLIS, Friday, November 4.—The Military Commision now trying Bowles, Milligan, and others, finished the examination of H. L. Zunara to-day, and also the direct examination of Horace Heffern, one of the accused, who took the stand as a witness. Mr. Heffern did not know until he was called on by the Judge Advocate that he would be a witness, and had not contain the standard of the standard that he would be a witness, and had not con sulted with his counsel. His testimony is startling and direct in regard to the conspiracy.

He joined the Order of American Knights in November, 1863, at his office in Salem, Indiana; was elected Grand Senior; attended the State Council February 17, 1864; Dr. Bowles and Mr. Milligan were present; Humphreys and Harvey were not; a committee was appointed on newe papers, and also to find out whether any person initiated had conspired to expose the secrets of the hapers, and also to had out whether any person mitiated had conspired to expose the secrets of the border; Grand Commander Dodd had preferred charges against M. Malott, of Sullivan county; as chairman of the committee, Heffern reported, offer a full investigation, that there was not vidence to sustain the charge; the penalty for expectation was death as here. revelation was death, as he understood from obligation; officers were elected; Dodd had Grand Commander; Milligan, Wa Humphreys, and Major McGrain of Harrecounty, were elected Major-Generals; the triets were altered, and Bowles elected in Grain's place; never attended the rain's place; never attended the meeting of the state Council of June 14; the Order was composed entirely of Democrats; he never knew a member who was not a Democrat, and no one of nother party could have got in unless he processed to be a Democrat—that was a size qua non; here were two organizations in the Order shape. there were two organizations in the Order—the civil and the military—one within the other.

The civil organization, which comprised the mass of the members, he considered purely political, to bring out a full Democratic vote and in-

sure a party success. It was understood that the Administration party would not allow the Democrats a fair vote, and they had determined to have a "free vote or a free fight." The military organ ization was confided to a committee of the Orde, anknown to him. The purpose of that organiza-tion was to separate the Northwest—Missori Illi-nois, Indiana, Ohio, and Kentucky—from the Eastern States, and form a Northwestern Confed eracy, or join the South; this was not communics ed to the members of the civil organization; h would not have known it but for his official positio as Deputy Grand Commander; the miltary pla was probably known to the leaders, and to th Committee of Thirteen, who were known only b the Grand Commander and themselves, expecting to control the civil organization by their influence; Dodd was a military leader, but Dr. Bowles was above him; the military officers were above the civil, and controlled and directed the arming of the Order and its military movements; le learned this from James B. Wilson, Adjutant General on Dr. Bowles' Staff; from him he to talimformation about the order; was with Vilson ifter his return from French Springs, where Bowls lived; he never understood that the rank and file of the Order were to be armed at its expense, but at their own; those under control of the military officers were to be armed at the expense of the Order, the military chiefs detailed men to go ato the The particulars are meagre, and somewhat conown; those under control of the military officer were to be armed at the expense of the Order the military chiefs detailed men to go ato the various townships and pick out a certain number of men to be armed; reports of amount if arms and ammunition on hand were taken by these men and reported to the Branch templs, and thence in secret cipher to the county tempes and State Council; Dr. Wilson once on his eturn rom Bowle's where several members of the Or er were resisting the draft, pulled out a foll of noney of one thousand dollars, which he had just of from Dr. Bowles to purchase arms, an said nere was plenty more where that came from he had half a million of dollars had been sent to indi ana, Illinois, Kentucky, and other State Rebel agents in Canada, to procure arms of Order in these Western States, Dodd and W had received \$100,000 each; Bowles had received the manage for his pure of the State; it was to be expended for arms and ammunition for the management of th Sons of Liberty; he learned this from Wilson June, 1864, about the time of the Grand Coun conversationally, and by Dr Bowles and other on the 16th of August he learned there was to an uprising, and Rebel prisoners to be released an uprising, and Rebel prisoners to be released in Ohio, Indiana, Illinois; the arsenals in these States to be seized, and the prisoners armed with the arms taken from them; Governor Morton was to be taken and held as a hostage for such compirators as might be taken prisoners; in this uprising Dr. Athon was to be Governor by virtue of the State law, which provided that the Secretary of State shall be Governor in the case of a vacancy caused by death or other removal of Governor or Lieutenant-Governor; Athon was to call out the militia, and the Order would have things their own way; in ease they failed to score Mortan as a

own way; in case they failed to secure Morton as a poor, and denies of the rights of men." This strikes us as being rather cool for the chiefofficers of a new Government founded upon slavery as its to be accomplished by the military part of the order, and as many others as they could bring into under the excitement of the movement; this sheme was not imparted to any but members of its Order, and to the leaders of the Democratic carry only so far as they were members; hink Dr. Wilson said, when he was at Chicago, that the Committee of Ten would take care of Governor Morton; ten members of the Order were selected for that.

The destitution of the people is represented as extreme, and starvation is said to be staring them in the face. One of the principal causes mentioned for this is the absolute worthlessness to which Rebel money has been reduced. Society is evidently in a most disorganized condition in that region, as "thieving plundering, pilfering and horse-stealing" are said to be the order of the day. TREASON IN INDIANA.

Sons of Liberty--Confessions of a Deputy-Grand Commander--Proposed Assassina-tion of Governor Morton.

INDIANOPOLIS, November 4.—Horace Heffern Deputy-Grand Commander of the Order of the Sons of Liberty in Indiana, who for some weeks, has been on trial here for a participation in a treasonable conspiracy, to-day turned State's evidence, and made a startling revelation of the schemes of the Order. He said that nobody but Democrats had been admitted into the order, or would be if they applied.

He confirmed the previous evidence of the military organization of the Order, and of the appointment of a Major-General to command it.

Dr. Bowles, one of the accused, was commander in-chief, with a staff, of which Dr James B.

Wilson, recently arrested, was Adjutant General. He said that a Committee of Thirteen was appointed to prepare for an insurrection, and that the insurrection was intended to release the Rebel prisoners in the Northwest, arm them from the Government arsenals, overthrow the State Gov-ernment, kill Governor Morton, or hold him as a hostage for captured insurrectionists, and then form the Northwest into a separate Confederacy. He said he was told by Adjutant-General Wil-son, of Bowles' staff, thay \$500,000 had been sent

y the Rebel agents in Canada into the Northwest, to purchase arms for the Orier, and that \$200,000 had been left in Indiana, in the hands of Dodd, and John C. Walker, State agent.—Wilson showed Heffern \$1000 he received from Bowles to buy arms in Washington county.

Heffern further swore that the Committee of Thirteen had appointed to many to build Green and the committee of the control of the control

Heffern further swore that the Committee of Thirteen had appointed ten men to kill Governor Morton, and a few days, since the Governor received a letter, signed by one of the men, declaring that the writer and his associates were sworn to kill him, and would do it. Heffern's revelations astounded the Conrt, though prepared by the previous evidence for part of it. If Governor Morton was killed, Dr. Athon, Secretary of State and a member of the Order, was to take his place, as provided by law in case of the death or place, as provided by law, in case of the death or disability of the Governor and Lieutenant-Gover-

Gentlemen .- Having stated it verbally to you, I have Gentlemen.—Having stated it verbally to yee, I have no hesitation, in writing the fact, that I experienced marked benefit from your Hoofland's German Bitters. During a long and tedious session of Congress, pressing and oner ous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be.

I am the recipient from you of one of the greatest fa-vors that can be conferred upon man, vis: that of health. For many years have I suffered from one of the most an-noying and debilitating complaints that the human fami-ly can be afflicted with, Chronic Diarrhea. ly can be afflicted with, Chronic Diarrhea.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temperary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely cradicated.

I often inwardly thank you for such a valuable specific and, whenever I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly yours.
