AMERICAN CHIVALRY.

What has become of tho e valiant South Caroli-na heroes who have been proclaiming their deter-mination to die in the last ditch, and never, nev-er, never, surrender to the Yankee invaders? We don't hear a sylable of one of them. None of our official bulletime make any mominant of the discov-ery of their remains. The chivalry of Charleston seen to have shown quite as much alacrity in ran-mon place specimens of the human race. They began to "evacuate" we are told, about three weeks before our army approached. This was dis-cretion-decidedly the better part of their valor. There is a great deal of human nature in South Carolina after all. One noble exploit aloue seems to have signalized the fall of Charleston. Finding that they must run away themselves, the chivalry blew ap their powder magazine and killed about one hundred of their own people. All that were left in the town say the reports, were of the lower order-people who could not run away, and were, therefore, com-pelled to stay by the last ditch if not in it.

But the people, although at times faltering as the dark shadows of disaster enveloped the nation, were still faithful to their government. Like the disturbed and oscillating needle that ever settles to the pole, they would rise from the cloud of perfidy that beset them and give their hearts and sarrifices to preserve the Republic of our fathers. One hope remained for Democracy and slavery. They targed to the court of last resort of Pennsylvania, and, in the name of Democracy, demanded that the only means by which our armies could be filled and enabled to triumph should be set aside as an infraction of the sovereignty of the State, and therefore void. Your correspondent s signature "Humanitas," suggests to me a very solemn view of the subject. Humanity! Inhumanity is utterly inapplicable to the Federal Government in using all its power and resources to put down an unjustifiable and, if we consider its object an iniquitous revolt of a portion of its own subjects. Russia's subjugation of Po-hand is utterly irrevelant to this whole discussion. Humanity! The greatest inhumanity of the war has been British sympathy with the South. Sort the expectation of this, the war had probably never begun; and but for this, it had not lasted a year. In no single instance, as yet, in any town taken by our troops, have the chivalric defenders of South-ern independence have been one whit more deter-mined to die than other people.
