ONLY solitary people fall in love.

Never attempt to reason a man out of an opin ion; to change him will not help you; and there is no such thing as to be certain of the truth.

LIFE is a constant struggle for riches, which we must soon leave behind. They seem given to us as the nurse gives a plaything to a child, to amuse it until it falls asleep.

LET us so order our conversation in the world that we may live when we are dead in the affections of the best, and leave an honorable testimony in conscience of the worst.

A GARRULOUS For, who had annoyed by his individious remarks, his partner in the ball room, amo other empty things, asked whether "she had ever had her ears pierced?" "No," was the reply; "but I have often had them bored."

Momere, it would seem, has been anticipated by Antigonous. It was not the great Frenchman who first discovered that no man is a hero to his valet. A flatterer said to Antigonous, "You are Divine. "Ask my valet, he will tell you otherwise."

A CHEERFUL life must be a busyone. And a busy life can never be well otherwise. Frogs do not croak in running water. Active minds are seldom troubled with gloomy forebodings. They come up only from the stagnant depths of a spirit unstirred by generous impulses or the necessities of honest toil.

A BROAD HINT .- A bachelor sea captain who was remarking the other day that he wanted a good chief officer, was promptly informed by a young lady present, that she had no objection to be his first mate. He took the hint-and the lady.

THE LAST WILL AND TESTAMENT of a shop-keeper of the Rue St. Denis in Paris, who died recently, ended thus: "I desire my heirs to take measures at once for my autopsy and to place my body in the hands of men of science, that it may be carefully dissected, for I am determined to know the cause of

FRATERNIZING.—There was great excitement early one morning a few weeks ago in the Jardan d' Acclimation, at Paris among the feathered inhabitants, in consequence of the appearance of a flock of wild ducks, which fraternized most amicably with their foreign relatives. The appearance of the guardians by no means disturbed them. The visit lasted some hours, and it was not till late in the afternoon that the flock winged its way in a northerly direction.

A Vow Fulfilled .- The Burlington (Vt.) Times speaks of a gentleman who on hearing of the fall of Fort Sumter, vowed that he would never cut his hair till "Old Glory" should float again over the fort .-His time of trial has been longer than he anticipated, and his hair has grown into anaconda-like coils, his tresses becoming thick-plaited, stout and strong. But he is now at liberty to ply his shears and sweep away this reminder of the opening scenes of the

A SAGE Frenchman has just discovered a plan by which all our difficulties can be ended, and publishes his scheme in full in the New York Courrier des Etats Unis. The South must give up its plan of separation and also slavery. Good. THE Charleston Mercury has entered on a migratory existence of it forsook its ground, it maintaine its fath, as is evident from the following, taken from its "last dying speech :"

South Carolina entered into this struggle for ne other purpose than to maintain the institution of slavery. Southern independence has no other object or meaning. Independence and slavery must stand together or fall together.

The Mercury used its last breath to denounce the arming of slaves, preferring to go down in the struggle, to victory even, through such an expedi-

FILLIBUSTER.—The word fillibuster is derived from the river, Vly, in Holland. In the Seventeenth century, small, fast-sailing vessels, of about one hundred tons burden, were built on this river, and such a boat was ralled by the Dutch a Vlyboot. They soon became known in England as fly boats, a term which was transferred to Spanish as fillibote, or by a softening of the first sylable as fillibote. The buccaneers of the West Indies found these light Dutch vessels exactly to their service, and from their using them, the French cruisers gave these pirates the name of flibustiers, or filibustiers, an appellation subsequently introduced into several languages. The Vlyboot of Holland occupied two hundred years ago the same position in navigation that is now held by the American clipper-ship.

Worshipping the Devil .- The only devil-worshippers known to exist are the Yezidis, a singular race of people living in Armenia. The Yezdis were formerly Christians, were then converted to Mahomedanism, and now apparently disgusted with both faiths, have taken themselves to diabolism. The theory of their priests is that although the mighty angel Satan, the chief of the angelic host, at present has a quarrel with God, yet a reconciliation will hereafter take place, and he will be restored to his high rank in the celestial hierarchy. This is the foundation of their hope, and they consider themselves perfectly safe in trusting their destiny to it .-Among such a people, the profane phrase "Go to the Devil!" would of course be considered an expression of good will.

THE OLDEST INHABITANT DISCOVERED AT LAST. -A Wisconsin paper says that the oldest man in the world is now living in Caledonia, in that State. circulation. The use of them improves the wind, strengthens the appetite and gives the borsea fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are to bloat the animal, so as to give him the appearance of being fat when not really so—but to remove the disease and promote his general health.

These powders will strengthen the stomach and intestines, cleanse them from offensive mater, and bring them to a healthy state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Fellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers Loss of Appetite and Vital Energy, &c.—These powders, if used two or three times a week, through the winter and spring, your horses will never get the Lung Fever Coric or Botts. A few doses of these powders will remove the worst cough, on any horse. Were owners of horses to feed a few of these powders every year, they might save the lives of many valuable horses.

The properties this powder possesses in increasing the quantity of milk in cows, gives it an importance and value which should place it in the hands of every person keeping a cow. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster,

BANNVART'S TROCHES, For the cure of Hoarseness, Throat Diseases, &c., are especially recommended to Ministers, Singers and persons whose vocation calls them to speak in public.

HARRISBURG, Feb. 8th, 1864.

C. A. BANNVART—Dear Sir.: I have used Brown's Bronchial Troches, Wistar's Lozenges and other preparations for hoarseness and Throat Troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers, in cases of Hoarseness, coughs and colds I have found them serving in time of need most effectually.

To C. A. Bannvart—Dear Sir.: In the habit of speaking very frequently, and in places where the vocal organs are very much taxed, I have found the need of some gentle expectorant, and that want has been supplied in your excellent Trochea. I consider them very far superior to any Lozenges that I have ever used, in removing speedily that huskiness of the voice arising from its too frequent use, and impairing the effectiveness of the delivery of public addresses.

JNO. WALKER JACKSON,

Pastor of the Locust Street Methodist Church.

To C. A. Bannvart—Dear Sir.—Having used your Troches, I am free to say they are the best I have ever tried, and take great pleasure in recommending them to all persons afflicted with soar throat or huskiness of voice arising from public speaking or singing.

I persons afflicted with soar throat or huskiness of voice rising from public speaking or singing.

G. W. Ruer,

The property of this company is all owned in fee simple and is all paid for, and consists of the following tracts:

Tet. That valuable island, known a the "Lower Stump Creek Island," containing 2 acres and 33 perches, situated in the Allegheny river, at the mouth of the Clarion river. (In this island a derrick was erected in the spring of 1861, and an engine placed on the grounds, but the war breaking out, the parties sold off and enlisted.

2d. The "Upper Stump Creek Island," situated but a few reds above the lower island, containing 4 acres and 20 perches, 4 acres of which are owned by this company, on which are eracted a house, stable, &c. Neither of these islands is liable to overflow, and both are well protected by stone and trees against washing. By reference to the map of Pennsylvania, it will be observed that the Clarion river empties into the Allegheny at a point due south from full Creek, and as oil is 'aund at Freeport, on this line further south, we have every reason to believe that these islands are in the very centre of the great oil belt of Pennsylvania. Besides all this, they lie far below the coal measures.

The company also owns i acre and 61 perches of land.

ed to the depth of 420 feet. This well was tubed at 350 feet, and in a few hours pumping yielded about one barrel of oil, but the proprietors defermined to sink it deeper, and the company will, as soon as possible, sink this well if necessary to the depth of 1000 feet or more. The Stump Islands Company" ownes the whole interest in well, fixtures and land, and "Development Fund" will be amply sufficient to complete this well and sink others in the Islands. There is besides, room enough on the Ritchey Run tract for several more wells.

The property owned by this company is all practical boring territory, and persons acquainted with the lands along the Allegheny and other oil streams, will bear testimony that we have more practical boring surface face than many of the 300 acre tracts contain.

In addition to this, one basis will compare favorably, with the large majority of Companies, whose Capital stock is five times as great.

The services of an efficient Superintendent have been obtained, and the Directors are determined to prosecute operations vigorously.

THESE Powders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact that they are composed of medicines that have Laxative, Tonic and Purifying properties. The laxative ejects crudities from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and healthy circulation. The use of them improves the wind, strengthens the appetite and gives the borsea fine, smooth and clos-

HOGS.

In all diseases of swine, as coughs, ulcers in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented. By using these powders the hog cholera can be prevented.

A LECTURE TO YOUNG MEN

A Lecture on the Nature, Treatment and Radical Cure of Spermaterrho a or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally. Nervousness, Consumption, Epilepsy, and fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c. By ROB'T J. CULVERWELL M. D., Author of the Green Book," &c.

The world renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangerous surgical eperations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain ard effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. This LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.
