HOGS IN ORCHARDS.

A Cayuga County correspondent advises follows in the Country Gentleman: "The true way for Eastern pig-feeders who do not wish to pen up their swine, is to have their pens communicate with their orchard Don't ring the pigs, but feed well, and just let them root as they will. This course will manure your orchard, and you are sure of a good crop of apples. In hot weather, the shade is grateful to the swine, besides the great benefit to future crops by having all wormy and curculio stung fruit picked up as soon as it falls. I have followed this course with swine and orchard for twenty-five years and but one year failed in having an abur dance of fruit. If the orchard becomes to weedy, plow and plant with early potatoes, of some crop which matures early. Sow with small grain next spring, seeding with clover and orchard grass, harvesting grain by turning in pigs; and if the pigs are fattened by liberal feedings, without confinement in close pen, the consumer will find it an improvement in quality and flavor of his pork."

#### COMPOST FOR GARDENS.

Perhaps the best manure that can be use on gardens, is animal excrement in a decom posed state; but as this is not always availa ble, a very efficient substitute is found in compost made of muck, one part; gypsum lime, charcoal dust, bone manure and salt equal proportions, one part; clay, one part; and chip manure, one part. These ingredients are to be thoroughly incorporated, and wet with urine or soap suds. A small quantity of sulphuric acid diluted with water-o usand parts water to one of acid-will be found beneficial, if sprinkled over the com- A C Ja post before applying it, as will also a solu-s Jacob Reed & Co. tion of copperas in water. Both these liquids are powerful fixers, and therefore tend to economize the votatile and gaseous product of decomposition, and render them available to the plants. By filling the soil with this compost, we may secure a good crop of almost any vegetable. It is cheap as well as efficient, and may be prepared in alm quantity .- Ibid.

## IMMEDIATE HINTS.

No time should be now lost in setting ou Strawberry beds. They are a hardy plant and can stand any rough weather likely to occur in April. One matter should be carefully at tended to, that is to set the plants firmly and rather deeply in the soil. Mulch the bed as soon as the ground gets a little dry, and water freely, (once or twice with manare water, if convenient,) when the plants are in blossom If beds of vigorous plants are set out early and well-attended, a fourth of a crop may be John Nycum & Sons John Lauderbaugh expected the first season.

Cuttings of all kinds should now be set out without delay. Shrubbery should be layered for multiply-

ing the numbers as early as possible. Grape vines are or should be all trellised or Mrs J A Mann tied up by this time. If not, let it be done at

Cauliflowers should receive special attention now. They should have plenty of air at all times when there is no danger of frost; and upon all warm days the such should be entirely removed. The main remain that so A is a Herry Allen many fail in heading their cauliflowers is on 800THA3 account of surring them too much, and homes Tagh Wilson smothering them.

Plant your trees and shrubbery as soon as possible; and if you desire them not merely to grow but to thrive, make large holes, spread out the roots nicely, fill in with good soil pack the ground well and support firmly with Fluck & Wharton stakes set at an angle of forty-five degrees. Moss or fungus, which infests old garder walks or yards, can be easily removed by sprinkling salt or brine over it.

Rose bushes should be pruned earefully. cutting out all the dead wood, and topping off overgrown branches. Roses require a goo deal of cutting annually .- Germantown Telegraph.

#### ATA BIT OF DOMESTIC ECONOMY. Happening at a butcher's stall, a custon

came to make a purchase. "What do you ask for a good baking piece

"Thirty-eight cents per pound," was the

"Cut me off eleven pounds," said the cus tomer- "I'll come in shortly and settle fo it." And he went off on an errand.

After the beef was weighed and 'trimmed, I said to my friend, the provision dealer: "I wish to know, just for the curiosity the thing, how much that piece of beef ha lost in the 'trimming?' ''

"Very well," replied he, weighing i "There are nine pounds and a half left."

"And eleven pounds," I added, "at thirtyeight cents a pound, equal to four dollars an eighteen cents. This divided by nine and half makes just forty-four cents per pound Rather a tall price for beef, particularly when a large share is bone."

"The man is a fool for buying it," replie the butcher, "but no matter what the cost i some people will buy it; and generally the are not the richest people in the place

I thought of a certain little woman, th light of my cottage home, who manage things very differently in marketing.

In the matter of beef, for insta that prices are exorbitant, she purchases that which is suitable for stuffing, which can be obtained, clear of bone, for twelve or fourte cents per pound. This is her receipt for

Take a thick slice of steak, no matter how tough, of about two pounds weight; make two gills of stuffing of crumbs of bread, pepper powdered clove, or sweet marjoram, as yo choose; roll the dressing up in the steak wind a piece of twine around it, taking car to secure the ends. Have ready a kettle, deep stew-pan, with a slice or two of pork fried crispy. Take out the pork and lay in the steak, and turn it on every side till brown.

Put in half a pint of water, a little salt. cover closely, boil slowly two hours. Add more water after a while, it it becomes too dry. Some persons like the addition of chopped onions; half a small one is enough. When nearly done, add half a gill of catsup. if you like it.

When you take up the meat, unwind th string carefully, so as not to unroll it. Lay it on a fricassee dish, thicken the gravy, i not thick enough already, and pour it over th meat. Cut the meat in slices through the roll. The toughest meat is made tender and nutritious in this way, and is equally nic

The property of this company is all owned in fee simple and is all paid for, and consists of the following tracts: 1st. That valuable island, known as the "Lower Stump Creek Island," containing 2 acres and 93 perches, situated in the Allegheny river, at the mouth of the Clarion river. On this island a derrick was erected in the spring of 1861, and an engine placed on the grounds, but the war breaking out, the parties sold off and enlisted. 2d. The "Upper Stump Creek Island," is situate but a few rods above the lower island, containing 4 acres and 20 perches, 4 acres of which are owned by this company, on which are erected a house, stable, &c. Neither of these islands is liable to overflow, and both are well protected by stone and trees against washing. By reference to stone and trees against washing. By reference to the map of Pennsylvania, it will be observed that the Clarion river empties into the Alleghenry at a point due south from Oil Creek, and as oil is found at Freeport, on this line further south, we have every reason to believe that these islands are in

the very centre of the great oil belt of Pen nia. Besides all this, they lie far below measures.

The company also owns 1 acre and 61 perches of iand about 5½ miles above the upper island, at the mouth of Ritchey Run, near the town of Emlenton, Venango Co., Pa., upon which is the celebrated Fox and Widel well, with new engine, derrick, building, &c., &c., and well bored to the depth of 420 feet. This well was tubed at 35 feet, and in a few hours pumping yielded about one barrel of oil, but the proprietors determined to sink it desper and the company will to sink it deeper, and the company will, as soon as possible, sink this well if necessary to the depth of 1000 feet or more. The "Stump Islands Company" ownes the whole interest in well, fattures and land, and "Development Fund" will be amply sufficient to complete this well and sink others in the Islands. There is besides, room enough on the Richer Run tract for several more way. n the Ritchey Run tract for several more we The property owned by this company is all practical boring territory, and persons acquainted with the lands along the Allegheny and other oil treams, will bear testimony that we have more practical boring surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the 300 persons accessed to the surface than many of the surface than the surface than many of the surface than

In addition to this, our basis will compare favor bly, with the large majority of Companies, whose apital stock is five times as great. The services of an efficient Superintendent have sen obtained, and the Directors are determined Persons desirous of securing a portion of the 21,000 shares of stock, must apply soon, to Hon. S. L. Russell, Bedford Penn'a.; at whose office subscription books have been opened for the sale of Stocks, at \$1.00 per share.

Feb. 10, 1865. prosecute operations vigorously.

LAOUTZ'S CELEBRATED

Horse and Cattle Powders. These Powders have proved, after a trial of sev

ed of medicines that have Laxative, Tonic and GENTS' FURNISHING GOODS The laxative ejects crud urifying properties. The laxative ejecties from the stomach and intestines, the tor lies from the stomach and intestines, the tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and nealthy circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal. These powders are not intended, as most powders are to bloat the animal, so as to give him the annearance of being fat when not really so—but

ntestines, cleanse them from offensive matter, and Il diseases incident to the Horse, as Glanders, fellow Water, Distempers, Founder, Heaves, Sla-ering, Coughs, Fevers Loss of Appetite and Vital Energy, &c.—These powders, if used two or hree times a week, through the winter and spring, rour horses will never got the Lung Fever Corie or Botts. A few doses of these powders will re-nove the worst cough, on any horse. Were own-res of horses to feed a few of these powders every rear, they might save the lives of many valuable norses.

MILCH COWS. The properties this powder pos

hands of every person keeping a cow. In ing cattle, it gives them an appetite, loose hide, and makes them thrive much faster, HOGS. In all diseases of swine, as coughs, ulcers in the lungs and liver, &c., by putting from half a paper apaper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented.

By using these powders the more revented.

Prepared only by, S. A. Foutz & Bro. at their Wholesale Drug & Pattent Medicine Depot, No. 116 Franklin St. Baltimore Md.

For sale by H. C. Reamer, and Dr. B. F. Harry and Druggists and Storekeepers throughout the United States, These powders can be had at manufactures' prices of Johnson Holloway & Cownantifactures' prices of Johnson Holloway & Cownantifa By using these powders the hog cholera can be
