EARLY SHEEP SHEARING. No real lover of his flock drives his sheep to the washing without a feeling akin to remorse. He would not do it were it not that Mrs. V B Tate he belteves the market demands wool washed on the back. Though it is true that washed wools sell more readily, yet in times like TH&NJ Lyons these where any and all wools are quickly ta- Peter A Ree Miss M Fett ken up, an opportunity for reform is offered SAW which ought not to be overlooked. Sheep which are to be washed ought not to be sheared before settled warm weather. In many seasons this will not come before the last of June. They are then in much less danger of this cold and receiving permanent injury. H C Reamer taking cold and receiving permanent injury. taking cold and receiving permanent injury.

is so warm that the washer does not find it
John Alzip & Son

" The shock to the flock, of the immersion in cold water and being subsequently exposed to the raw winds—followed by being reduced to a state of nakedness, is sufficient cause to account for "snuffles," and prevalent lung different substitutions. The rule is recorded to the raw winds—followed by being reduced to a state of nakedness, is sufficient cause to account for "snuffles," and prevalent lung different substitutions. ficulties. The rule in regard to washing is to wash as little as possible, but even this involves the necessity of thoroughly wetting the entire fleece. It is a great object to have the Wm Wolf Confectionery sheep sheared as early as they can be, and Eichelberger & Lowry, store John Foster, Eating house, Do Ten Pins fully a month may be gained if they are shorn without washing. The fleece starts better. Do Ten Pir Given & Maguire Johns & Co Dunn & Lawrence Vandevender & Baker Richard Langdon Alfred Evans Con R B Wigdon the sheep seem actually benefitted, weakly ones of;en brighten up and do well, and all are in much better condition to bear the autumnal storms which often come before the flocks are sufficiently clad to bear the change well. Contagious diseases are not unfrequent CUMBERLAND VALLEY TOWNSHIP. ly communicated by farmers using the same Daniel Anders Henry Miller niel Anderson, washing pens with their neighbors, which may If the sheep be shorn unwashed, particula

care should be taken to have them all well tagged, and all dirt removed which is not too thoroughly incorporated with the fleece. The discount of one third in price for unwashed wool is not fair, yet the farmer may well submit to it for the advantage his flock gains, if it be a valuable con knowing that like other abuses it will be brrected by time. Sheep should be shorn on smooth clean floors, by careful, humane, quick and experienced men. The cleanliness of the floor, the removal of dung and straw brought in upon the feet, are important.—American Agriculturist.

SELECTING SEED CORN. When seed corn has not been saved in a tumn, it should be selected from the crib with much care. Choose the long ears, with large kernels and small cob. Let every ear be broken in two, before shelling. If the pith and cob be bright, the seed will vegetate; but if they appear to have been water-soaked and D. A. T. Black John Nycum & Sons John Landerbaugh are dark-colored and somewhat mouldy; the vitality of the germs has been injured, if not entirely destroyed. Then with an ax cut off an inch of the top end of the ears selected, and all the irregular kernels at the large end. They can be cut off quicker than shelled off. The small kernels on the tip, and irregular Baughman & Co Mrs J A Mann ones on the butt of the ear will not produce as much, nor as handsome grain as those that grow in the middle of the cob. By continuing to plant the small kernels of the little Abraham Sparks end of ears, for a few years in succession, the ears will be shorter, and the kernels smaller and the irregular kernels of the butt end will produce ears destitute of kernels in rows. A G & Henry Allen The writer once planted irregular kernels for Hugh Wilson George Iiams a few successive years, and the product was short, thick ears, the kernels of irregular form, not in rows, on large cobs. When seed corn is obtained from another part of the country, it will usually ripen earlier when carrier south of the locality where it grew. A few miles, however, would make no perceptible difference. The practice of some B Elliott farmers in Central New York is, to obtain seed that grew near the shores of lakes and Jacob Evans rivers, which had ripened ten to fourteen days before that grown on the upland. By this means thoir corn is usually fit to cut up a few days sooner than it would have been, if they had planted their own seed, and will of-

ten escape early frosts. -- Ib. HOW TO KILL SHEEP TICKS.

I have recently been experimenting with coal oil for killing sheep ticks. I took a Miller & Robi couple of ticks and dropped a little oil on two or three lambs that were ticky, opened the wool, and applied it to the ticks. After several days I examined them, and found the vermin that were touched with the oil dead.

I then applied it to about twenty lambs with
good results. Try it, farmers. Take a bottle
Miss A C Smith good results. Try it, farmers. Take a bottle and fill it with common coal oil used for burning; after putting in the cork, make a hole in it, and introduce a quill, and open the wool and wherever the ticks are found squirt it in. The ticks will die, and the wool and sheep be improved. This is my experience. Try it.

TRAINING DOGS.

In the course of some conversation in rela tion to dogs, Gov. Anderson, of Ohio, related a Texan practice in training dogs with sheep: "A pup is taken from its mother before its eyes are opened, and put with an ewe to suckle. After a few times the ewe becomes rec

onciled to the pup, which follows her like a lamb, grows up among and remains with the flock, and no wolf, man, or strange dog, can come near the sheep; and the dog will bring the flock to the fold regularly at 7½ o'clock if you habitually feed him at that hour.

HOW TO COOK ASPARAGUS. Boil it in salt and water. When young, it will cook sufficiently in 15 or 29 minutes. Toast white bread and dip it into the water the asparagus has boiled in. Lay the toast into the dish, and the asparagus on top of it,

adding a little butter to each as you proceed. Such a dish, with some trifling accompaniments, will make an excellent dinner, three or four times a week.

EALLIA CAT HINT. When a cat is seen to catch a chicken, tie it round her neck, and make her wear it two or three days. Fasten it securely, for she will make incredible efforts to get rid of it. Be firm for that time, and the cat is cured-she will never again desire to touch a bird. This is what we do with our own cats, and what we recommend to our neighbors; and when they try the experiment, they and their pets are secure from reproach and danger hence-

DEDFORD COUNTY SS:

At an Orpans' Court held at Bedford, in and for the County of Bedford, on the 13th day of February, A. D. 1865, before the Judges of the said Court: On motion of John P. Reed, Esq., the Court grant a rule on the heirs and legal representatives of Catharine Mowry, late of Harrison township, deceased, to wit: lst. Frederick;,2d, Jacob; 3d. Mary Ann, wife of Samuel Turner; 4th Henry, residing in Bedford county; 5th, John Emanuel, residing in Somerset county, Pa., and 6th, Lewis, residence unknown, said to be in California, to be and appear at an Orphans' Court to be held at Bedford, in and for the county of Bedford, on the FIRST MONDAY, lst day of May next, to accept or refuse to take the real estate of said deceased at the valuation which has been valued and appraised, in pursuance of a writ of Domestic Receipts by Josh Billings. BRITISH PERIODICALS. London Quarterly Review (Conservative. Edinburgh Review (Whig.) Westminster Review (Radical).

North British Review (Free-Church). AND Blackwood's Edinburgh Magazine(Tory)

The American Publishers continue to reprint the above-named periodicals, but as the cost of printing has doubled and the price of paper nearly trebled, they are compelled to advance their terms as fol-

For Blackwood and three of the Reviews. 13.00 "
For Blackwood and the four Reviews... 15.00 "
These works will be printed on a greatly improved quality of paper, and while nearly all American Periodicals are either advanced in price or reduced in size—and very generally both, we shall continue to give faithful copies of all the matter contained in the original editions. Hence, our present prices will be found as cheap, for the amount of matter furnished, as those of any of the competing periodicals in the country.

Compared with the cost of the original editions, which at the present premium on gold would be about \$100 a year, our prices (\$15) areexceeding. I low. Add to this the fact that we make our annual payments to the British Publishers for early sheets and copyright in Gold—\$1costing us at this time nearly \$2.50 in currency—and we trust that in the scale we have adopted we shall be entirely justified by our subscribers and the reading public.

The interest of these Periodicals to American

public.

The interest of these Periodicals to American readers is rather increased than diminished by the articles they contain on ourgreat Civil War, and though sometimes tinged with prejudice they may still, considering their great ability and the different stand-points from which they arewritten, be read and studied with advantage by the people of this country of every creed and party.

GENTLEMEN'S HATS.—All the latest styles at CHARLES OAKFORD & SONS Continental Hotel, Philadelphia.

THE STUMP ISLAND OIL COMPANY. CAPITAL . . . \$120,000. Development Fund \$21,000 120,000 Shares, par value \$1

No certificates of stock to be issued to the cor-porators until 21,000 shall have been sold for the enefit of all the stockholders, in the further devel-pment of the Company's property.

WM. HARTLEY, Bedford, Pa. SECRETARY & TREASURER, Hon. S. L. RUSSELL, Bedford, Pa.

DIRECTORS Hon. T. B. SHANNON, M. C., California.

Hon. T. B. Siannon, M. C., California.

W. D. McKinstrey, Merceraburg, Pa.
Hon. Samuel Davis, Bedford, Pa.
J. M. Shoemaker,
G. W. Rupp,
"
"
The property of this company is all owned in fee simple and is all paid for, and consists of the following tracts: 1st. That valuable island, known as the "Lower Stump Creek Island," containing 2 acres and 93 perches, situated in the Allegheny river, at the mouth of the Clarion river. On this island a derrick was erected in the spring of 1861, and an engine placed on the grounds, but the war breaking out, the parties sold off and enlisted.

2d. The "Upper Stump Creek Island," is situate but a few rods above the lower island, containing 4 acres and 20 perches, 4 acres of which are owned by this company, on which are erected a house, strend, &c. Neither of these islands is liable to over... w, and both are well protected by stone and trees against washing. By reference to the man of Pennsylvania is will be a severed the

stone and trees against washing. By reference to the map of Pennsylvania, it will be observed that the Clarion river empties into the Allegheny at a point due south from Oil Oreek, and as oil is found at Freeport, on this line further south, we have every reason to believe that these islands are in the very centre of the great oil belt of Pennsylva. every reason to believe that these islands are in the very centre of the great oil belt of Pennsylva-nia. Besides all this, they lie far below the coal

mia. Besides all this, they lie far below the coal measures.

The company also owns 1 acre and 61 perches of land about 5½ miles above the upper island, at the mouth of Ritchey Run, near the town of Emlenton, Venango Co., Pa., upon which is the celebrated Fox and Widel well, with new engine, derrick, building, &c., &c., and well bored to the depth of 420 feet. This well was tubed at 350 feet, and in a few hours pumping yielded about one barrel of oil, but the proprietors determined to sink it deeper, and the company will, as soon as possible, sink this well if necessary to the depth of 1000 feet or more. The "Stump Islands Company" ownes the whole interest in well, fixtures and land, and "Development Fund" will be amply sufficient to complete this well and sink others in the Islands. There is besides, room enough on the Ritchey Run tract for several more wells. The property owned by this company is all practical boring territory, and persons acquainted with the lands along the Allegheny and other oil streams, will bear testimony that we have more practical boring surface than many of the 300 acre tracts contain.

In addition to this, our basis will compare favorrably, with the large majority of Companies, whose Canitul stock is five times as creat.

In addition to this, our basis will compare favorrably, with the large majority of Companies, whose
Capital stock is five times as great.

The services of an efficient Superintendent have
been obtained, and the Directors are determined
to prosecute operations vigorously.

Persons desirous of securing a portion of the
21,000 shares of stock, must apply seon, to Hon.
S. L. Russell, Bedford Penn'a.; at whose office
subscription books have been opened for the sale
of Stocks, at \$1.00 per share. f Stocks, at \$1.00 per share.

Horse and Cattle Powders.

These Powders have proved, after a trial of sev-These Powders have proved, after a trial of sev-ral years, to-be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact that they are compos-d of medicines that have Laxative, Tonic and Purifying properties. The laxative ejects crudi-'urifying properties. The laxative ejects crudi-ies from the stomach and intestines, the tonic gives rength to the system of the Horse, and the pur strength to the system of the Horse, and the puri-fying medicines contained in them cleanse the blood, and lay the foundation for a vigorous and nealthy circulation. The use of them improves the wind, strengthens the appetite and gives the horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

These powders are not intended, as most powders are to bloat the animal, so as to give him the appearance of being fat when not really so—but to remove the disease and promote his general health.

These powders will strengthen the stomach and These powders will strengthen the stomach and intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure prevention of Lung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Fevers Loss of Appetite and Vital Energy, &c.—These powders, if used two or three times a week, through the winter and spring, your horses will never get the Lung Fever Corie our horses will never get the Lung Fever Corie or Botts. A few doses of these powders will remove the worst cough, on any horse. Were own-ers of horses to feed a few of these powders every year, they might save the lives of many valuable

MILCH COWS. The properties this powder possesses i

ing the quantity of milk in cows, gives it an portance and value which should place it in the hands of every person keeping a cow. In fatten-ing cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster, HOGS. In all diseases of swine, as coughs, ulcers in the lungs and liver, &c., by putting from half a paper to a paper of these powders in a barrel of swill, the above diseases can be cured or entirely prevented.

revented. Prepared only by, S. A. Foutz & Bro. at their Wholesale Drug & Pattent Medicine Depot, No. 116 Franklin St. Baltimore Md. For sale by H. C. Reamer, and Dr. B. F. Harry and Druggists and Storekeepers throughout the United States, These powders can be had at manufactures' priese of Johnson Holloway & Cow-der, No. 23 North Third St. Philadelphia.

By using these powders the hog cholera can be
