VALUABLE PROPERTY farm, Garden & Household.

THE following useful hints we clip from that best of all agricultural journals, The American Agriculturist. Every one wh has a square rod of ground to cultivate should take and read the Agriculturist and he will secure not only profit, but also pleasure thereby. It is published by Orange Judd, 41 Park Row, N. Y. City, at \$1 50 per annum, in advance.

FAULT GARDEN. -- Every one growing fruit should aim to have the best of its kind, and now that the different ones are ripening i succession, he should compare his own varieties with those grown by others, to see what room there is for improvement. The local horticultural exhibitions and farmers' clubs, are very instructive to this end; and ONE TRACT OF MOUNTAIN LAND, where these are not held, one should visit his neighbors to compare notes.

Blackberries .- Keep the ground free of weeds by hoeing, or a heavy mulch, which is better, as it is difficult to work among the bushes. Tie up the branchesthat bend over with their load of fruit.

Grape Vines .- Keep all vines, young cr old, tied to the trellis or stakes. Pinch the laterals to one leaf and when a new growth starts from the pinched lateral, pinch that again to one leaf, and keep doing this. Stop the growth of fruiting canes by pinching them at 3 or 4 leaves beyond the uppermost bunch of fruit. Do not allow any vines, young ones, especially, to overbear. Thrips are very troublesome in some places: it i said that sulphur will keep them away.

Raspberries .- As soon as the fruit is off. cut away the old canes and remove all of the DRY AND FANCY GOODS, new ones not needed for next year's bear

Strauberring-After the picking is over fork a good compost in around them. Keep the runners pinched off unless new plants are needed.

Weeds .- Write the words, Mow Weeds, in large letters, where all hands will be sure to see them ; and let every laborer under stand, that if it is too wet to work at hay, grain, or hoed crops, weeds may be mowed, elose to the ground. In many pastures, large bull thistles cover nearly one half the ground. They should be mowed not only to allow the grass to grow, but to prevent the seed blowing over the country-

OILING FARM IMPLEMENTS.

Every farmer should have a can of linseed oil and a brush on hand, and whenever he buys a new tool he should soak it well with the oil, and dry it by the fire, or in the sun, before using, The wood, by this treatment, is toughened and strengthened, and rendered impervious to water. Wet # new hayrake and dry it, and it will begin to loose in the joints; but if well oiled, the wet will have but slight effect. Shovels and forks are preserved from checking and cracking in the top of the handle by oiling, and the wood becomes smooth os glass by use, and is far less liable to blister the hand when long used. Axe and hammer handles often break off where the wood enters the mon , this part particularly should be toughened with oil, to secure durability. Oiling the wood in the eye of the axe will prevent its swelling and shrinking, and sometimes getting loose. The tools on a large farm cost a large sum of money ; they should be of the nost approved kinds. It is a poor economy at the present extravagant price of labour, to set men to work with ordinary, old-fashioned implements. Labourers should be required to return their tools to the convenient place provided for them after using ; they should

FOR SALE. The undersigned will sell his farm in St. Slair tpy

reortaining TWO HUNDRED ACRES, and allowance, situated near the town of St. Clairs-ville, with sbort one hundred acres cleared, with good fences, end in a high state of cultivation, with good necadow, and all the balance of the land well timbered, and will be good farming and meadow land when cleared, with several fance sev-re-failing springs, which water nearly all the fields and wood-land. There is a

Good Log House, Double Log Barn, Wagon Shed, Small Frame Stable,

and a good Spring House, ellent water, new the house. Also, a fine YOUNG APPLE ORCHARD, of choice fruit, with a number of fine PEACH and CHERRY trees. Also,

n the same township, with the best of Pine, Oak and Chestaws timber, containing one hundred acres, with three saw mills convenient, one within one fourth of a mile, the timber casily gotten off, part of the land good farming land when cleared.

Also, A LARGE DOUBLE HOUSE,

A LARTE DOUBLE HUGESE, Situate in the town of St. Clairsville, on-corner of Bedford and Grass streets, with spring house, granary, large stable, carriage house, and a good, well of water under roof of the house, with all other necessary out-buildings, two first sate lots of ground with new fences all around them. This property would suit well for a tavern or store, as every convenience is there for either. For further nertical sea and to.

Horse and Cattle Powders. These Powders have proved, after a trial of sev

These powders will strengthen the stomach and

ISAAC F. GROVE, Proprietor.

These Powders have proved, after a trial of sev-eral years, to be superior to any preparation of the kind in use. The chief superiority of these powders arises from the fact that they arecompos-ed of medicines that have Laxative, Tonie and Purifying properties. The laxative cjects crudi-tics from the stomach and intestines, the tonic gives strength to the system of the Horse, and the puri-fying medicines contained in them cleanse the blood, and lay the foundation for a vigorous [and healthy circulation. The use of them improves the wind, strengthemsthe appetite and gives the horse, a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal. These powders are not intended, as most pow-ders are to bloat the animal, so as to give him the appearance of being fat when not really so—but to remove the discase and promote his general health. THE subscriber would respectfully announce o his friends in Bedford County, and the public enerally that he has leased for a term of years, his large and convenient brick hotel, at the corner f Pitt and Julianna Streets, Bedford Pa., known s the WASHINGTON HOTEL, and formerly opt by Wr. solete. It is so easy to put up fresh fruit to all of which he respectfully extends an invit. in bottles or jars, that every one may thus preserve almost every kind of fruit and sauce, and keep it in nearly its fresh state. We use the Baker, or Potter & Bedine glass jars almost exclusively, after having tried in bottles or jars, that every one may thus over-ripe, strawberries or other fruits, are GOOD GOODS AT FAIR PRICES. picked clean, put into a glazed vessel with and all he asks is for his friends to give him a call a little sugar, (1 to a 1 the weight of sugar, MAKE ANYTHING TO ORDER a little sugar, (4 to a 4 the weight of sugar, necording to the sweetness of the frnit) and simply heated through—just boiling up once is usually sufficient. The glass jars are warmed as wanted, by plunging them rapid-ly into hot water a few times, then filled with hot water for a few minutes, when they are emptied and the hot fruit is dipped in care-fully, to keep it as whole as possible. The jars are filled to the top, allowed to stand a minute or two, and gently jarred to cause the rising and escape of any air bubbles. They are then filled again to the top, the edge of the jar wiped off with a damp clock, the caps fastened on firmly, and then set away in a cellar until wanted for use. Rhubarb. tomatoes, etc., are simply cooked as for the table, and put up hot, without any sugar.-American Agriculturalist.

THE FARMER'S BAROMETER.

Take a common pickle bottle, wide-mouth-In fine weather the water will rise into the meck of the flask, even higher than the mouth of the pickle-bottle, and in wet and windy weather it will fall within an inch of the mouth of the flask. Before a heavy gale of wind the water has been seen to leave the flask altogether at least eight hours before the gale came to its height.— The invention was made by a German, and communicated to a London journal.

Subscribers to the Bedford Inquirer Lookout !

Take a common pickle bottle, wide-mouthed, fill it within three inches of the top with water; then take a common Florence oil flask, removing the straw covering, and cleansing the flask thoroughly; plunge the neck of the flask into the pickle bottle as far as it will go, and the barometer is complete. In fine weather the water will rise into the meck of the flask, even higher than the mouth of the pickle-bottle, and in wet and the tase of the flask. So call on Messrs DURBORKOW the mouth of the pickle-bottle, and in wet and the tase of the flask. The mouth of the pickle-bottle, and in wet and the flask into the pickle bottle as far as it will go. CRAMERS' SILKS, CLOAKING, CLOTHS ALPACCAS, DELAINES, BOMBAZINES, PO PV CH
