HEAD-WORK IN FARMING.

By the term head-work I mean the verification of the ancient saying of "making the head save the heels," or lessening labor by forethought.

How often do we hear persons give as a reason for making a mistake that "they did not think!" It is by no means an uncommon thing to find two farmers, having the same amount of work to do, with the same amount of help, and yet one is always hurried, while with the other everything goes on like clock-work.

Another great advantage to be derived from head-work is that it will teach a man the true meaning of the word economy. Many farmers "economize" in a way which is anything but economy.

Let us apply head-work to this, and see what such economy is. Almost any one will admit that a coat of lime applied to a field which has had none for ten or fifteen years, will increase the yield to an amount equivalent to two bushels of wheat per acre, and will continue this rate of increase for five years at least.

BRITISH PERIODICALS.

London Quarterly Review (Conservative), Edinburgh Review (Whig), Westminster Review (Radical), North British Review (Free-Church).

Blackwood's Edinburgh Magazine (Tory)

The American Publishers continue to reprint the above-named periodicals, but as the cost of printing has doubled and the price of paper nearly trebled, they are compelled to advance their terms as follows:

For any one of the Reviews..... \$4.00
For any two of the Reviews..... 7.00
For any three of the Reviews..... 10.00
For all four of the Reviews..... 12.00
For Blackwood's Magazine..... 4.00
For Blackwood and any one Review..... 7.00
For Blackwood and two of the Reviews..... 10.00
For Blackwood and three of the Reviews..... 12.00
For Blackwood and the four Reviews..... 13.00

These works will be printed on a greatly improved quality of paper, and while nearly all American Periodicals are either advanced in price or reduced in size—and very generally both, we shall continue to give faithful copies of all the matter contained in the original editions. Hence, our present prices will be found as cheap, for the amount of matter furnished, as those of any of the competing periodicals in the country.

Compared with the cost of the original editions, which at the present premium on gold would be about \$100 a year, our prices (\$10) are exceedingly low. Add to this the fact that we make our annual payments to the British Publishers for early sheets and copyright in Gold—Stipulating us at this time nearly \$250 in currency—and we trust that in the scale we have adopted we shall be entirely justified by our subscribers and the reading public.

The interest of these Periodicals to American readers is rather increased than diminished by the articles they contain on current Civil War, and they sometimes furnish with probability they may still, considering their great ability and the different stand-points from which they are written, be read and studied with advantage by the people of this country of any creed and party.
