G. R. & W. OSTER.

A NEW RAILROAD PROJECT--- THE BEDFORD ROUTE THE BEST UNOCCUPIED RAILROAD GROUND IN PENNSYLVANIA AT THIS DAY We find the following communication and editorial remarks, in a late number of the U.S. Railroad and Mining Register, published in

"Your acquaintance with the current railroad projects of the day, and especially your frequent favorable notices of Harrisburg as an iron works centre, prompt me to put before your readers a project for an iron and coal railroad which, on its completion, would command a mineral traffic of a million of tons the first year, to begin with.

"Starting from a point on the Lebanon Valley Railroad, and passing on the south side of Harrisburg to an eligible site for a railroad bridge across the Susquehanna; thence up the Yellow Breeches creek, through and near a series of iron ore deposits opened at intervals along the foot of the South Mountain; thence across the route of the Cumberland Valley Railroad in the vicinage of Shippensburg; thence west to the Huntingdon and Broad Top Railroad, on the waters of Bloody Run; and thence on, via Bedford, to a connection with the Pittsburg and Connellsville Railroad on Wills creek, twelve miles from Cumber

"With this road built, the Broad Top coal region would mine and forward to market a half million tons of coal and more, per year whilst large quantities of Somerset coal would be received on the new road, at its Wills creek connection with the Pittsburg and Counellsville Railroad.

"I know very well that it is contemplated o connect the South Pennsylvania Railroad with the Cumberland Valley Railroad, via oudon; but I know, too, that the road which I am foreshadowing, as an elongation, so to speak, of the Lebanon Valley Railroad, could ommand the Broad Top coal tonnage and eciprocate inter-trade with the Pittsburg and Connellsville Railroad.

"And if it be offset against my prop that there has long been in use a railroad in the Cumberland Valley, I answer, very true, but it is in the basin of the Conedegwinnet, ome miles north of Yellow Breeches creek. which latter flows east along the south side of the valley, where the iron ores outcrop, and whence a new tonnage would be supplied to Harrisburg, and its vicinity, as an absorbing

ore market. "Besides, it is no novelty to see two roads in the same valley, as witness the Susquehan na the Schuylkill and the Lehigh valleys. The two great carriers that reach Harrisburg from Philadelphia, one via Reading, the other via Lancaster, should each have an ally and feeder in the Cumberland valley. And as the ancaster route may be called the line for miscellaneous traffic, so the Reading route is distinguished as a line for mineral tonnage Moreover, the Cumberland Valley Railroad dips down south into Maryland, having one erminus at Hagerstown; whereas the Yellow Breeches route climbs out of the Cumberland

onnty. "The Huntingdon and Broad Top Railroad 44 miles long, is now open and in operation, from Huntingdon on the Juniata to Mount mi les long,) leading to the coal mines. Over two millions of dollars are invested in the

field in amount equal to the whole cost of a J. P. Penny, that of your distinguished felnew road from Harrisburg, via Yellow low townsman, Hon. John Cessna, is promi-Breeches creek, to the Huntingdon and Broad Top Railroad. It would save to the Broad Union nomination. Top colliery operators a dollar a ton in cost forwording coal to market, which saving alone would more than pay the interest on the whole cost of the new road; and if we add last heard from, his Excellency's health had what it would enhance Broad Top coal lands and Huntingdon and Rroad Top Railroad shares, we see the whole cost of the road rep resented in the increased value imparted t existing investments in the Broad Top district.

"So, too, with the iron ore deposits on Yellow Breeches creek, from which an ore trade that would soon rise into hundreds of thousands of tons per annum; the profits on the ore and on its transportation would jointly make up a sum sufficient to warrant the building of the railroad to the head of Yellow Breeches creek. So you see that, from several standpoints, the enterprise commands the elements that assure successs and profit." Note by Editor of Register .- Our own

opinion of this Dauphin and Bedford project may be expressed in few words:

"In the first place, it proposes to occupy the best unoccupied railroad ground in Pennsylvania at this day, provided that it be built all the way through from the Lebanon Valley R. R. to the Pittsburg and Connellsville R. R. or Cumberland; and that it be operated under lease by the Philadelphia and Reading R. R. ed to pay respect to the memory of their late to accommodate the Broad Top coal trade, comrade in arms, JERRY BROWN, Philip and also the Somerset coal trade; and also to ard was called to the chair and Wm. G. form a combination line to Pittsburg, via Riffle elected secretary. On motion of Wm.

G. Riffle the following resolutions were read and unanimously adopted:

Whereas, We have been informed of the Ohio river, and to Parkersburg on the Ohio quehanna and its tributaries, which will enable shad and other valuable fish to ascend to the head waters of these streams. The following named gentlemen were then appointed delegates: Maj. D. W. Washabaugh, Elon. G. W. Householder, Hon. D. B. Armstrong, Hon. W. P. Schell, J. F. Lowry, C. W. Ash
Whereas, We have been informed of the death of our late comrade, Jerry Brown, the intelligence of which has created feelings of the deepest regret and most profund sorrow amongst us, and Whereas, We have met together to express of the deepest regret and most profund sorrow amongst us, and Whereas, We have met together to express of the deepest regret and most profund sorrow amongst us, and the two great cities at tidewater. This mark our associate action with that unanimity which comes from the heart and voice of all.

"Now that this duck, like bipeds of a highenlargement, in minds open to events in the

future. Moreover, it is the interest of Harrisburg to have an independent railroad which will bring to its furnaces iron ores from the immense deposits of hematite opened along Yellow Breeches creek, and, to its workshops and establishments of all kinds, coals from Broad Top and Somerset.

And from the array of advantages, prospects, facilities and profits embodied in the cheme, ordinary management under a liberal charter from the Legislature, (which Harrisburg influence will doubtless procure,) ought to be able to allot the whole work in one contract, payable in shares and bonds, to one firm of contractors in command of means to build the roadway entire and intact, river bridge included, from the Lebanon Valley Railroad to the Pittsburg and Connellsville Railroad, or to the Baltimore and Ohio Railroad at Cumberland.

ONDON LAYER RAISONS, Richardson's

FULL PARTICULARS OF THE DEATH OF CAPT HARRY N. BAKER ... From a letter written by George Lander, Esq., Postmaster at Fayetteville, North Carolina, dated December 21st, and received last evening at this office, we gleau the following particulars of the death of Capt. Harry N. Baker: Mr. Baker, it appears, after being mustered out of the service of the United States, took up his residence in Fayetteville, and soon after established a line of stage coaches between that and Warsaw, on the Wilmington and Weldon Railroad. On the tenth day of November last, Capt. Baker, in company with Masses, Bowes and Newal, 'hind "hind " in company with Messrs. Bowes and Newal, was returning from Warsaw in one of the coaches driven by a negro. When within about ten miles of Fayetteville, they met a solitary horseman, who presented a revolver, ordered the driver to halt, and at once demanded of the inmates of the coach the money and portable property in their possession. Mr. Bowes was in the act of taking some money from his vest pocket when the highwayman fired his pistol, the ball striking him on the hand, but glanced off, without inflicting any serious damage. Both Bowes and Newal then threw themselves upon the floor of the ARRIVALS FOR THE WEEK ENDING DEC. 16, 1865. then threw themselves upon the floor of the coach, a second shot passing over them. The robber next turned his attention to Mr. Baker, and taking deliberate aim fired, the ball entering his body above the hip. Another shot was fired which entered the back of the head of the deliverable of the head of the head of the deliverable of the head of the h was fred which entered the back of the head of the driver, who fell into the stage apparently dead. Mr. Baker then jumped down upon the pole of the vehicle, gathered up the rains and started the horses at full speed. The robber followed, and fired again, this time, hitting one of the horses, and inflicting a severe ting one of the horses, and inflicting a severe with the stage of the horses, and inflicting a severe to the driver the stage of the horses, and inflicting a severe to the driver, and the stage of the horses, and inflicting a severe to the driver, who fell into the stage apparent by the stage of the driver, Moon, Allegheny co. Pa.

M B Brownfield, Uniontown, *ayette co., Pa. wound. He then road ahead of the stage. apparently for the purpose of reloading his weapon. While so engaged, two gentlemen in a buggy came in sight, when the disciple of Dick Turpin took to the woods, and almost instantly disappeared. None of the party were armed, hence no resistance was made The negro was left at a house about a mile from the scene of action, where a fresh horse was procured, and the stage arrived in town

between six and seven in the evening. Mr. Baker was at once taken to the resi ence of Alexander McPhail, Esq., where he oarded, and a physician sent for who proounced the wound serious, but not necessa rily fatal. The next day after, another physi ian was called, and under their treatmen Mr. B. gave signs of rapid recovery. On the 13th, however, a change for the worse took dace, and on the morning of the 14th he eathed his last. Captain B. was highly esemed by all who knew him. Although ev erv effort was made to capture his murderer, the scoundrel escaped and is still at large .--Pittsburg Chronicle.

HARRISBURG CORRESPONDENCE. HARRISBURG, January 1, 1866.

EDITORS INQUIRER: The approaching meeting of the Legislaare has attracted quite a number of strangers to the city. Beside the members, and valley, and pursues a western course to the the place-hunters (and their name is legion) foot of the Allegheny Mountain, in Bedford there is quite an influx of politicians and

rominent men. The preliminaries of the organization have een gone through with. James R. Kelly of Washington county, and A. W. Benedict of own three branches, (one of which is nine a manimous vote of the Union marrhers for a unanimous vote of the Union members for speaker and chief clerk. The Democrats will,

nently mentioned in connection with the next

The Legislature will probably adjourn as oon as organized for a week or ten days on ccount of the absence of Gov. Curtin. When onsiderably improved.

The members from four districts are here, nd have taken rooms at the Lochiel. The snow that fell on saturday has made sleighing and the people here are enjoying it.

In our next we will give the organization of the Senate and House.

CONSULTING MINEROLOGIST, EUGENE N. RIOTTE, Esq., Austin City;

This Company has been organized for the purpose of prosecuting the business of Silver Mining on a thoroughly legitimate basis, devoid of all attempts at speculation. Their property comprises six (6) separate, distinct, Silver-bearing Ledges or Lodes in San Antonio Mining District, Nye county, Nevada, in the richest portion of the celebrated "Reese-river Region," and admirably located in every respect for profitable mining. These Silver Mines are known respectively as the Cx-SAR, CICERO, SHAKESPEARE, SHAY and CURTIS, PALESTINE and MACEDON LEDGES, and the property of the Company consists of an original location of 1,000 feet along the course of each vein. or a grand total of SIX THOUSAND FEET OF MINING GROUND. The Secretary of the Coxpany has visited these mines in company with several experienced miners and mining engineers, and given them a thorough examination. Full particulars in regard to their inexhaustible wealth and resources will be furnished on application at the Principal Office,

HARRISBURG TELEGRAPH.

For the Legislative Session of 1866.

GEORGE BERGNER, Proprietor.

The Harrisdurg Telegraph is the only newspaper at the State Capitol which gives a resume of the daily proceedings of the Legislature, and as the session of 1866 will be organized in a few days, those desirous of placing their names on our subscription books should not delay doing so immediately.

The morning edition of the Telegraph, besides containing a condensed statement of each day's proceedings of the Legislature, gives the earliest telegraphic reports of important events throughout the country, and will contain also a synopsis of each day's proceedings of Congress, all of which is accessible to the readers along the Pennsylvania railroad west, the Northern Central north, the Lebanon Valley asst, and the Cumberland Valley and other railroads, from five to eight hours in advance of the papers from New York and Philadelphia.

One year in advance,
Three copies to one address, in advance,
Five copies to one address, in advance, and
one extra copy to the man sending the
club.
